“Dr. Ganesh Suntharalingam is president-elect of the UK Intensive Care Society. He is an accomplished administrator having been clinical director of Northwick Park and St Mark's Hospital London for almost a decade. He is also the chief organizer of the State of the Art International Conference (Intensive Care) and the lead for that Society's Burnout and Wellness initiative. His area of special interest is clinical trials and disaster management, and he became famous- which included coverage by the New England Journal of Medicine, as well as, the National and International Media- after his ICU was forced to deal with the major fallout from a clinical trial gone wrong.”
