

**JOHN DOSSETOR HEALTH ETHICS CENTRE in
collaboration with the DIVISION OF NEUROSURGERY**

HEALTH ETHICS SEMINAR

Parental Refusal of Life-Saving Intervention: A Framework for Management

Patrick J. McDonald, MD, MHSc, FRCSC

Head, Division of Neurosurgery, BC Children's Hospital;
Associate Professor, Department of Surgery, University of British Columbia;
Faculty, Neuroethics Canada

Friday, 18 January 2019

12:00 - 13:00 MST/MDT

Dvorkin Centre (2G2.07 WMC)

Objectives:

1. Review clinical examples of parents declining potentially helpful interventions for a child.
2. Introduce a framework that can assist in optimizing decision-making in such situations.
3. Invite discussion about such cases and the proposed framework.
