

Out-of-Province Placements

Placements in first year will be held in Alberta.

You have the option of requesting out-of-province (OOP) placements during Blocks 5 and 6.

The guidelines for these requests will be covered by the ACCE during noon-time meetings held during second year.

NOTE: In requesting an OOP placement(s) you accept all responsibility for the financial, registration and other requirements that may be involved. For example, a number of provinces require a fee (\$50 to \$75) for processing the request. This fee is non-refundable, regardless of whether a placement is found or not.

Some provinces have set a cap on the number of requests they will accept per program.
