

COLLECTION DATA FOR TRICHOPTERA RECORDED FROM ALBERTA AND ADJACENT AREAS,
USING CURRENTLY RECOGNISED NAMES, AND GIVING LOCALITIES, DATES, NUMBERS
OF EACH SEX, AND COLLECTORS

Alberta records are given first, followed by sheets giving other records,
where applicable.

Species are arranged alphabetically within the genera, which are, themselves,
arranged alphabetically.

The following 2 pages list abbreviations and symbols used in the recording.
It is necessary to consult these to comprehend the 'shorthand' method of
entering the records.

A companion series of records presents the information according to locality.
These are housed in RED binders.

The majority of the material recorded here is in the Strickland Museum, Entomology Dept, University of Alberta, Edmonton, Alta. Some is in the Reference Collection of A.P.N. Small selections have, and will be, sent to interested workers (USNM, Romania, France, Austria, etc) as reference material. Some records are from collections of others, of which some are at the U. of A. now, and the remainder returned (Donald, Crowther, Mutch, etc). Other records are extracted from other establishment's collections (ROM - Wiggins; CNC - Brooks, Hardwick, Ricker, Konotopetz; Banff National Park - Sanson; Illinois Natural History Survey - Ross, Garrett; etc) and some from the literature.

Of the material in the Strickland museum, that recorded in my papers to date is housed in vials in glass jars. The remainder, collected after each paper is published, is housed in dental anaesthetic tubes, in tobacco tins (? may -ary); in those instances where there was too much material for a tube, the material is housed in vials (in tins).

Disposition of type material is set forth in the appropriate papers - some paratypes are in the Strickland Museum, and will be housed separately & distinctively.

Also, those specimens used in illustration will be housed separately and distinctively, along with associated wing slides.

A catalogue is, or will be produced to give access to the stored collection.

Anyone searching for particular vials or tubes should note that, at one time, after extracting some material from the vial or tube, for sending to another worker, I would alter the #s in the vials or tubes, of each sex. Hence the #s in the vials or tubes do not match the #s recorded here. Henceforth, specimens may be extracted, but no alteration to the #s recorded on the label will be made.

Ottawa, October 1, 1977

Andrew P.Nimmo

LIST OF ABBREVIATIONS USED IN THESE RECORDS

Alta	Alberta
Alta Agric.	Plant Protection Branch (H.Philip), Alberta Dept. of Agriculture (Light Trapping Program)
B.C.	British Columbia
BJH	Banff Jasper Highway Between Hwys 1 & 16
Bk	brook
BNP	Banff National Park
Camp	usually Alta Dept Hwys public campsite as marker
Ck	creek, when a name is given, as in Sundance Ck
ck	creek, when no name known to me
cklet	small creek or trickle, as above
DTH	David Thompson Hwy (Hwy 11)

@	at

'BY LOCALITIES' collection records files

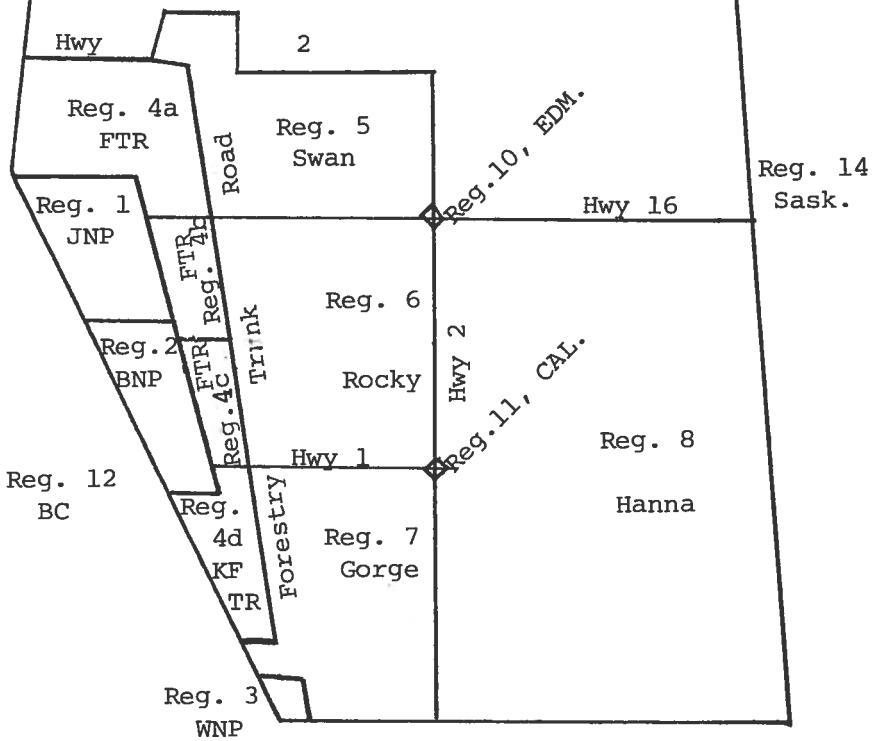

The records 'by locality' have been arbitrarily split into what I call 'regions'. A schematic map of Alberta and adjacent areas is presented at the beginning of each regional group of records. These maps show the regions used. On each map the region in question is outlined in red, showing the region (Reg.) #, and the name I have assigned to that region, derived from some point of geography in that region, human or otherwise. A key is given below. As many of the regions are bounded by highways, and I derive many of my records from bridges and culverts running under these highways, it has been necessary to assign the highways in question to one or other of contiguous regions. This is indicated by the side of the highway on which the red boundary line is placed. It should be noted that a lake or slough which may be just yards off a highway, falls in the region assigned to that side of the highway and is in no way connected with the assignation of the highway.

Key to obscure regional names

BNP	-	Banff National Park
CAL	-	Calgary
EDM	-	Edmonton
FTR	-	Forestry Trunk Road
GORGE	-	Gorge Ck area, W/Turner Valley
HANNA	-	A town NE/Calgary
JNP	-	Jasper National Park
KFTR	-	Kananaskis Forestry Trunk Road
ROCKY	-	Rocky Mountain House
SLAVE	-	Lesser Slave Lake
SWAN	-	Swan Hills
WNP	-	Waterton Lakes National Park
