Note 8 Cooperative Education (Work Experience) Route for the BA Major in Planning

The Cooperative Education (Work Experience) Route gives students who have completed their third year of study in the BA Planning Major, including successful completion of HGP 310 and HGP 315 (or equivalent), and who present a Faculty Grade Point Average of at least 2.3, an opportunity for extended, paid work experience. The placement lasts for four, eight or 12 months, and, after completing the reporting requirements, a student can receive university credit for the experience. The Work Experience designation will appear on the degree parchments of students who have successfully completed the placement. During the placement, students are considered full-time students of the University. Work experience courses have no weight and are graded credit/no credit, and recorded on the student's transcript. The Work Experience Program Advisor maintains contact at approximately three month intervals with the student and the person designated by the employer to be responsible for the student's progress. This arrangement ensures satisfaction on all sides. If the review shows the situation is not satisfactory, the placement may be terminated and the student would then return to classes at the next available opportunity. The graduation requirement for the Work Experience program designation includes successful completion of a least WKEXP 801 and WKEXP 802 plus HGP 401. HGP 401 must be taken in the term immediately following completion of the WKEXP period. If required by the employer, the student's written report and oral presentation in HGP 401 may be classified confidential. The employer also assesses the student's performance during the placement. Based on the student's written report and oral presentation, and the report from the employer, students are awarded a grade in HGP 401.

**Students should have their program approved by their Program Advisor every year.
