Message from the Department

The 2022/23 academic year was filled with highlights, impact, and transformation for our award-winning faculty members and department. In June 2022, Dr. Marguerite Wieler finished her term as department chair. We are grateful for the steady leadership Dr. Wieler provided over a disruptive period. She provided a voice of compassion and reflection during our response to the COVID-19 pandemic and budget cutbacks. Dr. Doug Gross was the successful candidate for chair and started his term in July 2023.

In May we learned our program will return to Camrose and the Augustana campus. This time the occupational therapy and speech language pathology programs will join us, as the Government of Alberta approved expansion of all three. We eagerly anticipate returning to Camrose and re-starting our rural satellite campus in September 2024.

Our teaching of future physiotherapists continued in Edmonton, Calgary, and the broader community through clinical placements. We are immensely grateful for the clinical preceptors and facilities who willingly accept physiotherapy students, sharing basic knowledge, practical skills, and clinical wisdom.

We focused on our commitment to reconciliation with Indigenous Peoples and broader commitments to equity, diversity, and inclusion in all we do. Guided by new national physiotherapy curriculum standards, we continued our collaboration with Treaty 8 First Nations and took steps towards Indigenizing our curriculum.

We are grateful for our strong community partnerships. This includes alumni, donors, and community instructors who support our department. As we continue to build and strengthen partnerships, we appreciate how important it is to stay connected. We give updates through media releases and various social media channels. But feel free to reach out any time with questions, concerns, or ideas to help us improve.

Dr. Doug Gross

Chair & Professor
Department of Physical Therapy

Dr. Mark Hall

Associate Chair & Teaching Professor
Department of Physical Therapy

Our Mission

With an overarching focus of creating a diverse and inclusive environment, elevate the Department of Physical Therapy (and the profession) through four strategic themes: develop and strengthen teaching, foster partnerships, enhance research and knowledge translation/implementation.

Our Core Values

- Focus on people, creating an inclusive community
- Teaching for the 21st century
- Partnerships
- Research and technology

CANCER EXERCISE STUDY HELPS LOCAL BROADCASTER REBUILD HIS BODY AND LIFE

After having a cancerous tumour removed from his neck, local sports broadcaster Dave Jamieson regained his strength and rebuilt his life with help from principal investigator and physical therapy professor Dr. Margie McNeely and the [Alberta Cancer Exercise study](#).
