

Recycle Your Used Writing Instruments

Drop your used pens, mechanical pencils, markers, highlighters and caps here for recycling.

Every year, 11 billion ballpoint pens are sold worldwide. Don't let them all end up in the landfill.

The plastic in pens and other writing instruments can be recycled and turned into new products including park benches, picnic tables and waste bins.

The bin's full! Now what?

Once your bin is full, box or bag the writing instruments and send through campus mail to Supply Management Services (20 lbs max).

Please label the package: **TerraCycle Pens.**

SMS will bring them to the nearest TerraCycle® Staples Recycling location.

Any questions? Please contact zerowaste@ualberta.ca or call 780-492-3705.
