Overview

The Board of Governors of the University of Alberta is accountable for the effective and efficient stewardship of University funds. The University of Alberta is a registered charity.

As well as legislative related compliances, a large component of the funding received by the University is restricted in use by the terms and conditions attached by sponsors and donors. These and other requirements compel the University to have an effective system of financial internal controls.

A system of financial internal control consists of the policies and procedures established and maintained by administration to assist in achieving its objective of ensuring, as far as practical, the orderly and efficient conduct of the entity's business.

The University's system of financial internal controls consists of policies, procedures, and financial systems that provide for financial transaction processing as well as financial reporting for control, planning and decision making purposes. These policies, procedures and financial systems support many areas such as the determination and collection of revenues, control of expenditures, safeguarding of assets, and management of liabilities and risks. Financial controls provide guidance on the authorization of transactions and activities, appropriate segregation of duties, adequate documents and records and adequate safeguards over access to and use of assets and records.

Purpose

To ensure financial management activities and practices that promotes appropriate and effective stewardship of all University funds (all University funds includes both unrestricted and restricted funds)

POLICY

The University of Alberta will conduct its financial operations within the following guiding principles:

- complying with applicable legislation, University of Alberta policies and procedures, sponsor and donor terms and conditions
- reporting in accordance with Canadian generally accepted accounting principles (GAAP),

- maintaining appropriate and effective systems of internal controls with the emphasis on relevant institutional policy and procedures, data integrity and clearly defined roles and accountabilities,
- maximizing utilization of available resources,
- not paying interest, except in specific situations (refer to *Interest Procedure – Restricted Accounts*),
- disallowing over expenditures, except in specific situations (refer to *Budget Variance Accountability Procedure, Research Over Expenditure (Authorized) Procedure*),
- using a best practices approach, and
- leveraging technology
