ON THE FRONT COVER

THE UNIVERSITY COAT OF ARMS

In June 1994, His Excellency the Right Honourable Ramon John Hnatyshyn, Governor General of Canada, presented the University of Alberta with its Coat of Arms. The full Coat of Arms is displayed at ceremonial occasions such as Convocation, and is used by the Chancellor, the titular head of the University.

On the shield is a representation of the topography of Alberta rendered in the colours of the University. At the base is a prairie wheat field symbolizing Alberta's agricultural industry. The wavy gold line above suggests the hills and rivers of Alberta and, in particular, the setting of the University campus. The top of the shield is in gold and separated from the rest of the shield by a line suggesting the Rocky Mountains. The book of learning dominates the design.

On the crest is a Grand-Duc d'Amérique, or Great Horned Owl, the provincial bird and an accepted symbol of knowledge. The pronghorn, taken from the Provincial Coat of Arms, and the golden bear, mascot of the University, support the shield. Both wear collars of the University colours, as does the owl. At the base of the Coat of Arms is a grassy mound with wild roses, the floral emblem of Alberta with the University's motto: *Quaecumque Vera* (Whatsoever things are true).

The list of candidates for degrees, diplomas, and certificates appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information presented is current as of the program printing deadline.

QUAECUMQUE VERA

WHATSOEVER THINGS ARE TRUE

The University of Alberta, its buildings, labs, and research stations are primarily located on the traditional territory of Cree, Blackfoot, Métis, Nakota Sioux, Iroquois, Dene, and Ojibway/Saulteaux/Anishinaabe nations; lands that are now known as part of Treaties 6, 7, and 8 and homeland of the Métis. The University of Alberta respects the sovereignty, lands, histories, languages, knowledge systems, and cultures of First Nations, Métis and Inuit nations.

GREETINGS TO THE GRADUATES

Congratulations Class of 2024. You did it! Your years of hard work, the ups and downs, the dreaded deadlines for assignments and projects, the new friends you've made, the problems you've tackled, the professors who inspired you, and the changes you've made in your life, your ideas and your plans for the future... all of this is culminating in the completion of your degrees.

I hope your years at the U of A have inspired you with lessons that go well beyond the courses you took. The ability to adapt and persevere in spite of stressful times. The importance of connections with people we love. The need for kindness, empathy and respect to bridge increasingly polarized views. The power of hope in our combined ability to address some of the world's most challenging problems. And now more than ever, in the midst of a constant barrage of misinformation, the need to steadfastly pursue the university's motto: whatsoever things are true. These are lasting lessons I hope you will remember in the next chapter of your lives.

In my four years as Chancellor, the memory I will cherish the most is convocation and the joy of congratulating each of the graduating students. Seeing the hundreds of graduates cross the stage at each ceremony replenishes my hope for the future because of your energy, enthusiasm, skills and ideas. It fills me with immense pride - the pride we have in you, our newest graduates. Whatever path you choose, strive to make a positive difference in the world. We're counting on you to do that. And remember the University of Alberta will always be here, cheering you on from the sidelines, as each of you pursues your next hopes and dreams.

PEGGY GARRITTY

Chancellor

Warmest congratulations to the class of 2024!

Today, we come together as a community to celebrate a milestone in your life—the culmination of years of hard work and dedication.

The University of Alberta has no doubt left an indelible mark on you. Throughout your time here, you have worked tirelessly in the pursuit of knowledge and truth, grown as an individual, challenged yourself, and, most importantly, persevered no matter how challenging the circumstance. I hope you look back on your time at the U of A with pride in all you have achieved.

Now, as you step into the world, remember that you are not just graduates, but leaders with purpose. Whether it's through the arts, entrepreneurship, research, or societal change, I urge you to be fearless in your pursuit of a better world, setting an example for others to follow.

As you move to the next stage of your journey, you join a global community of more than 300,000 U of A alumni. And, as you join this larger community, we ask that you continue to lead with purpose. The world needs visionary leaders and global citizens capable of making a positive impact here in Alberta and around the world. I know you will all rise to the challenges and make the most of the opportunities that await you.

The University of Alberta was founded 115 years ago on the promise of "uplifting the whole people." As you continue your journey, I know you will draw on the knowledge and skills you developed at the U of A to pursue that noble promise.

BILL FLANAGAN

President and Vice-Chancellor

On behalf of the Government of Alberta, congratulations to the University of Alberta Class of 2024.

Fuelled by passion and driven by purpose, you are about to step into the future. Whether that means further training, starting your career, travel or even taking time to reflect, I hope you are as excited about what's to come as I am.

There are plenty of reasons to be optimistic, particularly for highly motivated individuals like you. Alberta is growing faster now than at any point in its history. As our economy grows and diversifies, more and more talented, innovative people are choosing to call our province home and take advantage of the incredible opportunities available to them. Together, we are building something remarkable.

You have already made some important decisions about how you want to go forward, and now—with your University of Alberta credentials in hand—it's your time to shine. Whether you plan to build your life here or you have joined us only for a few years, I'm so glad you are part of Alberta's incredible story.

I wish you the very best as you pursue your dreams. Enjoy this moment to celebrate what you have achieved.

Congratulations again,

HONOURABLE DANIELLE SMITH

Premier of Alberta

OUR TRADITIONS

THE UNIVERSITY CEREMONIAL CHAIRS

The Chancellor's Chair was presented to the University of Alberta as a gift from the 1922 graduating class. It is made of solid oak with a padded-leather back and seat. Above the padded-leather back is carved the University motto *Quaecumque Vera* together with the class year, 1922, and the University emblem.

In 1987, the family and friends of Dr. Charles Malcolm Macleod, Chair of the Board of Governors from 1950 to 1966, presented a memorial gift to the University of two additional chairs for use by the President and the Chair of the Board of Governors at Convocation.

In 2006, a fourth chair was donated in memory and honour of Lois Elsa Hole, beloved Chancellor (1998 – 2000) and Lieutenant Governor (2000 – 2005), by Earl Evaniew, Sandra Kereliuk, and their daughter Jennifer. This chair becomes part of the seating arrangements on stage when the Lieutenant Governor or other high profile dignitaries attend the Convocation ceremonies.

THE UNIVERSITY MACE

The University of Alberta Mace was designed and crafted specifically for the University as a gift

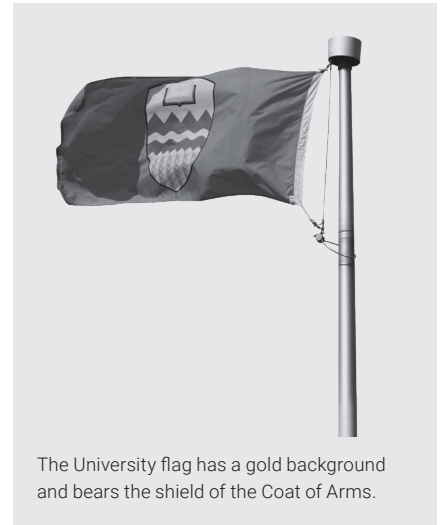

from Dr. Francis Phillip Galbraith, Chancellor of the University of Alberta from 1964 to 1970. It was presented by his son, Michael Galbraith, on behalf of his father on May 26, 1970.

Among its elements are: the Star of Saint Thomas Aquinas, the Patron Saint of Scholars; the Wild Rose of Alberta; the Maple Leaf; and the separate charges which make up the University's Emblem. The University motto encircles the staff.

The ceremonial stand for the Mace was donated in 1987 as a memorial gift by family and friends of Dr. Charles Malcolm Macleod, Chair of the Board of Governors, from 1950 to 1966.

The Mace is carried before the Chancellor, or Vice-Chancellor, in procession and rests on its stand in full view of the assembly during Convocation. Centuries ago the Mace was a symbol of authority over life and death. Today it represents power – but the power of knowledge and the importance of the University in the community.

THE UNIVERSITY FLAG

The University flag has a gold background and bears the shield of the Coat of Arms.

THE CHEER SONG

*Ring out a cheer for our Alberta
A song of praise to Varsity.
For the splendour of our mountains
Our prairies green and gold.
Ranked beneath whose
glowing colours,
Thy legions march enrolled.
Our memories will live forever
Beloved University.
We will fight for thee and cheer
And ever hold thine honour dear.
Our Alma Mater U of A.
Green and gold! *Quaecumque Vera!*
Guide us through each coming era,
Guide us on through battle gory
To a new and greater glory.*

INSTALLATION OF THE CHANCELLOR

The Honourable Dr. A. Anne McLellan will introduce Chancellor-Elect Nizar J. Somji.

President Bill Flanagan will remark with these words:

"And now, on behalf of the Senate, I call upon Nizar J. Somji to come forward in order that Her Honour, the Lieutenant Governor of Alberta, may administer the Oath of Office and install him as Chancellor."

The Honourable Salma Lakhani, Lieutenant Governor, will then ask Nizar J. Somji to raise his right hand and will address him in these words:

"Do you, Nizar J. Somji, solemnly and sincerely promise and swear that you will duly and faithfully, and to the best of your skill and knowledge, exercise the powers and trusts reposed in you as Chancellor of the University of Alberta?"

Nizar J. Somji will reply:

"I do."

The President and Vice-Chancellor will address the Chancellor-Elect:

"Nizar J. Somji, I welcome you on behalf of the Senate of the University of Alberta and I now call upon the Registrar of the University to invest you with the robes of office."

Chancellor-Elect Nizar J. Somji will receive the official gown of the Chancellor of the University from the Registrar, Ms. Norma Rodenburg, and the cap from Assistant Registrar, Ms. Corinne Callihoo.

Her Honour, the Lieutenant Governor will then say:

"Nizar J. Somji, at the request of the Senate, and by the custom of this University, I hereby install you as Chancellor of the University of Alberta, with all the powers and responsibilities pertaining to this office."

President and Vice-Chancellor Bill Flanagan will then call for the University Mace from the Chief Marshal:

"Nizar J. Somji, I present to you the University Mace as a symbol of the authority of the Chancellor in the community."

Chancellor Somji will place his right hand on the Mace and then ask the Chief Marshal to return it to the stand at the front of the platform.

CONVOCATION ADDRESS

HONORARY DEGREE RECIPIENT

CONGRATULATIONS

DR. CONNIE VARNHAGEN

Doctor of Science

Presented by Dr. Stanford Blade, Dean, Faculty of Agricultural, Life & Environmental Sciences

Connie Varnhagen, Professor Emerita at the University of Alberta and President of Alberta Helping Animals Society (AHAS), is celebrated for her leadership in teaching, research and community service. She played a crucial role in establishing and teaching in the Science 100 program in the Faculty of Science, as well as the Companion and Performance Animals degree program in the Faculty of Agricultural, Life & Environmental Sciences. As a Faculty Associate for University Teaching Services and a 3M National Teaching Fellow, she actively supported a range of innovative teaching and learning initiatives. Connie's research, supported by Canada's three national funding agencies, focuses on applied developmental science and social issues, including children's literacy development, assessing information on the web, youth attitudes towards risky behaviours and the impact of the human-animal bond on health and wellbeing. Much of her community-based research involves undergraduate students, leading to her role as the founding Academic Director of the Undergraduate Research Initiative.

Connie's recent work with undergraduate students contributed to developing models for the Edmonton Humane Society's Prevent Another Litter Subsidy and the AHAS. AHAS is a volunteer-based charity offering advice, advocacy and no cost veterinary services to low-income Edmontonians.

Several of Connie's former students, now practicing veterinarians or technologists, generously volunteer with AHAS Home Veterinary Services. Connie herself obtained a distance education veterinary technology degree at San Juan College with the aim of contributing to AHAS as well as other initiatives extending veterinary care to underserved people around the world. Connie's commitment to community service and ongoing undergraduate research on the human-animal bond has established AHAS Home Veterinary Services as a leader in community-based, accessible veterinary care.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr. Connie Varnhagen:

Anna Sewell. *Black Beauty, His Groom and Companions*. Boston: American Humane Society, 1890.

First published in London, this is the first American edition of one of the best-selling books of all time. The central character, *Black Beauty*, is a horse who narrates his own life story beginning with his early happy life on a farm with his mother through his working life, pulling a cab in London for increasingly cruel owners, and on to his happy retirement. Always intelligent and virtuous, this is a horse who has been loved by generations of readers of all ages and in a great many languages. *Black Beauty* is the most famous in the series of books published by the American Humane Society in its early years in order to teach readers that animals are sentient beings who should be treated in a compassionate manner, something that was not widely understood at the time. *Black Beauty* is an important addition to Bruce Peel Special Collections, both for its own sake and because it was the inspiration for another extremely popular Humane Society publication, one that was also the first novel by a Canadian author to sell over a million copies: *Beautiful Joe* (1894).

Honour with purpose: Do you know of someone extraordinary?

THURSDAY, JUNE 13
MORNING CEREMONY, 10 A.M.

HONORARY DEGREE RECIPIENT

CONGRATULATIONS

DR. CHARLES LEE

Doctor of Science

Presented by Dr. Declan Ali, Dean, Faculty of Science

Convocation Speaker: Thursday, June 13, 3:00 p.m.

Charles Lee grew up in High Prairie, Alberta and moved to Edmonton in 1983. He pursued his undergraduate studies in the Department of Genetics at the University of Alberta and subsequently obtained his graduate education in the Faculty of Medicine, also at the University of Alberta. He conducted his postdoctoral studies at Cambridge University and Harvard Medical School and then joined the faculty at Harvard Medical School. It was during this time that Professor Lee discovered, for the first time, that genes (once thought to always occur in two copies per cell), can be present in more or fewer copies, or be missing altogether. This phenomenon of genome-wide copy number variation was a groundbreaking discovery that changed the field of human genetics and transformed our understanding of disease mechanisms, human evolution and the development of new genetic diagnostic tests.

In 2013, Professor Lee became the inaugural Scientific Director of The Jackson Laboratory (JAX) for Genomic Medicine, creating a new human genomics-centered campus for JAX, a nonprofit biomedical research institute which leverages the mouse as a model organism to advance

precision medicine. He also serves as Professor and Robert Alvine Family Endowed Chair at JAX for Genomic Medicine.

During the COVID-19 pandemic, he was appointed to the task force that advised Connecticut Governor Lamont on navigating the public health emergency, and he led the coordination of one of the most efficient SARS-CoV-2 testing programs in the United States.

For his discoveries in the human genome, Professor Lee has received many accolades including from the American Association for Cancer Research, the American Association for the Advancement of Science, Thompson Reuters, Duke University and others. In 2008, he received the Ho-Am Prize in Medicine, and in 2018, he received the Distinguished Alumni Award from the University of Alberta. Professor Lee is a past president of the Human Genome Organization and in 2023, he was inducted as a Fellow of the Korean Academy of Science and Technology.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr. Charles Lee:

M. Flamand. *The Art of Preserving and Restoring Health*. London: R. Bentley, H. Bonwick, and S. Manship, 1697.

The title page of this early treatise on "simple and effectual remedies" for various diseases explains that it was "Written in French by M. Flamand, M.D. and faithfully translated into English." The book is divided into two sections: part one explores the art of preserving health, from removing "the First immediate Cause of Diseases, by lessening the Quantity of the Blood" (30) to using "purging medicines" that are "proportioned to the Strength of the Patient" (51); part two focuses on "particular remedies" that the author "had observ'd to be most esteem'd, and found to be most useful and effectual" (72), from "A Remedy for the Head-Ach" (82) to a treatment "For the Spleen" (88). The remedy for "the Pain of the Kidneys" was certainly straightforward but to modern readers, predictably ineffectual: "Dip a Linen Cloth in Oxycrate, and apply it to the Part affected. Oxycrate is a Mixture of six parts of Water, and one of Vinegar" (92). This copy of an exceedingly scarce antiquarian medical book has a contemporary calf binding and an early ownership inscription on the title page.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

FRIDAY, JUNE 14
AFTERNOON CEREMONY, 3 P.M.

HONORARY DEGREE RECIPIENT

CONGRATULATIONS

DR. D. LORNE TYRRELL

Doctor of Science

Presented by Dr. Brenda Hemmelgarn, Dean of the College of Health Sciences and Vice-Provost and Dean, Faculty of Medicine & Dentistry

Dr. Tyrrell obtained a BSc (U of A) in 1964, MD in 1968 (U of A) and a PhD in 1972 (Queen's University). After training in Internal Medicine and Infectious Diseases, he completed a PDF in Virology (Karolinska Institute) in Stockholm.

Dr. Tyrrell is a Distinguished Professor at the University of Alberta and a Fellow of the Royal Society of Canada. He is Founding Director of the Li Ka Shing Institute of Virology, Associate Director of the Applied Virology Institute with Sir Michael Houghton (Nobel Prize Laureate 2022) as Director. He is Co-Director with Dr. Matthias Gotte of SPP-ARC (Striving for Pandemic Preparedness – the Alberta Research Consortium).

Dr. Tyrrell has been actively engaged in virology research for over 40 years focusing on viral hepatitis. Research with Dr. Morris Robins (Chemistry, University of Alberta) led to the first oral antiviral therapy for the treatment of chronic hepatitis B. Work with Drs. N. Kneteman and D. Mercer led to the first non-primate animal model for hepatitis C virus (HCV). This resulted in a spin-off company, KMT Hepatech, which held an exclusive contract with the National Institutes

for Health (NIH) for over 15 years to test antivirals for HCV.

Since the outbreak of COVID-19, his research has expanded into vaccines, therapeutics and diagnostics for SARS-CoV-2. Dr. Tyrrell was the Dean of Medicine and Dentistry (1994-2004), Chair of the Gairdner Foundation Board (2008-2019) and a member of the Research Advisory Committee to the President of Canadian Institute for Advanced Research (2004-2019). In 2020, he was appointed a member of the COVID-19 Vaccine Task Force for the Federal Government. Dr. Tyrrell's accolades include Officer of the Order of Canada, Alberta Order of Excellence, Canadian Medical Hall of Fame and Killam Prize in Health Research. He was awarded the Henry G. Friesen International Prize in Health Research (2021) and the Baruch S. Blumberg Prize (2022) by the Hepatitis B Foundation of America.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr. D. Lorne Tyrrell:

Minta Collins. *Tractatus de Herbis*. London: Folio Society, 2002.

Within the holdings of The British Library is a lavish medieval manuscript about plants and their medicinal properties, *Tractatus de Herbis*, which is otherwise known as British Library Egerton MS 747 (named after Francis Henry Egerton, 8th Earl of Bridgewater (1756–1829) who established a fund for manuscript acquisitions). This facsimile of the manuscript was published in a limited edition with an accompanying commentary volume, featuring an introduction by Minta Collins and a list of plants by Sandra Raphael. The manuscript has ruled columns, alphabetical sections, an extensive handwritten text, decorative chapter initials, and hundreds of plant illustrations. Bound in dark green goatskin with a design of brambles on the cover by David Eccles, the facsimile has 109 folios, gilt edges, and handmade endpapers; the separate commentary volume is bound in quarter buckram with a printed label on the cover. Both volumes are elegantly housed in a dark green Solander case with a pastedown spine label.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

HONORARY DEGREE RECIPIENT

CONGRATULATIONS

DR. ROBERT FOSTER

Doctor of Science

Presented by Dr. Christine Hughes, Dean, Faculty of Pharmacy and Pharmaceutical Sciences

Dr. Foster has an accomplished history of leadership success in the global life sciences. In a career spanning over 35 years, which includes senior positions in both industry and academia, he has achieved results ranging from discovering and leading the clinical development of a U.S. Food and Drug Administration ("FDA")-approved drug and structuring one of Canada's largest-ever drug licensing deals to publishing over 225 papers, abstracts and book chapters focused on drug analysis, development and pharmacometrics and being named as an inventor on approximately 205 patents.

Most recently, he was the Chief Executive Officer of Hepion Pharmaceuticals, a NASDAQ-listed, clinical-stage biopharmaceutical company. Hepion's lead drug, rencofilstat, is a potent inhibitor of cyclophilins that is in development for the treatment of metabolic dysfunction-associated steatohepatitis (MASH), fibrotic diseases, hepatocellular carcinoma (HCC) and other chronic diseases. Previously, Dr. Foster and his team discovered rencofilstat while at Ciclofilin Pharmaceuticals, which merged with Hepion in 2016. Before that, he founded and led TSX-listed Isotechnika Pharma (now Aurinia Pharmaceuticals; NASDAQ:AUPH), where he discovered

voclosporin, a novel cyclophilin inhibitor designed to treat autoimmune diseases. In 2002, Dr. Foster structured a US\$215 million licensing deal, Canada's largest at the time, for voclosporin for kidney transplant immunosuppression with Hoffman-La Roche. Voclosporin was later developed for the treatment of lupus nephritis and approved by the FDA for that indication in January 2021. In addition to his many achievements related to drug discovery and development, Dr. Foster is also the innovator of a commercially available 13C urea breath test, called Helikit, for the diagnosis of peptic ulcers caused by *H. pylori*.

Dr. Foster has, and continues to be, a proud member of Alberta's academic community. He is an Adjunct Professor, Faculty of Pharmacy and Pharmaceutical Sciences, University of Alberta.

Dr. Foster holds a BSc (chemistry), BSc (Pharm), PharmD, and PhD (Pharmaceutical Sciences), and served as a tenured, Associate Professor in the Faculty of Pharmacy and Pharmaceutical Sciences at the University of Alberta until 1997, when he left the university to pursue his entrepreneurial and executive management endeavours in industry. From 1990 to 1994, he also held the position of Medical Staff, Scientific and Research Associate in the Department of Laboratory Medicine at the Walter C. Mackenzie Health Sciences Centre.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr. Robert Foster:

Joseph Miller. *Botanicum Officinale; or a Compendious Herbal: Giving An Account of All Such Plants as Are Now Used in the Practice of Physick. With Their Descriptions and Virtues.* London: E. Bell, J. Senex, W. Taylor, and J. Osborn, 1722.

This rare book on herbal medicine was published for the benefit of early apothecaries who sought knowledge of plants as medicines in the treatment of various ailments and diseases. Arranged alphabetically by their Latin names, each plant also has affiliated names and a description in English. The final entry for "Zinziber" describes how "Ginger" could be used for medicinal purposes: "This is a yellowish, white, and flattish round Root, somewhat knotty and branched, of an aromatic Smell, and a very hot biting Taste ... Ginger is used in Food, as well as in Physick. It heats and comforts the Stomach, expels Wind, helps Digestion, prevents the Collic, and strengthens the Bowels" (463). This first edition copy of Joseph Miller's herbal (a book comprised of names and descriptions of plants) has a contemporary full calf binding, marbled endpapers and edges, and an engraved armorial bookplate of Hugh Cecil Lowther, 5th Earl of Lonsdale (1857–1944).

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

TUESDAY, JUNE 18
MORNING CEREMONY, 10 A.M.

HONORARY DEGREE RECIPIENT

CONGRATULATIONS

PROFESSOR CATHERINE BELL

Doctor of Laws

Presented by Professor Barbara Billingsley, Dean, Faculty of Law

Convocation Speaker: Tuesday, June 18, 3 P.M.

Catherine Bell is an Emerita Professor of Law at the University of Alberta (1989 – 2021). She has also been a visitor at other universities, most recently with the University of Victoria's Faculty of Law (2022) and as the Ariel F. Sallows Chair in Human Rights at the College of Law, University of Saskatchewan (2022-2023). As a legal scholar, advocate and educator, she is dedicated to advancing Indigenous rights, access to justice and legal education. Her work has had a significant impact on Indigenous heritage law, policy and practice, Métis rights and collaborative research methods. Her innovative community-engaged research and courses challenge Canadian law to recognize and respect Indigenous rights, knowledge and methods and respond to issues in access to justice.

At the University of Alberta, she developed and taught courses on Indigenous rights, dispute resolution and property law; supported the establishment and supervised in the Kawaskimhon National Aboriginal Law Moot; and created research opportunities for students from diverse disciplines. She also co-developed the Law Faculty's Low Income Clinical Law Program (with the Edmonton Community Legal Centre & Legal Aid Alberta) and the Externship Program on Gladue

Sentencing Principles (with Alberta Justice and Solicitor General). She has taught and developed courses for the Program of Legal Studies for Native People (University of Saskatchewan), Akitsiraq Law School (University of Victoria & Nunavut Arctic College), Nunavut Law Program (University of Saskatchewan & Nunavut Arctic College), and Banff Centre Indigenous Leadership Program. In 2012, she was awarded the Ramon John Hnatyshyn Governor General's Gold Medal recognizing her outstanding contributions to law and legal education.

Among her other contributions is service on committees of universities, Alberta courts and others dedicated to research, access to justice and post-secondary education. Her current work focuses on the United Nations Declaration on the Rights of Indigenous Peoples, museums, repatriation and reform of provincial heritage law and policy. She is also on the Board of the Indigenous Heritage Circle – a national Indigenous designed and led organization dedicated to the advancement of cultural heritage priorities of Inuit, First Nations, Métis peoples and respect for Indigenous laws, values and protocols.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Professor Catherine Bell:

Nancy Desjarlais. *Sky Woman's Blanket*. Acrylic on canvas. 76.2 x 60.1 cm.

Nancy Desjarlais is an award-winning artist of Cree and Métis ancestry. She spent her early years on the Fort McMurray 468 First Nation, but, like many First Nations children, she was removed from her home and was first put into a convent and later into foster homes. Later, as she reconnected with her family roots, she learned about her culture through art. In Desjarlais' artwork, images of the sky and stars reveal a cosmic-earth connection that is rich in spiritual energy, "I want to go beyond separateness. We are part of the earth and the universe. There is so much more than can be revealed through our senses. This is what compels and intrigues me." *Sky Woman's Blanket* is a beautifully vibrant celebration of the creation story.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

CONVOCATION SPEAKER

APOOYAK'II/ DR. TIFFANY HIND BULL-PRETE

Introduced by Dr. Jennifer Tupper, Dean, Faculty of Education

Apooyak'ii/Dr. Tiffany Hind Bull-Prete is a member of the Kainai (Blood Tribe) of the Siksikasitapi (Blackfoot Confederacy), located in the Treaty 7 area. She is an assistant professor in the Department of Sociology at the University of Lethbridge. Her program of work consists of implementing the Truth and Reconciliation Commission's Calls to Action on the Blood Reserve.

Dr. Hind Bull-Prete earned her bachelor of elementary education specializing in math and science, and completed her master of education and doctor of philosophy in education at the University of Alberta. She held both a Social Science and Humanities Research Council (SSHRC) Postdoctoral Fellowship, and was an inaugural recipient of the University of Calgary's Provost's postdoctoral award for Indigenous and Black scholars at the University of Calgary.

The University of Alberta awarded Dr. Hind Bull-Prete the Alumni Horizon Award (2022) which recognized her research initiatives arising from her Truth and Reconciliation research, and its community implications as an outstanding professional achievement. The award acknowledged that, "Those who hear her speak never forget it — she tackles difficult subjects with eloquence and humanity. Tiffany is a difference-maker".

Dr. Hind Bull-Prete recently curated the exhibition *Stolen Kainai Children: Stories of Survival*. This exhibit portrays the experiences of Kainai children during the residential school era, shedding light on the educational policies of that time and the remarkable resilience of the Blood Tribe.

Dr. Hind Bull-Prete's background is in educational policy studies, specializing in Indigenous Peoples education. Her area of expertise includes: Indigenous secondary retention rates within the public school system, Blackfoot historical research, impacts of colonization, intergenerational trauma and Indigenous research methodologies.

In her spare time, Dr. Hind Bull-Prete is a Native American beadwork enthusiast. She published a research paradigm grounded in an Indigenous worldview that is guided by Native American beadwork.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

DIPLOMA OF THE FACULTY OF EDUCATION

Alain Marie Awitan Cuizon, Special Topics - Teaching in the Alberta Context in Secondary Education, Philippines

ON CAMPUS PROGRAM

Presented by Dr. Jennifer Tupper, Dean, Education

Caleb William Antaya Moore
Nicholas Dryden Thomas Peacocke
Andrew Edward Tomich

THURSDAY, JUNE 20
MORNING CEREMONY, 10 A.M.

HONORARY DEGREE RECIPIENT

CONGRATULATIONS

DR. DONNA STRICKLAND

Doctor of Science

Presented by Dr. Matina Kalcounis-Rueppell, Dean of the College of Natural and Applied Sciences and Vice-Provost

Convocation Speaker: Thursday, June 20, 3:00 P.M.

Donna Strickland is a professor in the Department of Physics and Astronomy at the University of Waterloo and is one of the recipients of the Nobel Prize in Physics 2018 for developing chirped pulse amplification with Gérard Mourou, her PhD supervisor at the time. They published this Nobel-winning research in 1985 when Strickland was a PhD student at the University of Rochester in New York state. Together they paved the way toward the most intense laser pulses ever created.

Strickland was a research associate at the National Research Council Canada, a physicist at Lawrence Livermore National Laboratory and a member of technical staff at Princeton University. In 1997, she joined the University of Waterloo, where her ultrafast laser group develops high-intensity laser systems for nonlinear optics investigations.

Strickland was named a Companion of the Order of Canada. She is a recipient of a Sloan Research Fellowship, a Premier's Research Excellence Award and a Cottrell Scholar Award.

Strickland served as the president of the Optical Society (OSA) in 2013. She is a fellow of OSA and SPIE, the Royal Society of Canada and the Royal Society. She is an honorary fellow of the Canadian Academy of Engineering as well as the Institute of Physics. She is an international member of the US National Academy of Science. Strickland earned a PhD in optics from the University of Rochester and a bachelor of engineering from McMaster University.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr. Donna Strickland:

Magalotti, Lorenzo. *Saggi di naturali esperienze fatte nell'Accademia del Cimento sotto la protezione del Serenissimo Principe Leopoldo di Toscana*. Florence: Filippo Cecchi, 1691.

The only publication published by the first academy of science in Europe, which had a diverse membership including Italian mathematician Vincenzo Viviani, Italian-French astronomer and engineer Giovanni Domenico Cassini, Dutch embryologist Francesco Redi, Danish anatomist and geologist Nicolaus Steno, and Italian physiologist and physicist Giovanni Alfonso Borelli. This pioneering academy developed new methods, carried out experiments, and distributed scientific instruments. First published in 1666, this book was reissued many times in English, Latin, Italian and French. This copy of the second edition is bound in contemporary calf with gilt lettering on the spine and features numerous full-page illustrations. This important title in the history of science is a great addition to Bruce Peel Special Collections.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

FACULTY OF ENGINEERING

Presented by Dr. Simaan AbouRizk, Dean, Engineering/Dr. Cagri Ayranci, Associate Dean, Graduate and Postdoctoral Studies

CONGRATULATIONS GRADUATES

THURSDAY, JUNE 20, AFTERNOON CEREMONY, 3 P.M.

FACULTY OF ENGINEERING

Presented by Dr. Simaan AbouRizk, Dean, Engineering/Dr. Cagri Ayranci, Associate Dean, Graduate and Postdoctoral Studies

DOCTOR OF PHILOSOPHY

Maged Kamal Gouda Abdelkader, Transportation Engineering in Civil and Environmental Engineering, Edmonton (granted December 14, 2023)
Ahmed Salem Bark Al-Tamimi, Structural Engineering in Civil and Environmental Engineering, Edmonton
Zhexuan An, Environmental Engineering in Civil and Environmental Engineering, China
Ali Bayesteh, Construction Engineering and Management in Civil and Environmental Engineering, Ontario
Huiyu Chen, Transportation Engineering in Civil and Environmental Engineering, China
Zhuo Chen, Petroleum Engineering in Civil and Environmental Engineering, Edmonton
Stefan Eric Damkjar, Integrated Circuits and Systems in Electrical and Computer Engineering, Edmonton
Eric Thomas Der, Electromagnetics and Microwaves in Electrical and Computer Engineering, Edmonton
Benedict Nosazemen Egbon, Structural Engineering in Civil and Environmental Engineering, Edmonton
Nastaran Gholizadeh, Software Engineering and Intelligent Systems in Electrical and Computer Engineering, Iran
Chuan Guo, Software Engineering and Intelligent Systems in Electrical and Computer Engineering, China
Yunting Guo, Mining Engineering in Civil and Environmental Engineering, China
Qi Huang, Environmental Engineering in Civil and Environmental Engineering, China
Hossein Izadi, Petroleum Engineering in Civil and Environmental Engineering, Iran
Javad Khodaei Mehr, Biomedical Engineering in Electrical and Computer Engineering, Iran
Bahareh Lashkari, Software Engineering and Intelligent Systems in Electrical and Computer Engineering, Edmonton
Foroogh Mehravaran, Environmental Engineering in Civil and Environmental Engineering, Iran
Nima Mirhadi, Geotechnical Engineering in Civil and Environmental Engineering, Edmonton
Fatemeh Modares Sabzevari, Electromagnetics and Microwaves in Electrical and Computer Engineering, Ontario
Tamer Moussa, Petroleum Engineering in Civil and Environmental Engineering, Edmonton
Dipanjnan Nandi, Photonics and Plasmas in Electrical and Computer Engineering, India
Amin Nazarzadeh Oghaz, Control Systems in Electrical and Computer Engineering, Edmonton
Md Rezwana Parvez, Control Systems in Electrical and Computer Engineering, Edmonton
Randy Agra Pratama, Petroleum Engineering in Civil and Environmental Engineering, Edmonton
Yadong Qin, Petroleum Engineering in Civil and Environmental Engineering, China (granted January 24, 2024)
Mohammad Rahim Sobhani, Microsystems and Nanodevices in Electrical and Computer Engineering, Edmonton
Sohrab Sharifi, Geotechnical Engineering in Civil and Environmental Engineering, Edmonton
Jialin Shi, Petroleum Engineering in Civil and Environmental Engineering, China
Monsuru Abiodun Suara, Environmental Engineering in Civil and Environmental Engineering, Nigeria
Sandra Alford Ukaigwe, Environmental Engineering in Civil and Environmental Engineering, Edmonton

Robert Siphon Carlton Winter, Electromagnetics and Microwaves in Electrical and Computer Engineering, Athabasca
Haibin Yan, Water Resources Engineering in Civil and Environmental Engineering, China
Haisheng Yu, Petroleum Engineering in Civil and Environmental Engineering, China
Amir Zakerimanesh, Control Systems in Electrical and Computer Engineering, Iran
Bowen Zeng, Structural Engineering in Civil and Environmental Engineering, China
Ganxing Zhang, Petroleum Engineering in Civil and Environmental Engineering, China (granted February 2, 2024)
Huan Zhang, Water Resources Engineering in Civil and Environmental Engineering, China
Sissi Zhang, Petroleum Engineering in Civil and Environmental Engineering, China
Xin Zhang, Petroleum Engineering in Civil and Environmental Engineering, China
Tyler James Zimmerling, Photonics and Plasmas in Electrical and Computer Engineering, Ardrossan
Shihao Zou, Computer Engineering in Electrical and Computer Engineering, China (granted December 15, 2023)

MASTER OF SCIENCE

Mohamed Nasser Ali Abohassan, Transportation Engineering in Civil and Environmental Engineering, Edmonton
Mohammad Afaghi, Structural Engineering in Civil and Environmental Engineering, Iran
Nirob Ahmed, Civil and Environmental Engineering, Bangladesh
Alireza Arjmand Shakouri, Computer Engineering in Electrical and Computer Engineering, Iran
Harsimran Singh Arora, Internetworking, India

FRIDAY, JUNE 21
MORNING CEREMONY, 10 A.M.

HONORARY DEGREE RECIPIENT

CONGRATULATIONS

RENELTTA ARLUK

Doctor of Letters

Presented by Dr. Robert Wood, Dean, Faculty of Arts

Reneltha is Inuvialuk, Gwich'in, Denesuline and Cree from Fort Smith, Northwest Territories. For over twenty years, Reneltha has been a part of or initiated the creation of Indigenous Theatre across Canada and overseas. In 2005, she earned a Bachelor of Fine Arts Acting degree from the University of Alberta. She became the first Indigenous woman as well as the first Inuk to graduate from the reputable program. In 2009, Reneltha produced her first play, TUMIT, under her theatre company, Akpik Theatre. To date, Akpik Theatre has developed and produced a dozen works including a takeover of Shakespeare's Macbeth titled Pawâkan. Pawâkan is a Plains Cree takeover inspired by working with youth and elders on the Frog Lake reserve, Treaty 6 territory.

In 2016, Reneltha became the first Inuk and first Indigenous woman to direct at The Stratford Festival. There she was awarded the Tyrone Guthrie - Derek F. Mitchell Artistic Director's Award for her direction of Colleen Murphy's *The Breathing Hole*.

Reneltha credits her grandparents who raised her on the trap-line in the north until school age. This nomadic environment gave Reneltha the skills to become the multi-disciplined Indigenous artist she has become. In her becoming, she gives much gratitude to her son who has

grown her capacity and deepened her appreciation for life around her. Currently she works at the National Gallery of Canada under Indigenous Ways & Decolonization.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Ms. Reneltha Arluk:

Ningiukulu Teevee. *Ravin' Raven*. 2019. Lithograph. No. 32 of 40. 55.9 x 76.2 cm.

Ningiukulu Teevee is one of the finest artists involved in the Kinngait (Cape Dorset) graphics studio. Her work explores Inuit legends and reveals a sly sense of humour and a dynamic design sensibility. Her work has been featured in exhibitions in major public galleries and museums and is much sought after by collectors. In 2009, her children's book, *Alego*, was short-listed for the Governor General's award for illustration in Children's Literature. Commissioned by Inuit Gallery in North Vancouver, *Ravin' Raven* is an exuberant print that arises from the traditional story when Owl and Raven exchanged gifts: Owl was given a beautiful white dress with black flecks and the delighted Raven received a new pair of boots to protect her feet.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

CHANCELLOR'S INSTALLATION

NIZAR J. SOMJI

Presented by The Honourable Dr. A. Anne McLellan, Canadian politician and academic

Nizar J. Somji, an accomplished engineer and entrepreneur committed to innovation, has been elected as the University of Alberta's 23rd chancellor. Elected by the University Senate, he succeeds Peggy Garrity and commences a four-year, non-renewable term upon his installation.

With over 30 years of leadership experience developing initiatives, fostering strategic partnerships and driving innovation, Somji is the founder of multiple successful businesses. These include the Jaffer Group of Companies, which has invested more than \$130 million in Alberta through ventures in construction, staffing, information technology, realty, hospitality, petroleum and property management.

A U of A graduate with a master's degree in chemical engineering, Nizar's dedication to advancing industrial innovation is evident through his funding of two engineering research chairs at the university. His contributions have led to significant developments in process control and automation, which multinational corporations have adopted.

His expertise as a seasoned corporate executive also extends to the community. He is a current member of EPCOR's board of directors and chair of KV Capital, a Western Canadian equity fund enterprise. Somji has also served on the boards of Redline Communications and Critical Control Energy Services Corp. He has also served with the U of A board of governors and as a volunteer global director of campus development and operations with Aga Khan University and Hospital.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

WELCOME TO THE ALUMNI COMMUNITY

Congratulations on your graduation. Your walk across the stage completes your journey as a University of Alberta student. Your alumni journey starts today.

As a U of A grad, you're joining a worldwide community of more than 300,000 people. For more than a century, alumni have inherited the spirit of our founders, who imagined the U of A as an open laboratory of ideas and action: a place that gives us the courage to try anything. To arrive as one person and to leave as someone else. To learn, to try, to seek truth and to solve problems with quiet confidence. To become change makers and world shapers. To always be looking forward, and to never be satisfied with the "now." That spirit of building solutions together, for the greater good, lives on in our alumni.

The community you join today will support your ongoing success, as it has done for generations, and continue to guide your path of leading with purpose.

U of A alumni have addressed global challenges and improved lives for people across the globe and for those right next door. U of A grads have led breakthroughs in every sector, built industries, created communities and been leaders at every level. They enrich the social and cultural lives of communities.

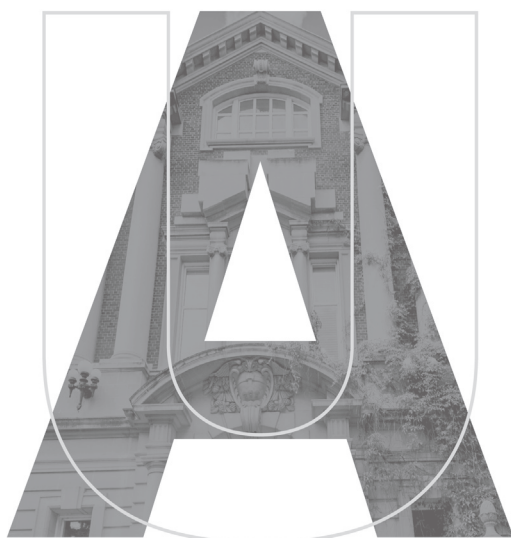

Globally, U of A alumni have founded more than 75,000 companies that contribute \$250 billion to the global economy and employ 922,000 people worldwide. Of those, 560,000 people are in Alberta and make up more than 22% of the province's total workforce. And 65% of grads are committed to careers that make substantial contributions to the social and economic welfare of the wider public, including grads who improve health, well-being and safety ; promote social and cultural inclusion; advance equality and opportunity.
