Currently there is no consensus on how best to teach health ethics. This is partly due to the fact that agreement on pedagogical techniques is difficult to achieve in many fields, but it is also because there is no consensus on what ethics and health ethics are --or on what their goals should be. This presentation will look at these questions and how our answers to them affect our work in health ethics.

More information: please call 780-492-6676, e-mail dossetor.centre@ualberta.ca or visit [Dossetor Centre website](#)

A recording of this presentation will be posted at a later date on the [Health Ethics Seminar webpage](#)
