

SPECULATIVE ENERGY FUTURES: PROTOTYPES FOR POSSIBLE WORLDS

Speculative Energy Futures brings together artists, designers, activists, engineers, policy makers, scientists, humanists, social scientists, Indigenous legal experts and more, to inquire into the complex intersections of climate change and energy transition as interlocking sites of possibility as we imagine/model a range of potential low-carbon just futures.

10–21 DECEMBER 2019 & 7–11 JANUARY 2020
