Students should review their program requirements every year.

Revised April 26, 2021

Degree Checklist - B.A. Major in Planning

effective Fall 2021 admission

- Note 1** Courses that count as senior level Planning courses include PLAN 210, 211, 310, 315, 316, 317, 355, 399, 410, 412, 485 and 495. Students cannot take more than *48 in these courses.
- Note 2** Students can take other EAS and HGEO courses and these will not count towards the *48 maximum allowed for the BA Planning Major.
- Note 3** Students must complete a minimum of *63 offered by the Faculty of Arts and a minimum of *6 in selected from courses offered by the Faculty of Science or used by the Faculty of Science as Science courses.
- Note 4** The Planning Major must include a minimum of *30 to a maximum of *48 at the senior level. At least *6 must be at the 400-level. A minimum of *15 at the senior level toward the major must be completed with coursework offered by the Faculty of Arts.
- Note 5** **Students who are majoring in Planning cannot minor in Human Geography.** If a minor is declared, it must include a minimum of *12 to a maximum of *42 at the senior level. At least *6 must be at the 300- or 400-level.
- Note 6** The information in this program planner is based on that in the University Calendar. In the event of a discrepancy, the information in the University Calendar takes precedence.
- Note 7** **Cooperative Education (Work Experience) Route for the BA Major in Planning**

The Cooperative Education (Work Experience) Route gives students who have completed a minimum of 48 units in the BA Planning Major and who present a Faculty Grade Point Average of at least 2.3, an opportunity for extended, paid work experience. The work experience lasts for four, eight or 12 months, and, after completing the reporting requirements, students who successfully complete at least 8 months of work experience can receive a Work Experience designation on their degree parchment. The graduation requirement for the Work Experience program designation includes successful completion of a least WKEXP 801 and WKEXP 802. During the placement, students are considered full-time students of the University. Work experience courses have no weight and are graded credit/no credit, and recorded on the student's transcript. The Work Experience Program Advisor maintains contact at approximately three month intervals with the student and the person designated by the employer to be responsible for the student's progress. This arrangement ensures satisfaction on all sides. If the review shows the situation is not satisfactory, the placement may be terminated and the student would then return to classes at the next available opportunity.

Students should review their program requirements every year.
