

Spring/Summer Registration 2025

COLLABORATIVE PROGRAM YEAR ONE

- Elective Course (or ENGL/WRS)
 - Students should enroll in an Elective Course or in ENGL/WRS if not taken in Fall 2024 term.
- INT D 222 - Indigenous Health in Canada
 - Students living outside of the Edmonton Area can complete [this form](#) to request online enrollment.

If you are looking for an elective, there are two new courses offered by the Faculty of Nursing that may be of interest! INT 247 Resilience and INT D 249 The Science of Joy and Happiness are both available in the Spring Term!

COLLABORATIVE PROGRAM YEAR TWO - **FAST TRACK:**

- NURS 321 in the Spring Term
- NURS 300 and NURS 327 in the Summer Term

COLLABORATIVE PROGRAM YEAR THREE - **EARLY COMPLETION:**

- NURS 485A+B (Y01/Y02) *or*
- NURS 422 A+B (800), NURS 425 (Y01/Y02) A+B, INT D 420 A+B (800)

Ensure that you are following the course plan laid out in your Early Completion offer letter.

COLLABORATIVE PROGRAM YEAR FOUR - **FAST TRACK:**

- NURS 485A+B (Y01/Y02) *or*
- NURS 422 A+B, NURS 425 (Y01/Y02) A+B, INT D 420 A+B

Enroll in whichever course you did NOT complete during Winter 2025, and be sure to enroll, on the same day, in both sections of each course. Section A is in Spring, section B is in Summer -- if you do not enroll in both, and on the same day, Beartracks will drop you from the course.

Spring/Summer Registration 2025

AFTER DEGREE PROGRAM YEAR ONE

- NURS 205A, *[NURS 432 and 433] or [NURS 437] in Spring
- NURS 205B and NURS 431 in Summer

***NURS 432** (Maternal/Child Nursing Practice) and **NURS 433** (Community Nursing Through the Lifespan) are offered jointly over Spring term. Each course runs for 3 weeks and students will either start with NURS 432 and then take NURS 433 or vice versa.

NURS 432 consists of a perinatal-focused lecture and lab and three clinical days per week. Most students will have their clinical experience in an obstetrical setting and there will be one clinical group each three weeks who will have a child health experience at the Stollery Children's Hospital. Please complete this [Google Form](#) before Friday February 7th, 2025, if you are interested in having a NURS 432 clinical experience in child health. Names will be randomly selected from the list of those completing the Google form and registered in the clinical section assigned to the Stollery Children's Hospital.

After Degree Honors Students: must enroll in Spring Term **NURS 432 LAB D101 or D102 in 3W1** and **NURS 433 LEC A201 in 3W2**, and can take any NURS 431 section in Summer.

AFTER DEGREE PROGRAM YEAR TWO

- NURS 485A+B (Y01/Y02) or
- NURS 422 A+B (800), NURS 425 A+B (Y01/Y02), INT D 420 A+B (800)

Whichever course(s) you did not take during Winter 2025, you will enroll in for Spring/Summer 2025. Be sure to enroll in both sections of each course on the same day. If you do not enroll in both, on the same day, Beartracks will drop you from the course.

Students selecting INT D 420, NURS 422 and NURS 425 will need to arrange their schedules to ensure appropriate time is set aside for NURS 425 hours with your field mentor. The course dates are **May 5 - August 17**. INT D 420 and NURS 422 classes are scheduled on Mondays. NURS 425 begins with a class block from **May 5-15**, after which students will spend 192 fieldwork hours over the next 13 weeks. It is important that you keep Tuesday to Friday open until you meet with your field mentor and determine which days each week will be spent on fieldwork. Following that you will be able to schedule other outside commitments.
