

# Medical Education Publication Award

## Terms of Reference

Publication in a top ranked journal or peer-reviewed compendium, with the work having been completed at the University of Alberta and the award winner being any of the following that demonstrate being a lead contributor to authorship or at least *primus inter pares* (first amongst equals): first author, shared first authorship, senior author, joint senior author, or corresponding author.

Although systematic reviews that make major contributions are eligible, adjudicators will be asked to weigh original papers more favourably.

Only papers published electronically and/or in hard copy in the previous calendar year will be eligible.

Only a single paper can be submitted per nominee.

The award may not be conferred more than once to any individual within a 5 year period.

The award may not be conferred in a given year if there have been insufficient nominations.

Adjudicators will include members of the Medical Education Executive Committee.
