SERIES**

**HEALTH ETHICS SEMINAR -  
NATIONAL HEALTH ETHICS WEEK EVENT**

***EVERY BREATH YOU TAKE: ETHICAL CONSIDERATIONS  
REGARDING HEALTH CARE METRICS***

**Derek Truscott, Ph.D., R. Psych (AB)**

Professor of Counselling Psychology, Director of Counselling Training,  
Department of Educational Psychology,  
Adjunct Professor, John Dossetor Health Ethics Centre, University of Alberta

**Tuesday, 2 April 2019**

12:00 - 13:00 MST/MDT

Dvorkin Centre (2G2.07 WMC)

Collecting and analyzing health care information enables us to know if what we are doing is achieving our goals. This enables us to offer better health care. But doing so is far from uniformly positive. There are ethical implications arising out of what information we collect, knowing that it is being collected, and what we do with it. After attending this talk, health care providers will know more about the ethical considerations regarding health care metrics and be motivated to think more critically about their use.
