

## How You Helped

Together WE CAN...

More than twenty-five years of ESRM expertise at UAlberta's Faculty of Engineering went into the creation of the **David and Joan Lynch School of Engineering Safety and Risk Management**. Donor support made it happen.

Take a look at our recent progress.

THE LYNCH SCHOOL WAS ESTABLISHED IN 2015, EXPANDING THE REACH OF THE SUCCESSFUL ESRM PROGRAM

### BE A LEADER

The Lynch School will offer its first graduate-level Leadership in Risk Management course in 2017.

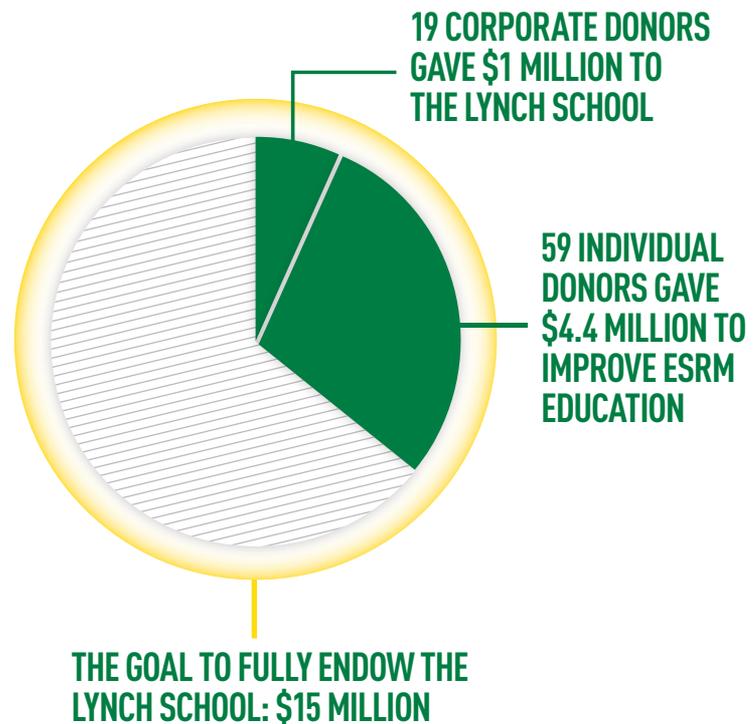

### GET CERTIFIED

Industry professionals can take courses toward an ESRM certificate, starting 2017-2018.

### PLAY MINE GAMES

UAlberta engineering students ranked first in the ESRM portion of the Canadian Mining Games in 2015-2016.

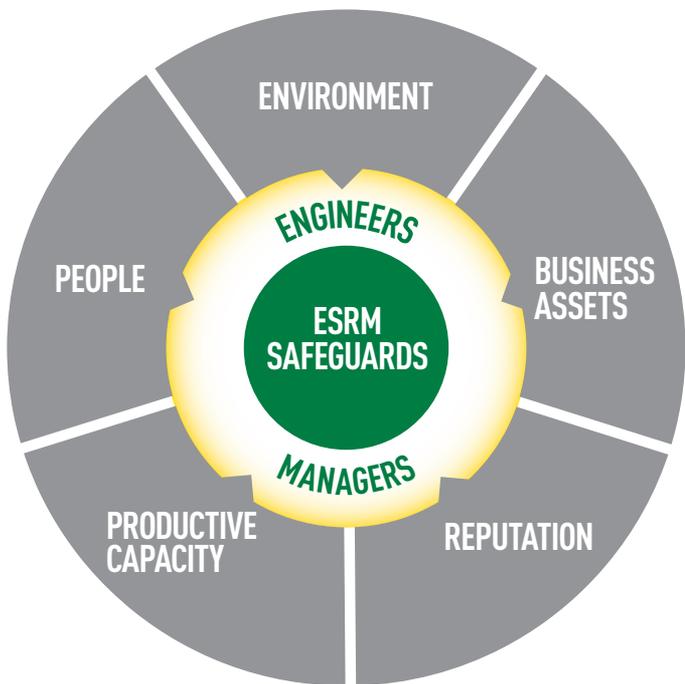

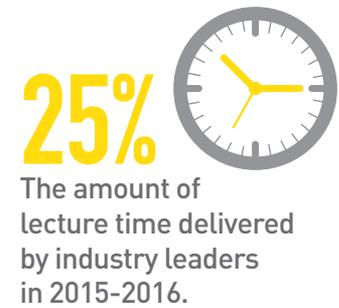

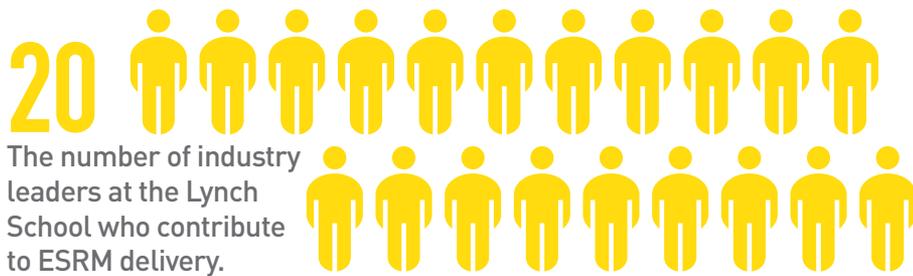

BY 2018, all UAlberta engineering grads will have taken at least one ESRM course.

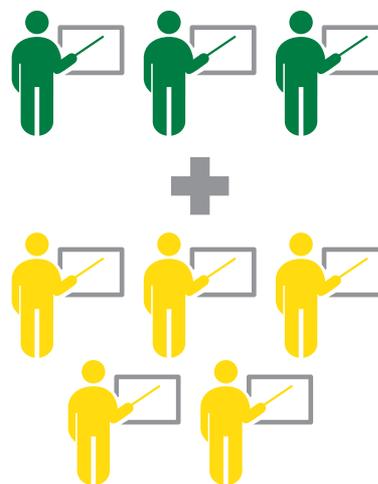

**1,200**  
STUDENTS

The ripple effect of graduating 1,200 engineering students a year with a good grounding in safety and risk management means we save lives, prevent injury, spare businesses great losses, protect our environment, sustain industrial development and make society safer.

GORD WINKEL, DIRECTOR, DAVID AND JOAN LYNCH SCHOOL OF ENGINEERING SAFETY AND RISK MANAGEMENT

THERE ARE 3 faculty dedicated to teaching ESRM, a number that will grow to 8 over the next few years.
