PALEONTOLOGY MUSEUM FOSSIL HUNT

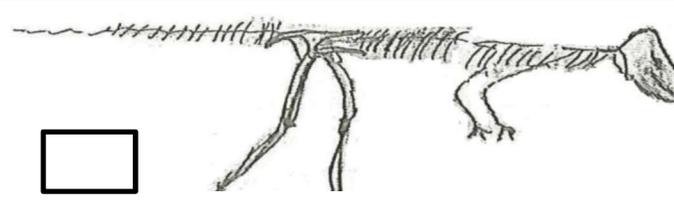

A **paleontologist** studies fossils and other evidence of ancient life. To be a fossil, remains must be more than 10,000 years old! Find the fossils. Put a check in the box or answer the question when you do.

 Eryops - early amphibian

 Manticeras - ammonoid (food for swimming reptiles)

 Chasmosaurus canadensis - horned dinosaur

 Stegoceras - dome-headed dinosaur

 Ichthyosaurus intermedius - What ocean-swimming mammal does this reptile look like?

 Champsosaurus natator - swimming reptile

 Trilobite model

 Aspideretes allani - soft-shelled turtle
WHERE IS ITS BACKBONE?

 Pteranodon - flying reptile (see how the bones fit together?)

 Pick the age of the dinosaur *Chasmosaurus belli*. Is it old or a baby?

 Bobasatrania canadensis - food for swimming reptiles

 Leg bone of hadrosaur

 Mammothus primigenius - What did woolly mammoths eat?
