ON THE FRONT COVER

THE UNIVERSITY COAT OF ARMS

In June 1994, His Excellency the Right Honourable Ramon John Hnatyshyn, Governor General of Canada, presented the University of Alberta with its Coat of Arms. The full Coat of Arms is displayed at ceremonial occasions such as Convocation, and is used by the Chancellor, the titular head of the University.

On the shield is a representation of the topography of Alberta rendered in the colours of the University. At the base is a prairie wheat field symbolizing Alberta's agricultural industry. The wavy gold line above suggests the hills and rivers of Alberta and, in particular, the setting of the University campus. The top of the shield is in gold and separated from the rest of the shield by a line suggesting the Rocky Mountains. The book of learning dominates the design.

On the crest is a Grand-Duc d'Amérique, or Great Horned Owl, the provincial bird and an accepted symbol of knowledge. The pronghorn, taken from the Provincial Coat of Arms, and the golden bear, mascot of the University, support the shield. Both wear collars of the University colours, as does the owl. At the base of the Coat of Arms is a grassy mound with wild roses, the floral emblem of Alberta with the University's motto: Quaecumque Vera (Whatsoever things are true).

The list of candidates for degrees, diplomas, and certificates appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information presented is current as of the program printing deadline.

GREETINGS TO THE GRADUATES

Congratulations Class of 2023. You did it!

Your years of hard work, the ups and downs, the dreaded deadlines for assignments and projects, the new friends you've made, the problems you've tackled, the professors who inspired you, and the changes you've made in your life, your ideas and your plans for the future ... all of this is culminating in the completion of your degrees.

I hope your years at the U of A have inspired you with lessons that go well beyond the courses you took. The ability to adapt and persevere in spite of stressful times. The importance of connections with people we love. The need for kindness, empathy and respect to bridge increasingly polarized views. The power of hope in our combined ability to address some of the world's most challenging problems. And now more than ever, in the midst of a constant barrage of misinformation, the need to steadfastly pursue the university's motto: whatsoever things are true. These are lasting lessons I hope you will remember in the next chapter of your lives.

I know all of us at the university are incredibly proud of you, our newest graduates. You bring us hope for the future and you inspire us with your energy, enthusiasm, skills and ideas. Whatever path you choose, strive to make a positive difference in the world. The University of Alberta will be here, cheering you on from the sidelines, as each of you pursues your next hopes and dreams.

PEGGY GARRITTY

Chancellor

Congratulations to the class of 2023.

After years of hard work and determination, today marks an important milestone in your life's journey. As you look back on this formative time in your life, I hope you do so with pride at all that you've accomplished, including the hurdles you've overcome and the successes you've achieved.

As one portion of your journey comes to an end, another begins. With today's convocation we welcome you into a larger community of more than 300,000 U of A alumni worldwide. And, like them, you hold the power to make the world a better place. The possibilities are endless – some of you may start new businesses or explore the world of creative arts, while others seek new research opportunities or lead social, cultural and economic change in Alberta or around the world. Wherever your journey takes you, each of you will play a role in shaping the world around you.

115 years ago, the University of Alberta was founded on the promise of "uplifting the whole people." As you go forward in life's journey, I know you will draw on the knowledge and skills you developed during your time at the U of A to pursue that noble promise and to continue to make yourself – and your alma mater – proud.

OUR TRADITIONS

THE UNIVERSITY CEREMONIAL CHAIRS

The Chancellor's Chair was presented to the University of Alberta as a gift from the 1922 graduating class. It is made of solid oak with a padded-leather back and seat. Above the padded-leather back is carved the University motto *Quaecumque Vera* together with the class year, 1922, and the University emblem.

In 1987, the family and friends of Dr. Charles Malcolm Macleod, Chair of the Board of Governors from 1950 to 1966, presented a memorial gift to the University of two additional chairs for use by the President and the Chair of the Board of Governors at Convocation.

In 2006, a fourth chair was donated in memory and honour of Lois Elsa Hole, beloved Chancellor (1998 – 2000) and Lieutenant Governor (2000 – 2005), by Earl Evaniew, Sandra Kereliuk, and their daughter Jennifer. This chair becomes part of the seating arrangements on stage when the Lieutenant Governor or other high profile dignitaries attend the Convocation ceremonies.

THE UNIVERSITY MACE

The University of Alberta Mace was designed and crafted specifically for the University as a gift

from Dr. Francis Phillip Galbraith, Chancellor of the University of Alberta from 1964 to 1970. It was presented by his son, Michael Galbraith, on behalf of his father on May 26, 1970.

Among its elements are: the Star of Saint Thomas Aquinas, the Patron Saint of Scholars; the Wild Rose of Alberta; the Maple Leaf; and the separate charges which make up the University's Emblem. The University motto encircles the staff.

The ceremonial stand for the Mace was donated in 1987 as a memorial gift by family and friends of Dr. Charles Malcolm Macleod, Chair of the Board of Governors, from 1950 to 1966.

The Mace is carried before the Chancellor, or Vice-Chancellor, in procession and rests on its stand in full view of the assembly during Convocation. Centuries ago the Mace was a symbol of authority over life and death. Today it represents power – but the power of knowledge and the importance of the University in the community.

THE UNIVERSITY FLAG

The University flag has a gold background and bears the shield of the Coat of Arms.

THE CHEER SONG

Ring out a cheer for our Alberta

A song of praise to Varsity.

For the splendour of our mountains

Our prairies green and gold.

*Ranked beneath whose
glowing colours,*

Thy legions march enrolled.

Our memories will live forever

Beloved University.

We will fight for thee and cheer

And ever hold thine honour dear.

Our Alma Mater U of A.

Green and gold! Quaecumque Vera!

Guide us through each coming era,

Guide us on through battle gory

To a new and greater glory.

SHIRLEY MCLELLAN

Doctor of Laws

Presented by Bill Flanagan, President and Vice-Chancellor

Shirley's early work life was mainly centered around adult education focused on bringing credit programming to rural Alberta. She was the Coordinator of the Big Country Further Education Council for 12 years, a member of the Board of Directors of the Big Country Education Consortium and a member of the Board of Directors for the Alberta Association for Continuing Education and the Canadian Association for Continuing Education. Shirley served as a representative on the Minister's Advisory Committee on Further Education and the Minister's Advisory Committee on College Affairs.

In November 1987, Shirley's life changed considerably when she was elected in a by-election for the constituency of Chinook. Re-elected in 1989, she held roles in several ministerial portfolios including agriculture, health and community development as well as Deputy Premier from 2001 to 2006. She resigned her seat in the legislature in 2007.

After retiring from government, Shirley joined the Board of Directors of Penn West Energy. She accepted an appointment as Distinguished Scholar in Residence at the University of Alberta in the

Faculties of Agriculture, Rural Development and the School of Business, primarily lecturing in Agriculture and MBA programs. She also served as an advisor to the Provost of the University on Campus Alberta and advisor to the Dean of Agriculture on Research Strategies.

Today, Shirley is a Board Member of The Alberta Sports Hall of Fame and Museum and a Board Member of Catholic Health of Alberta.

She is retired living in Medicine Hat, enjoying her four grandchildren's adventures and the light of her life, her great grandson.

C.M. Moseman. *Moseman's Illustrated Guide for Purchasers of Horse Furnishing Goods, Novelties and Stable Appointments, Imported and Domestic*. New York: Moseman, 1893.

An extremely rare early edition of Moseman's charming and profusely-illustrated trade catalogue with a full-colour chromolithographic title page, numerous full-page plates, some 3,000 wood engravings and a few photographs. The Moseman shop, depicted on the first page following the title page, was located on Chambers Street between Church and West Broadway, in New York, and offered a full selection of harnesses, saddles, brushes, blankets, dressings, bridles, bits, gloves, and other horse-related accoutrements to buyers from around the world, claiming "we have spared neither expense, time nor trouble to produce a much needed, very useful and unique work—in which we show, by many expensive and truthful drawings, numerous articles used in conjunction with Horses to develop their speed, to dress for show or comfort, to harness for business or pleasure, or to decorate according to the tastes of their owners or drivers."

On display today near the east doors of the main floor lobby.

SCOTT GRAHAM

Doctor of Laws

Presented by Ms. Elan MacDonald, Vice President, External Relations and Ms. Carolyn Campbell, President, Norquest College

Scott Graham is a community convener who sees the power of collective philanthropy as a force for positive change.

Scott spent his early years on military bases across Canada and in Europe, learning about community service from his father, an Air Force chaplain, and his mother, a community volunteer. Following his graduation from the Faculty of Arts at the University of Alberta, he began a career in post-secondary administration at Alberta College. Later, as executive director of Alberta's Commission on Learning, he worked with provincial contacts to create and carry out a province-wide public consultation on the province's K-12 system.

Scott's career in philanthropy included many rewarding years as the Director of Community Grants at Edmonton Community Foundation. He was the founding executive director of The Stollery Charitable Foundation, leading that private family foundation's efforts in community engagement and granting to local charities. He values his ongoing role as an advisor to other family foundations.

A longtime volunteer and community organizer, Scott has served on multiple boards and committees in both Alberta and British Columbia, including the Telus Edmonton Community Board, Loran Scholars and Vancouver Foundation. He has been involved with the Edmonton Human Rights City initiative, Edmonton Region Immigrant Employment Council and Vibrant Communities Edmonton.

Scott is the current board chair of ARC Foundation, which provides supports and services to students, teachers, administrators and parents in K-12 school systems with a goal of fostering awareness, respect and capacity through education that is inclusive of all sexual orientations and gender identities.

Scott has mentored emerging leaders in the volunteer and fund-development communities. In 2023, he was awarded the Queen Elizabeth II's Platinum Jubilee Medal for enhancing the lives of Edmontonians and his role as an ambassador and connector in the charitable sector.

Throughout his career, Scott has held a deep belief in the strength of diversity and multiculturalism. He encourages the collaboration and cooperation of the many stakeholders in the non-profit and NGO landscape. An advocate for human rights, he seeks to inspire others to participate in voluntary service and to contribute their time and talent.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr. Scott Graham:

Lynn Agnew et al. *Mapping Joy*. Seattle: Full Plate Press, 2009.

This beautiful collection of double-sided accordion books represents the artists' definition of feeling joyful. An accompanying single-sided accordion book contains production notes about the artists' collaborative process. In the introduction, they explain:

The concept of creating a book about joy came after we each put forth several ideas about possible themes, and realized that we were interested in doing a 'happy book' ... We did not want a saccharin sweet book, but something that spoke to the elevation of body, mind, and spirit. Joy and wonder became our target ... We all came up with six words and images that we copied and shared ... We also wrote and shared 'joy journals' for a month. These were journals focusing on things that brought us joy in our daily lives. Some of us also bounced ideas off of friends, asking for their definition of joy and/or wonder, and how it was expressed in their lives.

Mapping Joy is the third book created by Lynn Agnew, Robin Hruska, Susan Lange and MJ Linford; it was printed on textured art paper and handcrafted with colourful collage elements in a limited edition of eight copies.

On display today near the east doors of the main floor lobby.

TUESDAY, JUNE 6
AFTERNOON CEREMONY, 3 P.M.

CONVOCAATION SPEAKER

DR. JANET A. W. ELLIOTT

Presented by Dr. Simaan Abourizk, Interim Dean, Faculty of Engineering

Dr. Janet A. W. Elliott is a University of Alberta Distinguished Professor and Canada Research Chair in Thermodynamics in the Department of Chemical and Materials Engineering. Dr. Elliott was the first female graduate of the Engineering Physics Option of Engineering Science at the University of Toronto and received MSc and PhD degrees in Mechanical Engineering from the University of Toronto. Dr. Elliott has been a Visiting Professor at the Massachusetts Institute of Technology and at the University of Oxford Centre for Collaborative Applied Mathematics.

Dr. Elliott currently serves as Editor-in-Chief of the journal *Cryobiology*, on the Editorial Advisory Boards of *The Journal of Physical Chemistry A, B, & C* and of *Langmuir*, and on the Editorial Board of *Advances in Colloid and Interface Science*. She has previously served as a member of the Physical Sciences Advisory Committee for the Canadian Space Agency, the Board of Directors of the Canadian Society for Chemical Engineering, and the Executive Committee of the American Chemical Society Division of Colloid and Surface Chemistry.

Dr. Elliott's research has been recognized nationally and internationally in science and engineering by the American Chemical Society Langmuir Lectureship Award (2022), Fellowship in the Royal Society of Canada (2022), Fellowship in the American Institute for Medical and Biological Engineering (2019), Fellowship in the Society for Cryobiology (2018), Fellowship in the Chemical Institute of Canada (2015), the Canadian Society for Chemical Engineering Syncrude Canada Innovation Award (2008), the Natural Sciences and Engineering Research Council Doctoral Prize (1998), the Canadian Council of Professional Engineers Young Engineer Achievement Award (2001), the Canadian Institute for Advanced Research Young Explorer's Prize (2002), and Time Magazine's Canadians Who Define the New Frontiers of Science (2002). Dr. Elliott has also received many provincial and University awards including the APEGA Summit Excellence in Education Award (2017), the University of Alberta Teaching Unit Award (2004, 2016) and the Faculty of Engineering Undergraduate Teaching Award (2021). As one student put it, "*She could convince rocks to study thermodynamics.*"

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

FACULTY OF ENGINEERING

HONORARY DEGREE RECIPIENT

CONGRATULATIONS

ELENA SEIBERT

STACY SCHIFF

Doctor of Letters

Presented by Dr. Robert Wood, Dean, Faculty of Arts

Stacy Schiff is the author of *Véra* (Mrs. Vladimir Nabokov), winner of the 2000 Pulitzer Prize; *Saint-Exupéry*, a Pulitzer Prize finalist; and *A Great Improvisation: Franklin, France, and the Birth of America*, winner of the George Washington Book Prize and the Ambassador Award in American Studies. Published to ecstatic reviews, her *Cleopatra: A Life* was a #1 bestseller. Named one of the New York Times's Top Ten Books of 2010, *Cleopatra* has since been translated into 35 languages and won the PEN/Jacqueline Bograd Weld Award for Biography. David McCullough greeted Schiff's 2015 *The Witches*, also a #1 bestseller, as "brilliant from start to finish." The New York Times hailed it as "an almost novelistic, thriller-like narrative." Schiff's most recent book, *The Revolutionary: Samuel Adams* figured on President Obama's list of his ten favorite books of 2022. Hailed as a "tour de force" by the Wall Street Journal, it recently won the Colonial Dames of America Book Prize. Writing in the Wall Street Journal, Brad Gooch has called Schiff "perhaps the most seductive writer of nonfiction prose in America in our time."

Schiff has provided on-camera commentary for various documentaries, including Ken Burns's 2022 *Benjamin Franklin*. Michael Douglas will star next year in an eight-part Apple series based on

A Great Improvisation, directed by Emmy Award-winner Tim Van Patten. Among other honours, Schiff has received fellowships from the Guggenheim Foundation, the National Endowment for the Humanities, and the Cullman Center for Scholars and Writers at the New York Public Library. She has been named a Library Lion by the New York Public Library and a Boston Public Library Literary Light, and has received an Academy Award in Literature from the American Academy of Arts and Letters. Recently inducted into the Academy, she has been made a Chevalier des Arts et Lettres by the French government. Schiff has written for The New Yorker, The New York Times, The Washington Post, The New York Review of Books, The Times Literary Supplement, and The Los Angeles Times, among many other publications. She lives in New York City.

Honour with Purpose - Nominate someone you believe deserves the University of Alberta's highest honour. Find more information at www.ualberta.ca/chancellor-and-senate/honorary-degrees/nominations.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Ms. Stacy Schiff:

Agnes [and Elisabeth] Strickland. *Lives of the Queens of England from the Norman Conquest; with Anecdotes of their Courts, Now First Published from Official Records and Other Authentic Documents, Private as well as Public*. 12 vols. London: Henry Colburn, 1840-48.

A first edition of the Strickland sisters' best-known work, an important landmark in the development of the biographical genre. Their research was intensive and their approach was innovative, portraying British queens as historical agents in their own right and not merely as the tools of ambitious men: "They were undoubtedly key figures in the development of writing on women's history, playing a role in creating a tradition of female worthies which can be seen as the first step towards fuller scholarly investigation" (ODNB). The volumes in this set were beautifully re-bound in the twentieth century, and several of them bear the bookplate and ownership signature of Georgina Gertrude Foster, who lived in Strickland House in Southwold.

On display today near the east doors of the main floor lobby.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

AFTERNOON CEREMONY, 3 P.M.

HONORARY DEGREE RECIPIENT

CONGRATULATIONS

BRIAN PAISLEY

Doctor of Letters

Presented by Dr. Robert Wood, Dean, Faculty of Arts

Born in Belfast and a graduate of the University of British Columbia, Brian is the author of eight plays for young people, sixteen screenplays and has written documentaries and educational material for radio, television, video and new media.

In 1982, Brian created and produced the Edmonton Fringe Theatre Event, a festival of new and alternative theatre that has inspired a national and international series of Fringe festivals in cities across North America.

Brian's first screenplay, *Billy's Run*, was made into an independent feature (*1132 Pleasant Street*) by Edmonton's BlueSky Productions. *Lies Like Truth* (Gumboot Productions) won CHUM TV'S 2003 Reel Edge Project, was the subject of a 13-part national TV series *Good to Go*, and premiered at the 2005 Victoria Film Festival. *Dreams of Light* (Gold Star Productions), a dance documentary he co-wrote with Jason Bourque, won a 2008 B.C. Leo Award as Best Arts Documentary.

In 2006-2007, Brian created and produced the Victoria International Arts Symposium: Artists of Conscience.

For *Apocalypse...when?* (Asterisk Productions), a VisionTV series about the origins and implications of doomsday thinking, Brian was nominated for the 2013 B.C. Leo Award for Screenwriting (Documentary Program or Series).

In 2014 and 2016, he wrote three more nationally televised Asterisk documentaries: *Patrick, Pagans and Party Animals: The Amazing Legacy of St. Patrick of Ireland*; *The Fantastic Logic of Eternity*; and *Hell: A Survivor's Guide*. *Trunk* (Chiaro Productions), an independent feature co-written with Keith Digby and Martin de Valk which premiered at the 2015 Victoria Film Festival. Brian also worked on a feature-length documentary for Chiaro and CBC's Doc Channel about the lone Canadian on the first Everest expedition (*Wheeler's Everest*), broadcast nationally in 2019-2020.

For his contributions, Brian received an Honorary Doctorate from Athabasca University (1990), was inducted into Edmonton's Cultural Hall of Fame (2001), and was named a Member of the Order of Canada (2010) as "a cultural visionary who has left an indelible mark on Canadian theatre."

Brian is currently working on his fifth novel, spending time between Victoria, British Columbia and Puerto Escondido, Oaxaca.

Honour with Purpose - Nominate someone you believe deserves the University of Alberta's highest honour. Find more information at www.ualberta.ca/chancellor-and-senate/honorary-degrees/nominations.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr. Brian Paisley:

William Shakespeare. *The Play of Pericles Prince of Tyre*. 2 vols. Mission, BC: Barbarian Press, 2010.

This fine press edition of *Pericles* was edited by Crispin Elsted from the original text and printed by Jan Elsted on a Vandercook press. In the accompanying volume of essays and notes titled *Reading Pericles*, Elsted explains:

It might be argued that a play like *Pericles*, known since 1609 when it was first published, and since then considered without any serious question to be at least partly by Shakespeare, needs no introduction. After all, early editions stated clearly on their title pages that the play was by Shakespeare, had been played at the Globe, and was 'much admired'. It was published in three quartos before Shakespeare's death in 1616, twice in 1609 and once in 1611, and in 1608 a novel by one George Wilkins based on performances of the play preceded the first printing of the play by a year. A fourth quarto edition appeared in 1619, a fifth in 1630 and a sixth in 1635. Since its appearance in the expanded edition of the Third Folio in 1664, it has been accepted as a part of the canon (17).

This beautiful edition of *Pericles* won many awards and accolades, including: First Prize (Limited Editions) in the Alcuin Society Awards for Excellence in Book Design in Canada competition in 2011, and a Judges' Award from the Oxford Fine Press Book Fair in 2011. Elsted designed the book and the bindings and he also set the type. The splendid wood engravings are by Simon Brett. This copy is number 14 of 100, and both volumes are enclosed in a linen chemise in a purple silk slipcase.

On display today near the east doors of the main floor lobby.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

THURSDAY, JUNE 8
MORNING CEREMONY, 10 A.M.

HONORARY DEGREE RECIPIENT

CONGRATULATIONS

BERT CROWFOOT

Doctor of Laws

Presented by Dr. Vikas Mehrotra, Dean, Faculty of Business

Convocation Speaker: Thursday, June 8, 3:00 p.m.

Bert Crowfoot has two Indian names. His Siksika name is Kiyo Sta' ah, or Bear Ghost, and his Kwakwaka 'wakw name is Gayutalas, or Always Giving. He was adopted by the Kwakwaka 'wakw at a potlatch in 2008, by Chief Adam Dick. He is the great great grandson of Chief Crowfoot who signed Treaty 7.

Bert is a photographer with an intuitive eye developed over the past 45 years. Known for recording Aboriginal events and cultural knowledge throughout North America, his travels always take him to new levels of perception. Bert's Siksika/Saulteaux cultural roots give him the inspiration to record and preserve many spiritual practices with different nations. His images are taken with a highly respectful and sacred awareness of the protocols, sanctity and supernatural forces that are present in Indigenous spiritual rituals, nature and life. As part of this awareness, he believes these spiritual images are gifts to be shared with present and future generations to bear witness of the power of the Indigenous ways of life. Spiritual images cannot be sold.

He is founder and CEO of the Aboriginal Multi-Media Society (AMMSA), and General Manager of Windspeaker Media which comprises four Alberta-based Indigenous radio networks for Indigenous content. He is also the publisher of Windspeaker.com, an online news service.

Bert is most proud of the radio programming that is offered in five Indigenous languages: Blackfoot, Cree, Stoney Nakoda, three Dene dialects and Metchif. Hosts speak bilingually so that non-Indigenous speakers can learn and understand the spoken word. It's a good step in reconciliation.

Bert's many honours over the years include: a Lifetime Achievement Award from the province of Alberta; Venture Magazine's "50 Most Influential Individuals in Alberta" (2004); Venture Magazines "100 Entrepreneurs who built Alberta" (2005); nominated to CBC's Alberta 100 list (2005); and, he was inducted into the Aboriginal Walk of Honour in Edmonton (2006). Bert has just recently been honoured with the 2023 Alberta Magazine Achievement in Publishing Award.

Honour with Purpose - Nominate someone you believe deserves the University of Alberta's highest honour. Find more information at www.ualberta.ca/chancellor-and-senate/honorary-degrees/nominations.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr. Bert Crowfoot:

Nancy Desjarlais. *Dancing on Top of the World*. Mixed media on canvas, 50.8 x 50.8 cm.

Of Cree and Métis ancestry, Nancy Desjarlais spent her early years on the Fort McMurray First Nation Reserve. After being separated from her family and her community as a child, her artwork today reflects a return to her roots. Natural and meditative symbols come together in her artwork, and her images of the sky and stars reveal a cosmic-earth connection rich in spiritual energy. Desjarlais explains, "I want to go beyond separateness. We are part of the earth and the universe. There is so much more than can be revealed through our senses. This is what compels and intrigues me." In *Dancing on Top of the World*, the artist has expressed her own hopeful vision of life: "finding peace with my past, practicing daily gratitude, loving the earth, communicating a personal vision and travelling with a light heart."

On display today near the east doors of the main floor lobby.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

FRIDAY, JUNE 9
MORNING CEREMONY, 10 A.M.

HONORARY DEGREE RECIPIENT

CONGRATULATIONS

RODOLPHE BEAULIEU

DR. JOANNE LIU

Doctor of Science

Presented by Dr. Brenda Hemmelgarn, Dean, Faculty of Medicine & Dentistry

Physician and Professor at McGill University

Dr. Liu is a Canadian practicing pediatric emergency physician and professor at McGill University's School of Population and Global Health where she focuses on pandemic and health emergencies. Prior to joining McGill, Dr. Liu began her career with Médecins Sans Frontières/Doctors Without Borders (MSF) in 1996, joining over 30 field assignments where she coordinated emergency medical aid and responded to humanitarian and health emergencies including outbreaks/epidemics in Central Africa, Middle East, Central Asia, South East Asia, Caribbean and Central America.

She went on to serve as the International President of MSF for over six years from 2013-2019. At the helm of MSF, she has been a leading voice on medical humanitarian crises, namely in the Ebola outbreak of West Africa, attacks on hospitals and forced displacement crisis, and has engaged with world leaders at the highest levels.

Liu's operational work has ranged from introducing comprehensive care for survivors of sexual violence to developing a telemedicine platform for connecting doctors in rural areas with specialists worldwide.

Dr. Liu graduated from the McGill University School of Medicine in Montréal in 1991 and did her pediatric specialty training at University of Montréal. She holds a Fellowship in Pediatric Emergency Medicine from New York University School of Medicine as well as an International Masters in Health Leadership, also from McGill University. She remains a practicing doctor, both in the field with MSF and also through hospital shifts in her home town of Montréal. She believes strongly in bringing and delivering high-quality, patient-centred care in all medical work contexts.

Dr. Liu is the recipient of the PAHO Award for Health Services Management and Leadership 2021; Meritorious Service Cross of Canada; The Teasdale-Corti humanitarian Prize from the Royal College of Physicians and Surgeons of Canada; the Meritorious Cross from the Canadian Government; and, she was on the list of the 2015 Time's 100 most influential people of the planet.

Honour with Purpose - Nominate someone you believe deserves the University of Alberta's highest honour. Find more information at www.ualberta.ca/chancellor-and-senate/honorary-degrees/nominations.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr. Joanne Liu:

Elizabeth Blackwell. *The Laws of Life, with Special Reference to the Physical Education of Girls*. New York: George P. Putnam, 1852.

Elizabeth Blackwell (1821–1910) has the distinction of being the first woman to receive a medical degree in the United States. On the dedication page—addressed “To American Women”—Blackwell explains that her collection of lectures are the “first fruits” of her medical studies and she offers them as “an earnest of future work.” Blackwell was a pioneer for her holistic approach to disease and care of the human body; she explains that the body “is a living wonderful being, full of our humanity, and capable of immense service, if we would reverence it as our friend and equal” (16). This copy is attractively bound in half morocco leather over buckram boards. The half title page has a contemporary inscription in ink, showing the book was owned by “N.M. Terry” and signed on “Aug 9/52”.

On display today near the east doors of the main floor lobby.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

TUESDAY, JUNE 13
MORNING CEREMONY, 10 A.M.

HONORARY DEGREE RECIPIENT

CONGRATULATIONS

ROSALIE WINARD

DR. TEMPLE GRANDIN

Doctor of Science

Presented by Dr. Stanford Blade, Dean, Faculty of Agricultural, Life and Environmental Sciences

Convocation Speaker: Tuesday, June 13, 3:00 p.m.

Temple Grandin is a Professor of Animal Science at Colorado State University. Facilities she has designed for handling livestock are used by many companies around the world. She has also been instrumental in implementing animal welfare auditing programs that are used by McDonalds, Wendy's, Whole Foods and other corporations. Temple has appeared on numerous TV shows such as 20/20 and Prime Time. Her books include: *Thinking in Pictures*, *Livestock Handling and Transport* and *The Autistic Brain*. Her books *Animals in Translation* and *Visual Thinking* have been on the New York Times Bestseller List. Temple was inducted into the National Women's Hall of Fame in September 2017 and in 2022 was named a Colorado State University Distinguished Professor.

An HBO movie that won five Emmy's was made about Temple's life. Dr. Grandin had no speech until the age of four and she is autistic. Her mother encouraged her ability in art and she had many good teachers and mentors. Mr. Carlock, her high school science teacher, got her motivated

to study hard so she could become a scientist. Temple started her livestock career in Arizona and she became the livestock editor for the state's farm magazine. When she started her design work on cattle handling facilities, Temple used a portfolio of drawings and photographs of completed projects to sell her work. Showing a portfolio of work is one of the best ways for a socially awkward autistic person to get employment. Temple received her Ph.D. in Animal Science from the University of Illinois and she is now teaching classes on livestock handling and doing research at Colorado State University. She has used money earned from both books and speaking engagements to pay for scholarships for over 20 graduate students in Animal Science. Her students have conducted research in a variety of subjects ranging from cattle temperament and weight gain to visual perception of horses and stress in shelter dogs.

Honour with Purpose - Nominate someone you believe deserves the University of Alberta's highest honour. Find more information at www.ualberta.ca/chancellor-and-senate/honorary-degrees/nominations.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr. Temple Grandin:

An Alphabet of Animals. London: Simpkin, Marshall, and Co.; Leicester: Winks and Son, 1865.

The anonymous author of this charming 30-page alphabet book is referred to as "A Lady" on the title page. Written for children to teach them the letters of the alphabet, the book contains eight-line poems about various animals, beginning with the letter "A" for "Ape" and ending with "Z" for "Zebra." The letters are all beautifully illustrated with wood engravings of animals, excepting the letter "X" which instead has a longer poem about a "creature" that "the Greeks called a Xany." On this topic, the author offers her readers some advice: "Now mind what you do- / Or they'll call you a Xany / If you go to school, / And dont [sic] mind your lesson- / For Xany means fool!" (27). Measuring only 12 centimetres in height, this small book was published in stiff yellow wrappers with a decorative design on the front showing that it was sold for one penny. It is especially worth noting that the book is in fine condition because early children's books were typically handled into oblivion.

On display today near the east doors of the main floor lobby.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

WEDNESDAY, JUNE 14
MORNING CEREMONY, 10 A.M.

HONORARY DEGREE RECIPIENT

CONGRATULATIONS

SIR MICHAEL HOUGHTON

Doctor of Science

Presented by Bill Flanagan, President and Vice-Chancellor

Sir Michael Houghton BSc (University of East Anglia, UK), PhD (King's College, University of London, UK) is the Director of the Li Ka Shing Applied Virology Institute at the University of Alberta (U of A) and is the Li Ka Shing Professor within the Department of Medical Microbiology & Immunology in the Faculty of Medicine and Dentistry. He took up a Canada Excellence in Research Chair in Virology at the U of A in 2010. Working with Lorne Tyrrell (MD PhD OC), founder of the Li Ka Shing Institute of Virology, and a large network of collaborating leaders within the U of A, he is involved in developing vaccines against Hepatitis C Virus (HCV) and Group A Streptococcus as well as therapeutics for Cytomegalovirus, Alzheimer's, non-alcoholic fatty liver disease and cancer oncolytics and immunotherapies.

Previously he worked as Vice-President Research in Novartis and Chiron Corporation in California. He and Chiron colleagues, Dr. Qui-Lim Choo and Dr. George Kuo, in collaboration with Dr. Bradley of the Centre for Disease Control, discovered HCV in 1989 and then developed blood tests to prevent transmission of HCV from the global blood supply. For this work, he was a co-recipient of the Nobel Prize in Medicine in 2020 along with Dr. Harvey Alter of the NIH and Dr. Charles Rice of

Rockefeller University. He also received a knighthood from Queen Elizabeth II. In addition, he was the first to characterize the nature of the Hepatitis D Virus (HDV) virus from which he developed blood tests to diagnose HDV patients who can experience a severe form of hepatitis and liver disease. He remains deeply committed to researching diseases with unmet medical need in order to improve healthcare.

Honour with Purpose - Nominate someone you believe deserves the University of Alberta's highest honour. Find more information at www.ualberta.ca/chancellor-and-senate/honorary-degrees/nominations.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr. Michael Houghton:

William Saunders. *A Treatise on the Structure, Economy, and Diseases of the Liver; Together with an Inquiry into the Properties and Component Parts of the Bile and Biliary Concretions*. Boston: W. Pelham, 1797.

William Saunders (1743–1817) completed his medical training in 1765 at the University of Edinburgh where he wrote his thesis on the medicinal application of antimony. He had a long and distinguished career as a physician at Guy's Hospital in London, and in 1793 his achievements to advance medical knowledge were recognized when he became a Fellow of the College of Physicians. This first American edition copy of Saunders' influential work on diseases of the liver is fully bound in calf leather.

On display today near the east doors of the main floor lobby.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

AFTERNOON CEREMONY, 3 P.M.

CONVOCATION SPEAKER

DR. STEPHANIE GREEN

Presented by Dr. Matina Kalcounis-Rueppell, College Dean and Vice Provost

Stephanie Green is an Associate Professor in Biological Sciences and the Canada Research Chair in Aquatic Global Change Ecology and Conservation. Dr. Green leads the CHANGE Lab at UAlberta, which investigates the causes and consequences of biodiversity change in ocean ecosystems in collaboration with governments, non-profit organizations, and coastal communities in Canada and internationally. Her team uses methods including underwater experiments and ecosystems models to uncover how pressure like climate change, biological invasion, harvesting, and habitat loss alter species distribution and abundance.

Dr. Green was named among Edmonton's Top 40 Under 40 in 2021. Her contributions to marine science and conservation have recently been recognized through international awards including the Earth Leadership Fellowship for her research on coral reef restoration techniques and Sloan Research Fellowship in Ocean Sciences for work on sustaining fisheries under climate change. Prior to joining the University of Alberta in 2018, Dr. Green was a Banting Fellow at the Center for Ocean Solutions at Stanford University and a David H. Smith Conservation Research Fellow at Oregon State University.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

FACULTY OF SCIENCE

Presented by Dr. Frederick West, Acting Dean, Science/Dr. Frances Plane, Associate Dean, Graduate Studies and Research

HONORARY DEGREE RECIPIENT

CONGRATULATIONS

KENDRA PENNER @KENDRAHOPEPHOTOGRAPHY

FRED PENNER

Doctor of Letters

Presented by Dr. Jennifer Tupper, Dean, Faculty of Education

Convocation Speaker: Thursday, June 15, 3:00 p.m.

Family Entertainer

At an early childhood education conference, acclaimed family entertainer, singer/songwriter, composer, actor, writer, author, TV host and keynote speaker, Fred Penner delivered a simple, yet powerful message. "Never underestimate your ability to make a difference in the life of a child." With more than 40 years of commitment to the Canadian music industry, Fred has shared his talents with multiple generations.

Fred is a four-time Juno award recipient and starred in 13 seasons (nearly 1,000 episodes) of the hit CBC TV series *Fred Penner's Place*.

Over these decades, Fred has toured extensively across North America and created 13 albums of music for his legions of fans.

His visibility has allowed him the privilege and joy of using his voice as a spokesperson for World Vision, UNICEF, UNESCO, the Canadian Down Syndrome Society and countless other organizations working with children on our planet.

This seasoned performer's ability to blend his considerable talents has garnered critical acclaim and a host of commendations, including the Order of Canada, Order of Manitoba and induction into the Western Canadian music Hall of Fame.

Honour with Purpose - Nominate someone you believe deserves the University of Alberta's highest honour. Find more information at www.ualberta.ca/chancellor-and-senate/honorary-degrees/nominations.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr. Fred Penner:

Andrea Immel and Brian Alderson. *Tommy Thumb's Pretty Song-Book: The First Collection of English Nursery Rhymes; A Facsimile Edition with a History and Annotations*. Los Angeles: Cotsen Occasional Press, 2013.

Winner of the Bibliographical Society of America's 2016 Justin G. Schiller Prize for best bibliographical work on pre-20th century children's books, this Cotsen Occasional Press publication includes a scholarly essay, "Nurse Lovechild's Legacy," and facsimile editions of three eighteenth-century miniature books: *Tommy Thumb's Pretty Song Book* [1744], *The Pretty-Book, Being a New and Pleasant Method to Teach Children* [1745], and *Tommy Thumb's Song Book* (1788). Nurse Lovechild is identified in the March 10, 1744 issue of the *Daily Gazetteer* as the compiler of *Tommy Thumb's Song Book*, which is advertised as: "For all Little Masters and Misses. To be Sung to them by their Nurses, till they can sing them, themselves." This publication was printed in an edition of 500 copies.

On display today near the east doors of the main floor lobby.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

WELCOME TO THE ALUMNI COMMUNITY

Congratulations on your graduation. Your walk across the stage completes your journey as a University of Alberta student. Your alumni journey starts today.

As a U of A grad, you join a worldwide community of more than 300,000 people. For more than a century, alumni have inherited the spirit of our founders, who imagined the U of A as an open laboratory of ideas and action: a place that gives us the courage to try anything. To arrive as one person and to leave as someone else. To learn, to try, to seek truth and to solve problems with quiet confidence. To become change makers and world shapers. To always be looking forward, and to never be satisfied with the “now.” That spirit of building solutions together, for the greater good, lives on in our alumni.

The community you join today will support your ongoing success, as it has done for generations, and continue to guide your path of leading with purpose.

Globally, U of A alumni have founded more than 700,000 organizations. A third of those have social justice, environmental, and cultural missions. Alumni-created organizations employ more than 1.5 million people - the equivalent of one in every five Albertans.

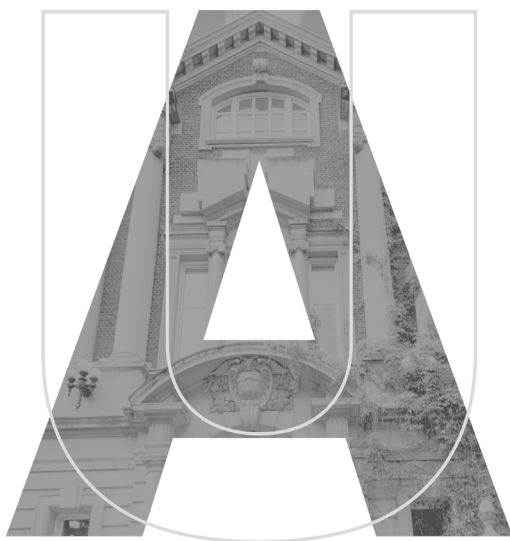

Your role in this community starts by staying connected with other alumni and with the university throughout your lifetime. Together, we can uphold the promise to lead with purpose.

- Access exclusive career services including career mentorship, career-focused events, and Switchboard, an online networking tool where you can expand your job search or crowdsource advice from your alumni community. Learn more at uab.ca/alumnicareer.
- Take advantage of alumni perks such as U of A Library access and ticket discounts. Get more information at ualberta.ca/alumni. Keep an eye on your inbox for the *Alumni Insider* monthly newsletter to get the inside scoop on alumni-exclusive perks, programs, activities, and events.
- Follow us on Twitter, Instagram, Facebook, and LinkedIn @UAlbertaAlumni.
- Read about campus news and alumni achievements in *New Trail*, the U of A's thought-provoking and award-winning alumni publication, arriving to your inbox 10 times a year. You can also subscribe to the print edition of *New Trail* at uab.ca/NTSub.
- Keep your CCID active and retain your UAlberta email for life. Stay in touch by updating your contact information if you move at ualberta.ca/alumni.
