Provide a list of other res	search outputs. F	or example: con the public, pate	nmunity engagen	nent activities, p	ublic presentati

PART 2: RESEARCH PROJECT

A.	Please provide a summary of the research project to be undertaken, including a clear description of your role and contribution to the research project (750 words maximum, one page of figures/references/graphical abstract may be included as an appendix). This should be written by the student with input from the supervisor.

B.	Please explain how the project is relevant to cancer, including specific areas and tumor types if applicable. (150 words maximum).
C.	Please provide a lay summary of the project that could be shared with the public (250 words maximum)

PART 3: RELEVANT EXPERIENCE AND PROGRESS

Please describe how your education, training and research experience have set you up to be successful in completing the project. If you have started your thesis research, also include progress on the research project giving specific examples in technical (e.g., flow cytometry), scientific (e.g., writing) and professional (e.g., networking) areas. (750 word maximum).

PART 4: RESEARCH ENVIRONMENT

To be completed by the supervisor. Please explain how the research environment, including resources, available funding, and established track record in the field, will contribute to the applicant's success; and how you will mentor the trainee to ensure successful completion of the project. (500 word maximum)
