WELCOME and THANKS

Welcome to International Week 2014: Creating Solutions for a Healthier World

International Week (casually known as I-Week) is the largest educational extracurricular event on the University of Alberta campus. Every year, I-Week offers an array of events meant to provoke thought, spark discussion, build alliances and, ultimately, inspire action for a better world... and this year is no different!

Let's be honest. Sometimes talking about global issues can be kind of depressing. The issues that we collectively face are serious and complex and can sometimes leave us feeling overwhelmed or paralyzed. And yet, every day there are people around the world who work persistently to find solutions and create alternatives to the status quo. So, the Global Education Program asked:

"How do we make the world a better and healthier place to live?"

and we were answered (in spades!). We've filled this year's I-Week program with over 60 free sessions on a myriad of topics about our collective health and well-being. Want to know more about HIV/AIDS and what's being done to manage the pandemic? We have sessions on that. Curious about the psychological impact of social media? We have a session on that. Wondering how to encourage systems thinking? We have a session on that. (Wondering what systems thinking is? They'll talk about that too!)

We have sessions that allow you to eat, dance, play, map, think, discuss, network and, best of all, get involved. It is a week of rich exploration. This is your guide. We hope you'll join us.

Lisa Lozanski
Global Education Coordinator
Global Education Program, University of Alberta International

Thank you to our volunteers

Without our volunteers International Week would simply not be possible: banners would not be painted, posters would not be hung, blogs would not be written, presenters would not be welcomed and introduced ... the list goes on and on. The smooth operation of I-Week depends on the hard work and dedication of our volunteers, so if you encounter them at any point during the week, please take the time to thank them.

To the volunteers of International Week 2014: thank you! We are truly grateful that you chose to donate your time and talents. We know that being an I-Week volunteer is not always easy. It takes courage to present in front of an audience, and it can be mundane to put up and take down signs, but we hope you see a piece of yourself in the success of I-Week and that you have some fun along the way. It is a pleasure to work with each and every one of you!

UNIVERSITY OF ALBERTA
INTERNATIONAL
Global Education Program

University of Alberta International (UAI) works on the front line and behind the scenes to support the creation of an internationally vibrant learning and research environment. UAI works to:

- recruit and retain international undergraduate and graduate students
- offer international learning opportunities, on-campus and abroad
- develop and maintain international relationships, partnerships and projects that enhance teaching, research and community service.

UAI's Global Education Program (GEP) aims to raise awareness about global issues that affect our lives. GEP's on-campus programming encourages an appreciation of global interdependence and cultivates global citizenship among students, faculty, staff and the greater community.

EVENTS

Tuesday, January 21

5:00 - 7:00pm

Telus Centre 217/219

the fifth estate: Made In Bangladesh

Sponsored by the Global Education Program

Many of our clothes bear the label “Made in Bangladesh,” but before the deadly collapse of a garment factory there last April, how many of us thought about the people who make them? This riveting documentary examines the relationship between Canadian clothes and the Bangladeshi garment factories now infamous for dangerous working conditions. It features Sujeet Sennik, a clothing designer, activist and one of International Week’s keynote speakers. Come learn about the issue and then join us on Tuesday, January 28 at 7:30pm for Sujeet’s talk: Fashion. Justice. Design.

Friday, January 24 – Sunday, February 2

End of Steel Park

(Gateway Blvd & Tommy Banks Way)

11th Annual Ice On Whyte Festival

The International Ice Carving Competition kicks off the festival from January 24 – 26. Enjoy the ice and snow carving exhibits, the interactive children’s play area, the famous giant ice slide, games, ice carving lessons and much more. For more information, visit www.iceonwhyte.ca.

CELEBRATE ON SUB STAGE

January 23, 24, 28, 29, 30, 31

12:00 - 1:00pm

Students’ Union Building, SUB Stage

Sponsored by the Global Education Program and the University of Alberta Students’ Union

Solutions for a healthier world are created when we come together to share perspectives in the spirit of celebration. Let’s travel over 6 lunch hours from Iceland to Angola, Uzbekistan to Ecuador, with stop-overs around the world and in-between to arrive at a Pan-Asian Lunar New Year’s Celebration. Each day will feature a regional focus along with performers from around the world. Everyone is welcome!

Featuring: African Students’ Association, Ang-Ca Angolan Team, Bella and Bello Dance Movement, Bolly-D Dance Fitness, Canadian Centre for Ethnomusicology, Elena Dergacheva, Fiesta Cubana, Hong De Cultural Association, Indian Students’ Association, International House, Jiaying You, Jón Baldursson, Latin American Students’ Association, Leo Gonzalez, Quetzala Carson, Residence St. Jean, and Suarez.

Phone 780-492-1604 if you would also like to perform!

University of Alberta Memorial **ROUND DANCE**

EVERYONE IS WELCOME TO JOIN THE CIRCLE!

Saturday, January 25

Pipe Ceremony at 5:30pm (Ladies please wear a long skirt).
 Feast and Round Dance to follow.
 Van Vliet Physical Education and Recreation Centre, Main Gym
 In Honour of Elder Marge Friedel
 Sponsored by the Aboriginal Student Services Centre (ASSC)

According to Cree philosophy, the Northern Lights are our relations who have passed on but still dance with us at the Round Dance. During the dance, we move like the Northern Lights and connect with the drum, the heartbeat of our community. Together we swap stories, catch up on the latest news, break bannock and share tea. As we dance, we honour the memories of our ancestors, still dancing against the dark blanket of the night sky.

EXHIBITS

Monday, January 6 – Saturday, February 1

HUB Mall Display Case (by Academy Pizza)
I-Week Poster Exhibit
 Sponsored by the Global Education Program and the Department of Art and Design

Every year, the Global Education Program works with students from the Department of Art and Design to develop a visual identity and poster for I-Week. Students put forward concepts and designs and then the campus community votes on their favourite. This year's I-Week poster is Melody Du's design. Come see all of the great concepts put forth by the DES 593 students. Special thanks to Kevin Zak and the entire DES 593 class.

Monday, January 20 – Friday, February 21

Rutherford Library South, Ground Floor Foyer
Future Bodies: Human Health Horizons
 Sponsored by the Faculty of Medicine and Dentistry and the Medical Students' Association

What does health mean to us now and how might this change in the future? What directions could we and our health care system take to optimize human health? What solutions are on the horizon? This art show explores the future of health and wellness as conceived by the next generation of doctors, dentists and healthcare providers.

Thursday, January 23 – Friday, February 7

Enterprise Square, Extension Gallery

12:00 - 1:30pm
Students' Union Building, Myer Horowitz Theatre

Be a WorldChanger Alex Steffen

What does it take to be a worldchanger? Do you have to be a politician? A celebrity? A billionaire? The truth is that most worldchangers are ordinary people with extraordinary vision. Come hear about the people that are meeting the planet's most pressing problems in innovative and creative ways. By understanding the outlook that these pioneers, inventors and change leaders bring to the problems they face, we can all learn to think like worldchangers, and find new solutions to the problems around us.

Alex Steffen is one of the world's leading voices on sustainability, social innovation and planetary futurism. Under his guidance, the solutions-based magazine

Worldchanging.com became the second-largest sustainability site on the planet. His best-selling books, Worldchanging and Worldchanging 2.0, brought into the mainstream obscure and ground-breaking innovations related to sustainability. His latest book, Carbon Zero, outlines the kinds of design, technological and policy innovations that can dramatically reduce carbon emissions from our cities. The New York Times praised Steffen and his work for laying "the blueprint to a successful century." Steffen is currently a Planetary Futurist in Residence at IDEO, a design and innovation consulting firm.

12h00 - 12h30
Entrée du Pavillon Mac Mahon
Lever des drapeaux
Dany Bazira

Cette cérémonie solennelle marque le début de la semaine internationale au Campus Saint Jean. Au cours de celle-ci, les étudiants internationaux ont l'opportunité de revêtir leurs vêtements traditionnels et de porter fièrement leurs drapeaux. La cérémonie célébrera la diversité culturelle du Campus Saint Jean qui ne comprend pas moins de quatorze pays allant de la Chine au Mexique, du Congo au Canada.

FRANK:

2:00 - 4:00pm
Students' Union Building, Myer Horowitz Theatre

To create a healthier world, we all have to get involved. University of Alberta academics from different disciplines will share ideas and innovations for a healthier world in four short, punchy presentations. After each FRANK presentation, there'll be an opportunity for discussion.

Energy for 1 x 9 Billion Earthlings

Dr. Jillian Buriak, Canada Research Chair of Nanomaterials, Department of Chemistry, Faculty of Science, and the National Institute for Nanotechnology (NRC-NINT)

By 2050, the world's population is expected to reach 9 billion people: the majority (6 billion) will be new or almost new energy consumers, just coming online. Where will this energy come from? For humanity to have a chance at a secure and viable future, this question must be answered. Dr. Buriak will discuss a powerful new way of thinking about energy that is emerging worldwide.

Citizen Participation and Local Food: Building a Healthier Democracy

Dr. David Kahane, Department of Political Science, Faculty of Arts

Food is deeply personal and very political. Our food system is complex, dominated by powerful interests, and unhealthy for humans and the planet. This presentation looks at struggles in Edmonton to build local food alternatives and, in particular, at lessons we can learn from how participation in invited and claimed democratic spaces is shaping food politics in the city.

Personal Sustainability Plans Linked to the Collective Good

Dr. Naomi Krogman, Department of Resource Economics and Environmental Sociology, Faculty of Agricultural, Life and Environmental Sciences, and Director of the Office of Sustainability

Sustainability is about long-term thinking. Personal plans to contribute to sustainability for the long haul are lacking in our individualistic, short-term thinking society. Learn how you can change that.

Why Obesity Is a Disease

Dr. Arya Sharma, Division of Endocrinology and Chair in Obesity Research and Management, Faculty of Medicine and Dentistry

Obesity, once established, leads to irreversible changes in how our bodies regulate body weight. In 2013, this discovery prompted the American Medical Association to declare obesity a disease. How does this decision change our approach to obesity and why will this make a difference for those struggling with excess weight? Learn how recent discoveries will shape the future of obesity prevention and management.

MONDAY JANUARY 27

4:00 - 4:50pm

Telus Centre 217/219

Being Ethical is Financially Viable: An Introduction to the Islamic Finance System

Momin Saeed, Chartered Islamic Financial Professional and Principal at Abrahamic Finance
Sponsored by the Muslim Students' Association

Historically, finance has been considered an amoral (or, at times, immoral) industry. However, since the 2008 economic crisis, the demand for ethical finance has grown. Valued at over \$2 trillion dollars, the Islamic Finance System is one of the fastest growing financial sectors in the world. A financial system meant for all faiths, it rejects investment in social harms and encourages equal sharing of profit and risk. Come learn how this system of finance can help us to redefine wealth and think beyond the dollar.

4:00 - 5:20pm

Telus Centre 236/238

Elicitive Conflict Transformation as an Approach to Peace

Ian Mathieson, Centre for Race and Culture

Peace is often perceived as the absence of conflict or the cessation of violence. Conflict, then, is framed as a problem to be overcome, a negative and unhealthy condition, the opposite of "peace". In this session, we will critically explore the concept of peace and experiment with the concept of conflict transformation as an alternative to conflict resolution or management. Covering the spectrum from international peace operations to local community development, this interactive session will consider how transformational and elicitive approaches might help us to resolve global and local challenges.

5:00 - 7:00pm

Rutherford Library South, Ground Floor Foyer

Future Bodies: Human Health Horizons Vernissage

Sponsored by the Faculty of Medicine and Dentistry and the Medical Students' Association

Join us for the vernissage of the Future Bodies: Human Health Horizons art show, featuring a presentation by the Multicultural Health Brokers Cooperative.

6:00 - 6:50pm

Telus Centre 217/219

The Unhealthy Effects of Occupation Palestinian Solidarity Network

For generations, Palestinians living in the West Bank and Gaza have relied on the land and sea for their livelihood. Even today, Palestinian farmers and fishers are braving death and imprisonment to continue their harvest. Come hear about the effect of occupation on the food, water and resource availability in the West Bank and Gaza.

6:00 - 6:50pm

Telus Centre 236/238

Exploring the Psycho-social Impact of Humanitarian Aid Work

Amy Brathwaite

In every global emergency, aid workers are deployed to deliver critical materials and services to disaster-affected communities. Brathwaite will share her personal journey of stress and burn-out as an aid worker and her experience making *Kick at the Darkness*, a short documentary that reveals the psycho-social impact of aid work through interviews and footage of the Haiti earthquake response.

7:30 - 9:00pm

Science 1-430

Closing the Gap: Improving Aboriginal Health

Clifford Cardinal, Associate Professor, Department of Family Medicine, Faculty of Medicine and Dentistry (FoMD), **Dr. James Makokis**, Director, Indigenous Physicians Association of Canada and a physician at Saddle Lake; **Dr. Sangita Sharma**, Centennial Professor and Endowed Chair in Aboriginal Health, FoMD; moderated by **Dr. Earle Waugh**, Director, Centre for the Cross-Cultural Study of Health and Healing, FoMD

Sponsored by the Faculty of Native Studies and the Global Education Program

Opening performance by Jenna Broomfield and Malaya Bishop of

Sila (Inuit Throat Singers).

Aboriginal peoples have developed rich cultures providing healthy lifestyles in tune with the land. However, traditional ways of life have become increasingly imperiled to the point where the health status of Aboriginal peoples is well below that of other Canadians. Our panel will discuss the innovative programs and practices they have implemented to close this gap, as well as how they have integrated Indigenous knowledge and practices to restore physical, mental, emotional and spiritual well-being.

Join us for freshly baked bannock afterwards.

Fashion. Justice. Design.

Sujeet Sennik

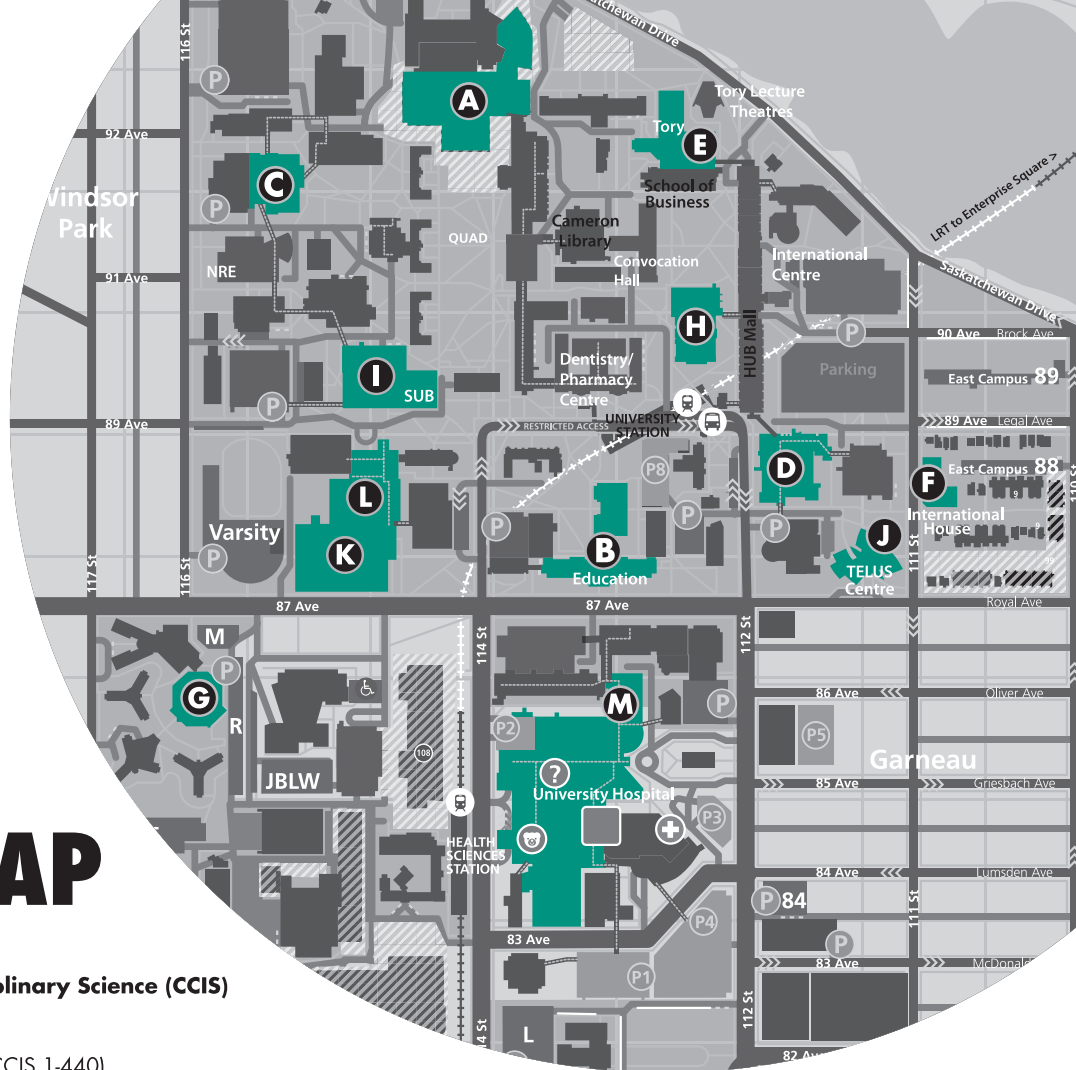

In the wake of the tragic collapse of the Rana Plaza factory in Bangladesh, designer/activist Sujeet Sennik says fashion has become a deadly business. After the deaths of over a thousand people, Sennik argues we need to change the way we make, buy and perceive clothing. What can we do today that will make a difference? How can we build a healthier future for the people who make the clothes on our backs? Sennik will show how, as shoppers, we are much more powerful than we may think.

Sujeet Sennik is a Canadian designer, writer and activist. He is an avid blogger and can be followed at carbonraindesign.com.

Encouraging Systems Thinking: The Creative Use of Technology In and Beyond University of Alberta Classrooms

Dr. Naomi Krogman, Department of Resource Economics and Environmental Sociology;

Dr. Maureen Engel, Office of Interdisciplinary Studies; **Dr. Sean Gouglas**, Department of History and Classics;

Dr. Amanda Montgomery, Department of Elementary Education; and **Dr. Ali Shiri**, School of Library and Information Studies

Albert Einstein famously said "we cannot solve our problems with the same level of thinking that created them." How do we shift our thinking so that we can imagine solutions to the increasingly complex problems of the world? Could technology help us to cultivate a more systemic way of thinking? Come hear how University of Alberta professors are using technology to explore concepts of interdisciplinarity, complexity and interdependence with their students.

12:00 – 12:50pm

Telus Centre 217/219

Toward Inclusive Communities: Lessons From History

Dr. Rob Wilson and **Moyra Lang**, Living Archives of Eugenics

The basic history of eugenics is known, but many of the details and legacy for contemporary society are not understood. Those targeted by eugenics practices were people with a variety of disabilities and other marginalized groups. An understanding of how eugenics operated as it did is relevant not only to the 3.6 million Canadians with a disability, but to all Canadians who embrace human diversity and strive to build inclusive communities.

The Danger of a Single Story

Jinny Menon and **Muna Saleh**, Department of Elementary Education

In her 2009 TED talk “The Danger of a Single Story,” renowned author and activist Chimamanda Adichie discussed how grand narratives create stereotypes or ill-informed preconceptions about people, countries and cultures. How do we take up Adichie’s challenge to deconstruct the single story and embrace the complexity and diversity found among us? Join these graduate students for a screening of Adichie’s 2009 TED talk followed by thoughtful group discussion.

Dr. David Zakus, Office of Global Health, Faculty of Medicine and Dentistry; **Dr. Roger Turnell**, Department of Obstetrics and Gynecology; **Dr. Khalid Aziz**, Department of Pediatrics; **Dr. Michele Harvey-Blankenship**, Department of Pediatrics; and **Dr. Amy Kaler**, Department of Sociology

Ethiopia suffers from one of the highest maternal mortality rates in the world. Approximately 25,000 women per year die from childbirth complications. But the University of Alberta, in collaboration with an array of government, university and community partners, is trying to change that. Join us for a candid discussion about the state of maternal health in Ethiopia and learn how a newly-funded development project plans to save lives by training midwives and developing robust health referral systems.

Redefining Health: Back to Fundamentals

Dr. Shelby Haque, University of Alberta Muslim Chaplain

The modern “health” care system may be seen as a disease management system; we treat people after they get sick. Could we do something to prevent people from getting sick in the first place? To design an actual “health-care” system, Haque says we need to develop meaningful measures and endpoints. Using wisdoms from the Islamic tradition to open up the discussion, this lecture will consider alternative measures of healthfulness and simple interventions that can improve our health right now.

Film: How to Survive a Plague

Sponsored by Universities Allied for Essential Medicines

This Academy Award-nominated documentary is the story of two coalitions whose activism turned AIDS from a death sentence to a manageable problem. Despite having no scientific backgrounds, these activists infiltrated the pharmaceutical industry and helped identify promising drugs, moving them from experimental trials to patients in record time. Featuring new footage from the 1980s and 1990s, the film thrusts viewers into the middle of the controversy, giving them a glimpse into the failures and the breakthroughs of this historical fight. A short, post-film discussion will follow.

5:00 - 5:50pm

Why Facebook needs a Burka

Dr. Shelby Haque, University of Alberta Muslim Chaplain

In the first quarter of 2013, the number of active Facebook users surpassed 1 billion - almost 20% of the world’s population. Social media has been credited with fuelling the Arab Spring, connecting people from across the world and changing the lives of billions on earth. Yet, there is an undeniable dark side to social media; cyberbullying, social isolation and lost productivity are just the tip of the iceberg. This lecture will explore some of these ill-effects on our health and will suggest some tools from the Islamic tradition that anyone can use to reduce potential harms from social media.

EU-Ukraine Relations: What Sort of Future?

Amanda Paul,

European Policy Centre
Sponsored by the European Union Centre
for Excellence

What are the prospects for peace, stability and security on the European Union's eastern doorstep in the wake of Ukraine's suspension of an Association Agreement with the EU? What does this mean for the future of the EU's Eastern Partnership and for democratic development more generally in Ukraine? Amanda Paul, policy analyst at the European Policy Centre in Brussels, explores these questions.

Amanda Paul, a British national, is an analyst and journalist with a background in geopolitics and foreign policy. She coordinates the European Policy Centre's Eastern Promises Project and Turkish Insights Initiative. Paul has particular expertise in Turkish foreign policy, Ukraine, the South Caucasus and the Cyprus problem, regularly writing and speaking on these topics.

Energy For Change Severn Cullis-Suzuki

Sponsored by the Office of Sustainability, the City of Edmonton and the Global Education Program

Our human energy for change can overcome colossal barriers. We live at a time when weather is increasingly dominating the news. Scientists tell us we cannot continue our current fossil fuel dependence safely, yet governments struggle to find and take a better energy path. There is reason for optimism, however: the transformation to a more sustainable life is occurring all over the world. Cities, communities and individuals are beginning to transition away from an outdated, destructive paradigm, one step at a time. Join Severn Cullis-Suzuki to discuss the movements and changes happening right now and discover powerful sources of inspiration for a better way of life.

Please bring a donation to the Campus Food Bank. Register online to guarantee yourself a seat: <http://yegseverncullissuzuki.eventbrite.ca>.

At age 9, Severn Cullis-Suzuki started the Environmental Children's Organization, a group committed to learning and teaching kids about environmental issues. At twelve, she attended the Rio Earth Summit, where she delivered a powerful speech that garnered worldwide attention. For this she received the UN Environment Program's Global 500 Award. Since Rio, Cullis-Suzuki has advocated for intergenerational justice, fought for long term sustainability and for awareness of the fundamental interconnection between culture and environment. Cullis-Suzuki received her BSc in Ecology and Evolutionary Biology from Yale University, and her MSc in Ethnoecology from the University of Victoria. She currently hosts the APTN television series Samaqan – Water Stories about First Nations and water issues, now in its third season.

Millennium Development in Retrospect: Higher Education in Africa's Development Beyond 2015

Dr. N'Dri Assié-Lumumba

Sponsored by the African Students' Association, the Alberta Council for Global Cooperation and the Global Education Program

At the time of independence (mid-1950s and 1960s), African countries considered education, especially at the post-secondary level, critical to attaining national development objectives. However, economic crisis and the ensuing policies of structural adjustment programs (SAPs) in the 1980s and 1990s, the global engagements articulated in Education for All (EFA) in 1990 and 2000, as well as the Millennium Development Goals (MDGs) in 2000, consistently ignored higher education. This presentation reaffirms the centrality of higher education in the vision of African development beyond 2015.

N'Dri T. Assié-Lumumba is a Professor of African, African Diaspora and Comparative/International Education at Cornell University in the Africana Studies and Research Center. She is a Fellow of the World Academy of Art and Science and is the current Vice-President and President-elect of the Comparative and International Education Society (CIES). Dr. Assié-Lumumba is a leading scholar with several published books, numerous articles in refereed journals, and major reports on various dimensions of education, especially higher education, gender and equity. Dr. Assié-Lumumba has served as a senior advisor for a myriad of projects and programs on African development and has worked with prominent international organizations and national development agencies in Africa, Asia, Europe and North America.

The Friend I've Never Met: Human Rights Advocacy Deconstructed

Dennis Edney, QC; Dr. Arlette Zinck, King's University College; and other panelists
Sponsored by Amnesty International, University of Alberta Chapter

Human rights advocacy work has an emotional impact, both on those who benefit from advocacy and on those who perform it. We will explore the connection between social justice work, solidarity and mental health with panelists such as Dennis Edney, defence lawyer for Omar Khadr, and Dr. Arlette Zinck, educator and advocate for Omar Khadr. Each panelist will share their experience and how their life and sense of community was changed. A question and answer period will follow.

5:30 – 6:20pm

Millennium Development Goals (MDGs) in Retrospect: Africa's Development Beyond 2015

Curious about the progress that African countries are making towards the achievement of the MDGs? This conference will consider the constraints (both domestic and global) that have stalled the advancement of the MDGs and the alternatives that may be available as we approach the 2015 expiry date. Over 60 scholars, researchers, activists and students from Africa, Asia, Europe and North America will present their work.

For detailed conference program and registration information, visit <http://www.afsualberta.org>, email afs2014conference@gmail.com or phone/text Nathan at 780-222-7280.

The conference is FREE and open to the general public. Registration is required if you plan to join us for meals on Friday and Saturday.

The Millennium Development Goals www.un.org/millenniumgoals

1. Eradicate Extreme Poverty and Hunger

Halve the proportion of people whose income is less than \$1.25 a day.

2. Achieve Universal Primary Education

Ensure that, by 2015, children everywhere, boys and girls alike, will be able to complete a full course of primary schooling.

3. Promote Gender Equality and Empower Women

Eliminate gender disparities in education at all levels.

4. Reduce Child Mortality

Reduce by two-thirds the mortality rate among children under five.

5. Improve Maternal Health

Reduce by three-quarters the ratio of women dying during childbirth and achieve universal access to reproductive health.

6. Combat HIV/AIDS, Malaria, and Other Diseases

Halt and begin to reverse the spread of HIV/AIDS and the incidence of malaria and other major diseases.

7. Ensure Environmental Sustainability

Integrate the principles of sustainable development into country policies and programs, and reverse the loss of environmental resources. Reduce by half the proportion of people without access to safe drinking water.

8. Develop a Global Partnership for Development

Improve trade climate for, and address the debt of, developing countries. Make available information and communication technologies. Provide access to affordable essential drugs.
