

A CELEBRATION OF RESEARCH & INNOVATION

THE CELEBRATION OF RESEARCH & INNOVATION IS COORDINATED BY

The Office of the Vice-President (Research)
1-20 University Hall
University of Alberta

The **University of Alberta** would like to thank NSERC—Prairie Regional Opportunities Fund for sponsoring this event.

MARKETING-SERVICES-11344

MARCH 22, 2011

Research at the University of Alberta

The University of Alberta is committed to building on its strengths in research and the creative arts by partnering in innovative ways with government, industry, and others to develop a knowledge-based economy and to enhance interdisciplinary links within our community and beyond.

Our goal is to support the talented people at the U of A—faculty, support staff, and students—with the resources and services to build one of the world’s great universities for the public good.

This event celebrates the breadth of research at our University and the impact of our contributions to Albertan and Canadian society as well as around the world.

Funding from federal and provincial agencies, foundations, and private sponsors is critical to the success of the University of Alberta. We gratefully acknowledge these organizations’ continuing support of the research and creative life of the University.

We would like to especially thank NSERC for providing support for this event.

“The people demand that knowledge shall not alone be the concern of scholars. The uplifting of the whole people shall be its final goal.”

Henry Marshall Tory
First President
University of Alberta, 1908–1928

Program

Hosts

DR LORNE A BABIUK ■ VICE-PRESIDENT (RESEARCH), UNIVERSITY OF ALBERTA

DR CARL G AMRHEIN ■ PROVOST AND VICE-PRESIDENT (ACADEMIC), UNIVERSITY OF ALBERTA

Welcome Addresses

THE HONOURABLE ED STELMACH ■ PREMIER OF ALBERTA

DR LINDA HUGHES ■ CHANCELLOR, UNIVERSITY OF ALBERTA

DR INDIRA SAMARASEKERA ■ PRESIDENT AND VICE-CHANCELLOR, UNIVERSITY OF ALBERTA

Award Presentations

■ VIDEO PORTRAIT: OVERVIEW OF U OF A RESEARCH IN 2010

■ VANIER CANADA GRADUATE SCHOLARSHIPS

■ PETRO-CANADA YOUNG INNOVATOR AWARD

■ VIDEO PORTRAIT: SARAH ROSHKO, NSERC UNDERGRADUATE STUDENT RESEARCH AWARD

■ MARTHA COOK PIPER RESEARCH PRIZES

■ J GORDIN KAPLAN AWARDS FOR EXCELLENCE IN RESEARCH

■ SUPPORT STAFF RESEARCH ENHANCEMENT AWARD

■ CANADA-US FULBRIGHT PROGRAM

■ AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE FELLOWSHIP

■ VIDEO PORTRAIT: LLOYD DOSDALL, ASTECH AWARD FOR INNOVATION IN AGRICULTURAL SCIENCE

■ ALBERTA ORDER OF EXCELLENCE

■ CANADA'S TOP 40 UNDER 40

■ VIDEO PORTRAIT: JANINE BRODIE, TRUDEAU FELLOW, AND LIBE GARCÍA ZARRANZ, TRUDEAU SCHOLAR

■ HUMBOLDT RESEARCH AWARD

■ CANADA EXCELLENCE RESEARCH CHAIRS

■ VIDEO PORTRAIT: BRAD THOMAS, CIHR NATIONAL CANADIAN RESEARCH TRAINING PROGRAM IN HEPATITIS C

■ ROYAL SOCIETY OF CANADA

■ ORDER OF CANADA

Closing Remarks

MR BRIAN HEIDECKER ■ CHAIR, UNIVERSITY OF ALBERTA BOARD OF GOVERNORS

Performances

UNIVERSITY OF ALBERTA SAXOPHONE QUARTET ■ DEPARTMENT OF MUSIC

DEPARTMENT OF DRAMA DANCE GROUP ■ DIRECTED BY LIN SNELLING

AUGUSTANA CHOIR ■ CONDUCTED BY BRENDAN LORD

WEST AFRICAN MUSIC ENSEMBLE ■ DIRECTED BY ROBERT KPOGO

Art Displays

DEPARTMENT OF ART AND DESIGN ■ HOROWITZ LOBBY

Thanks to Bonnie Sadler Takach for coordinating this exhibit.

PLEASE JOIN US AT A RECEPTION IN THE HOROWITZ LOBBY FOLLOWING THE CEREMONY.

Award Presentations

VIDEO PORTRAIT: OVERVIEW OF U OF A RESEARCH IN 2010

Vanier Canada Graduate Scholarships

Canada's three federal granting agencies—the Canadian Institutes of Health Research, the Natural Sciences and Engineering Research Council, and the Social Sciences and Humanities Research Council—support and administer the Vanier Graduate Scholarships.

The scholarships recognize top Canadian and international doctoral students with the goal of attracting and retaining the world's premier students and promoting Canada as a global centre of excellence in research and higher learning.

Recipients:

- > **DANIELLE ANDERSON** Oncology
- > **LISA BROWN** Civil and Environmental Engineering (also received an Alberta Ingenuity PhD Graduate Student Scholarship)
- > **JAMES EDE** Biological Sciences (also received an Alberta Ingenuity PhD Graduate Student Scholarship in Nanotechnology)
- > **KAREN JUNG** Oncology
- > **JESSIE-LEE LANGILLE** Public Health
- > **JOAQUÍN LÓPEZ OROZCO** Cell Biology
- > **BARBARA MILMINE** Sociology
- > **KIMBERLY ONG** Biological Sciences (also received an Alberta Ingenuity PhD Graduate Student Scholarship in Nanotechnology)
- > **STEVEN OOSTERHOF** Civil and Environmental Engineering (also received an Alberta Ingenuity PhD Graduate Student Scholarship)
- > **MOTI PAUDEL** Oncology
- > **AJA RIEGER** Biological Sciences
- > **TAMARA SORENSON DUNCAN** Linguistics
- > **ANDREW WALSH** Biomedical Engineering (also received an AHFMR Studentship Award)
- > **QIONG WU** Computing Science (also received an iCORE Graduate Student Scholarship in Information and Communications Technology)

Petro-Canada Young Innovator Award

This award recognizes the work of outstanding young faculty members in the School of Business and the Faculties of Engineering and Science.

Suncor Energy administers this award. The University of Alberta appreciates Suncor Energy's generous support of our talented young researchers.

Recipient:

KARTHIK SHANKAR

Electrical and Computer Engineering

FOCUS ON KARTHIK SHANKAR

Dr Karthik Shankar is researching ways to increase solar panels' energy-yielding power and to lower the cost of manufacturing them.

Many solar cells are limited because they don't harvest the wide spectrum of light from the sun. Dr Shankar's new process of combining metallic nanoparticles with semi-conductor nanostructures could lead to a solar cell that absorbs light more strongly as well as a wider array of sunlight.

"Building solar panels with mainstream semiconductors requires a clean room and people in laboratory bunny suits—it's very expensive," Dr Shankar says. "My proposal is low cost. You won't need a clean room; hopefully, you can make these new solar panels in a garage."

His technology also has potential for other uses, for example, removing organic pollutants in drinking water.

VIDEO PORTRAIT: SARAH ROSHKO, NSERC UNDERGRADUATE STUDENT RESEARCH AWARD

An undergraduate student in Physical Education and Recreation (Kinesiology), Sarah Roshko worked with supervisor Dr Dave Collins on a novel approach to rehabilitation.

She and Dr Collins looked at whether playing the *Guitar Hero* video game could strengthen the pathways that connect the brain and muscles in people recovering from damage to their central nervous system.

People with damage caused by stroke or spinal cord injury often have to relearn how to move. The nervous system can often adapt in response to these kinds of injuries, a process called neuroplasticity.

Sarah's study investigated whether integrating fun and motivating games like *Guitar Hero* into rehabilitation programs could improve patients' neuroplasticity and speed up their recovery.

Martha Cook Piper Research Prizes

The Martha Cook Piper Research Prize commemorates Dr Piper's significant contribution to the research community while she was Vice-President (Research) and Vice-President (Research and External Affairs) at the University of Alberta during the 1990s.

This award recognizes two faculty members who are at an early stage of their careers, enjoy a reputation for original research, and show outstanding promise as researchers.

Recipients:

- > **ROBERT CAMPBELL** Chemistry
- > **LISA GIVEN** Library and Information Studies

FOCUS ON MARTHA COOK PIPER RESEARCH PRIZE RECIPIENTS

**ROBERT CAMPBELL**

Chemist Robert Campbell trained with a member of the Nobel Prize-winning research team that discovered a fluorescent protein to highlight processes inside living cells.

Dr Campbell has since developed ever more sophisticated tools to reveal a colourful map of cellular protein function.

Thousands of proteins inside cells control vital chemical processes. If they fail to work properly, the result can be illness and death—the reason it is so important to develop a complete map of protein function in the body.

“My lab is working to expand the range of biochemical processes that can be visualized with fluorescent protein technology,” says Dr Campbell. “Our goal is to open up yet more windows into the cell and allow researchers to see even more things that they’ve never been able to see before.”

LISA GIVEN

In 2005, a 64-year-old refugee from Pakistan was deemed inadmissible to Canada because of his alleged connections to terrorism. Iftikhar Shoaq Jalil’s case went to appeal, and the U of A’s Lisa Given was called in to assess the quality of evidence, including documents submitted by the Canadian Security Intelligence Service.

The case, and especially Given’s contribution to it, was groundbreaking—the first to identify deficiencies in evidence used by the federal government to connect a defendant to a terrorist organization.

Since then, Dr Given has testified in 16 high-profile cases and has conducted a review of CSIS’ information assessment practices.

In 2010, Dr Given also received the Young Alumni Award of Merit (University of Western Ontario) and the Association for Library and Information Science Education (ALISE) Methodology Paper Award.

J Gordin Kaplan Awards for Excellence in Research

The J Gordin Kaplan Awards for Excellence in Research are the most prestigious University of Alberta research awards and are named for the University's first Vice-President (Research).

Recipients:

- > **JED HARRISON** Chemistry
- > **JOHN-PAUL HIMKA** History and Classics

FOCUS ON J GORDIN KAPLAN AWARDS FOR EXCELLENCE IN RESEARCH RECIPIENTS

JED HARRISON

Dr Harrison is a leader in developing tiny three-dimensional structures that can carry out chemical analyses on a piece of silicon or glass a few centimetres square.

He pioneered “lab-on-a-chip” technology, which has many uses, including immunological tests for hormones and drug abuse, DNA diagnostics, tests for soil and water contamination, and detecting biological warfare agents on the battlefield.

Both portable and inexpensive, a lab-on-a-chip needs only a very small amount of test material—about one billionth of a millilitre. These devices can detect extremely small concentrations, for example, the equivalent of one Tylenol tablet dissolved in 12 Olympic-sized swimming pools.

JOHN-PAUL HIMKA

Dr Himka has gained international recognition in three main areas of research: Ukrainian history, with an emphasis on socialism and nationalism in the 19th century; Eastern Christianity from the 15th to 18th centuries; and the history of the Holocaust in Eastern Europe.

He has published four research monographs and more than 50 papers in journals and books as well as co-editing three collections. His works are essential reading for anyone interested in the history of Eastern Europe and indeed of Europe as a whole.

He has presented his research at conferences in Canada, the US, Germany, Ukraine, Italy, and Israel and has also been asked to speak at some of the top universities in the world, including Columbia, Harvard, and Yale.

Support Staff Research Enhancement Award

This University of Alberta research award recognizes support staff who consistently make a positive contribution to the research success of their Faculty/Department and the University.

This contribution includes providing outstanding service, fostering innovation, creating a positive influence in the workplace, and demonstrating leadership qualities.

Recipient:

TO BE ANNOUNCED AT THE CELEBRATION OF RESEARCH & INNOVATION

Canada-US Fulbright Program

The Canada-US Fulbright Program gives outstanding Canadian and American students and scholars the chance to lecture, do research, and pursue graduate studies in the United States and Canada. Award recipients include prominent and promising scholars, experienced and junior professionals, as well as exceptional students.

Recipients:

- > **PATRICK FORREST** George Washington University, Fulbright Visiting Research Chair at the U of A's Alberta Institute for American Studies
- > **JEREMY MOUAT** Augustana Campus, Fulbright Visiting Research Chair at Arizona State University
- > **BRENT SOHNEN** Ohio State University, Fulbright Scholar at the U of A's Department of Rural Economy and the Alberta Institute for American Studies

American Association for the Advancement of Science Fellowship

Election as a Fellow of the American Association for the Advancement of Science is an honour bestowed upon members by their peers. Fellows are recognized for meritorious efforts to advance science or its applications.

Recipient:

TODD LOWARY
Chemistry

FOCUS ON TODD LOWARY

Dr Lowary is a Professor in the Department of Chemistry and a member of the Alberta Ingenuity Centre for Carbohydrate Science, a research group that has created a critical mass of Canadian talent in this strategic field.

His research team applies some of the latest techniques of nuclear magnetic resonance spectroscopy, chemical synthesis, and computational chemistry to examine the shape of polysaccharides that make up the cell wall of the tuberculosis bacterium.

He and his group hope to identify the structural motifs that are key to forming the protective structure of the tuberculosis bacterium's cell wall.

VIDEO PORTRAIT: LLOYD DOSDALL, ASTECH AWARD FOR INNOVATION IN AGRICULTURAL SCIENCE

Dr Lloyd Dosedall, a professor in Agricultural, Food and Nutritional Science, has spent much of his 25-year career studying the insects that infest Alberta farmers' fields.

One of his greatest achievements is developing a weevil-resistant canola that could provide enormous economic benefits to canola growers and reduce environmental degradation through pesticide use.

The focus of Dr Dosedall's current research examines beneficial insects, predators, and parasites and their ability to control crop pests naturally.

Alberta Order of Excellence

The Alberta Order of Excellence is the highest honour the Province of Alberta can bestow on a citizen. Members have made an outstanding provincial, national, or international impact.

Recipients:

- > **PHILIP CURRIE** Biological Sciences
- > **ROBERT STEADWARD** Physical Education and Recreation

FOCUS ON ALBERTA ORDER OF EXCELLENCE RECIPIENTS

PHILIP CURRIE

A renowned paleontologist, Dr Currie's achievements include playing a key role in creating the Royal Tyrrell Museum of Paleontology in Drumheller; publishing landmark research on dinosaur digs as far apart as China, Antarctica, Mongolia, Argentina, and Australia; and widely communicating the important role ancient fossils play in determining the environmental future of the planet.

His field research and pioneering lab techniques have shed new light on the origins of birds and reconstructed much of what we know about the evolution of meat-eating dinosaurs.

Together with his colleagues, Dr Currie has named 25 new dinosaurs and other fossil reptiles (three of which have been named in his honour).

ROBERT STEADWARD

Dr Steadward is a pioneering leader in the field of disability sport and a highly respected teacher, author, sport scientist, and community volunteer.

His seminal work brought the Paralympic movement to the world's attention and allowed athletes with disabilities from Canada and around the globe to develop and compete to their fullest potential. His efforts have also inspired many people with disabilities to pursue more active lifestyles.

The U of A's Steadward Centre for Personal and Physical Achievement is named after this advocate of sport and physical activity access for people with disabilities.

In 2010, Dr Steadward was also named one of Alberta's 50 Most Influential People by *Alberta Venture*.

Canada's Top 40 Under 40

Canada's Top 40 Under 40 program honours Canadians under the age of 40 who have reached a significant level of success. It promotes mentorship and professional development by introducing these leaders to the business community and by promoting them as role models for young Canadians.

Recipient:

IAN MANN

Physics

FOCUS ON IAN MANN

Canada Research Chair in Space Science Dr Ian Mann is the principal investigator for the Canadian Space Agency's space storm research, and co-director of the U of A's Institute for Space Science, Exploration and Technology.

Dr Mann's research projects, which focus on space weather and how to limit its effects on satellite communications and space activities, open up great economic opportunities for Canada.

The United States recently launched the first privately funded spacecraft. Dr Mann believes that Canada, with the fourth-largest aerospace industry in the world, must be ready to compete in the new space race: "Imagine space-based monitoring of the Northwest Passage and the environmental impact of the oil sands or natural disasters, and imagine 40-minute sub-orbital passenger flights from Toronto to Sydney, Australia."

VIDEO PORTRAIT: JANINE BRODIE, TRUDEAU FELLOW, AND LIBE GARCÍA ZARRANZ, TRUDEAU SCHOLAR

Trudeau Fellowship

Every year, the Pierre Elliott Trudeau Foundation selects up to five Fellows from across Canada who have set themselves apart through their research achievements, creativity, and social commitment.

The Fellows are chosen by an independent jury of eminent researchers and intellectuals after a rigorous selection process.

Recipient:

JANINE BRODIE

Political Science

FOCUS ON JANINE BRODIE

Dr Brodie's research critically engages with many key challenges in Canadian politics and public policy: citizenship, gender equality, political representation, social policy, globalization, and contemporary transformations in governance.

Dr Brodie has published in a wide range of national and international scholarly journals and has written 70 book chapters, most recently focusing on the many complex effects of neoliberal governing practices on social citizenship, and national governance. She has also written or co-written eight books, and edited or co-edited three others.

Dr Brodie's current research focuses on contemporary social policies and anti-poverty strategies as well as challenges to democratic citizenship arising from continentalization and globalization.

Trudeau Scholarship

The Trudeau Scholarships are among the most prestigious scholarships in the country and are awarded to doctoral students in Canada who are expected to become national and international leaders in their fields.

Recipient:

LIBE GARCÍA ZARRANZ

English and Film Studies

FOCUS ON LIBE GARCÍA ZARRANZ

The sixth University of Alberta graduate student to be awarded a Trudeau Scholarship, Libe García Zarranz completed her master's degree (writing two dissertations) while teaching high school English in a small town outside Zaragoza, Spain.

Her interest in the works of Irish-Canadian author Emma Donoghue motivated her to continue her studies in Canada.

After coming here, Ms García Zarranz's interests expanded to include other feminist ex-patriate writers who call Canada home, including Hiromi Goto (currently a writer-in-residence at the U of A), Shani Mootoo, and Larissa Lai.

She studies feminist writers in the context of their border-crossing strategies and their works that cross geo-political boundaries or divisions of gender, sexuality, or genre.

In 2010, Ms. García Zarranz also received an Honorary Izaak Walton Killam Memorial Scholarship, Dorothy J Killam Memorial Graduate Prize, and Andrew Stewart Memorial Graduate Prize.

Humboldt Research Award

This award, administered by the Alexander von Humboldt Foundation, recognizes a researcher's achievements and is awarded to academics whose fundamental discoveries, new theories, or insights have had a significant impact on their own discipline and who are expected to continue producing cutting-edge achievements in the future.

Recipient:

ONOOKOME OKOME

English and Film Studies

FOCUS ON ONOOKOME OKOME

Onookome Okome's research focuses on Nigerian cinema—also called “Nollywood,” a word combining Nigeria and Hollywood.

With the fastest-growing film industry in the world, Nigeria produces about 2,500 films a year—films that are the most popular movies in Africa.

Nollywood got its start in the late 1970s just after Nigeria had been through a civil war. In a time of crime and violence, many people wanted a safe form of entertainment.

Dr Okome sees Nollywood as a sign of Nigeria's vibrant cultural entrepreneurship. “It's an industry financed by poor people, and it's completely in control of itself,” he says, adding that “the industry changed how the society looks at itself.”

Canada Excellence Research Chairs (CERCs)

The Canada Excellence Research Chairs (CERC) Program supports Canadian universities in their efforts to build on Canada's growing reputation as a global leader in research and innovation.

In May 2010, the first 19 Canada Excellence Research Chairs were announced. Selected through a rigorous national peer review and selection board process, these chairholders are among the world's top researchers.

Recipients:

- > **MICHAEL HOUGHTON** Canada
Excellence Research Chair in Virology,
Medical Microbiology and Immunology
- > **PATRIK RORSMAN** Canada
Excellence Research Chair in Diabetes,
Alberta Diabetes Institute
- > **GRAHAM PEARSON** Canada
Excellence Research Chair in Arctic
Resources, Earth and Atmospheric
Sciences
- > **THOMAS THUNDAT** Canada
Excellence Research Chair in Oil Sands
Molecular Engineering, Chemical and
Materials Engineering

FOCUS ON CANADA EXCELLENCE RESEARCH CHAIRS

MICHAEL HOUGHTON

Dr Michael Houghton—an internationally recognized expert in hepatitis virology—was part of the research team that first identified and cloned the hepatitis C virus.

This breakthrough allowed him to develop new blood-screening tests able to detect the virus. These techniques are now used worldwide to keep patients safe by ensuring that blood supplies are free from the virus.

Dr Houghton's commitment to developing low-cost vaccines could have enormous benefits for hepatitis sufferers in Canada and around the world, helping them overcome these diseases and reducing the costs and impacts of hepatitis B and C on both sufferers and the health-care system.

Joining a prestigious team of internationally recognized virologists, immunologists, and molecular biologists at the University of Alberta, Dr Houghton and his research team will maintain Canada's pioneering position in biomedicine.

PATRIK RORSMAN

Dr Patrik Rorsman has made significant breakthroughs in mapping the biology and function of pancreatic islets—research that has led to a greater understanding of how insulin is produced and secreted.

He will study how healthy and diseased human pancreatic islets function and will develop new treatments that preserve, regenerate, and transplant these insulin-producing cells back to healthy conditions, thereby restoring the pancreas' functions.

His work will enhance the U of A's Alberta Diabetes Institute's already world-renowned reputation as a leader in diabetes research and treatment.

The University of Alberta is home to the team that developed the Edmonton Protocol—a pioneering procedure for islet cell transplantation used around the world to treat Type 1 diabetes, freeing patients from injected insulin for years at a time.

**GRAHAM PEARSON**

Dr Graham Pearson is one of the world's leading experts on diamond studies and the creation of diamond-forming roots beneath continents. He has pioneered new techniques for geochemical analysis and for dating minute geological samples.

Diamond exploration and mining have been one of the main drivers of economic development in Canada's North during the past decade, accounting for more than \$2 billion in annual economic activity. To sustain this level of economic growth beyond the predicted 10- to 20-year life spans of the current mines, more diamond deposits must be discovered.

His geological snapshots of rock formations under Canada's Arctic will revolutionize our understanding of the evolution of current and potential diamond mines. In collaboration with the Canadian government, he will develop a geo-mapping program that will help to identify new areas for mining diamonds and other mineral deposits.

THOMAS THUNDAT

The microscale chemical processes that underlie Canada's oil sands, such as the complex interaction of water and bitumen, and of sand and clay, determine whether the oil they hold can be successfully extracted and refined.

A world leader in the study of these complex processes, Dr Thundat will develop new extraction technologies to improve oil sands processing. The tools he develops will eventually lead to extraction processes that are more energy-efficient, use less water, and reduce greenhouse gas emissions.

Dr Thundat's research program will further enhance the University of

Alberta's existing expertise in oil sands research, bringing together leading-edge researchers in nanotechnology, biomedical engineering, information communications technologies, and natural and energy resource management.

VIDEO PORTRAIT: BRAD THOMAS, CIHR NATIONAL CANADIAN RESEARCH TRAINING PROGRAM IN HEPATITIS C

Hepatitis C is a chronic viral disease affecting approximately 170 million people worldwide. Currently, there is no vaccine and only one course of treatment available.

Dr Thomas from Medical Microbiology and Immunology received a CIHR National Research Training Program in Hepatitis C Postdoctoral Fellowship to research two main aspects of the disease: how patients' unique genetic make-up affects their treatment outcomes, and how chronic hepatitis C infections bring about the cellular changes that can lead to end-stage liver disease.

His work aims to help people with hepatitis C live healthier lives and to identify new treatments for the disease.

Royal Society of Canada

The Academies of Arts, Humanities, and Sciences of Canada comprise the senior national body of distinguished Canadian scientists and scholars. Fellows are selected by their peers for outstanding contributions to the natural and social sciences, and the humanities and the arts.

Recipients:

> **PAUL ARMSTRONG** Medicine
> **DAVID BRINDLEY** Biochemistry

> **CHRIS LE** Laboratory Medicine and
Pathology/Public Health

FOCUS ON FELLOWS OF THE ROYAL SOCIETY OF CANADA

PAUL ARMSTRONG

Dr Armstrong is an internationally recognized investigative cardiologist whose research has substantially improved the care of and outcomes for heart-attack patients.

Recently, Dr Armstrong led a U of A research team that found a new way to treat the most deadly type of heart attack, the acute ST elevation myocardial infarction, which causes significant loss of blood flow to the heart.

Dr Armstrong's experiment trained paramedics to do a 12-lead electrocardiogram of the heart. In this way, the earliest caregivers could address the problem immediately. Using a cell phone, the paramedics send the results of the ECG to an on-call cardiologist's laptop to confirm the diagnosis before the patient reaches the hospital.

DAVID BRINDLEY

Dr Brindley investigates the hormonal regulation of triglyceride and phospholipid synthesis in stress, diabetes, and obesity.

Diabetes and insulin resistance are characterized by high blood triglycerides. Dr Brindley's research has proven that lipins help to stimulate the liver to secrete fat into the blood.

This discovery could lead to a treatment or even a cure for one of society's major killers: metabolic syndrome. This syndrome includes diabetes, obesity, high blood fats, and high blood pressure.

Dr Brindley's other research focuses on how bioactive lipids regulate wound healing, tumour development, metastasis, angiogenesis, and chemo-resistance.

CHRIS LE

Dr Le and his team monitor the early steps in repairing damage to DNA. His team found that the proteins that recognize the damage amplify the distortion of the DNA around the damaged site by bending the DNA and separating the strands of the double helix.

This process makes it easier for the next protein to recognize and cut out the damaged portion of the DNA. The cells then patch up the empty space using the healthy half of the DNA as a model to repair the cell to its original state.

Dr Le sees this as a very exciting discovery that "contributes to the fundamental understanding of the mechanisms of DNA repair."

Dr Le is also a CRC in Bio-Analytical Technology and Environmental Health.

Order of Canada

The Order of Canada recognizes a lifetime of outstanding achievement, dedication to the community, and service to the nation.

MEMBERS

Recipients:

- > **JOHN GODEL** Professor Emeritus, Pediatrics
For his contributions to pediatric health care in remote northern communities of Canada, and for his volunteerism abroad.
- > **GWYN MORGAN** Honorary Doctorate of Laws from the University of Alberta
For his contributions as a business and community leader and as a philanthropist.
- > **AL O'BRIEN** Honorary Doctorate of Laws from the University of Alberta
For important contributions to improving public finance in Canada.
- > **CHARLENE ROBERTSON** Professor Emeritus, Neurodevelopment, Pediatrics
For her contributions to the field of neonatal and pediatric intensive care in Canada.
- > **ROBERT WESTBURY** Honorary Doctorate of Laws from the University of Alberta
For his contributions as a leading community volunteer and as a champion of education and the arts.

OFFICERS

Recipients:

- > **SHRAWAN KUMAR** Professor Emeritus, Rehabilitation Medicine
For his contributions to the field of rehabilitation ergonomics, in Canada and abroad, notably in his research and teaching on the causation, prevention, and treatment of musculoskeletal injuries.
- > **ANNE MCLELLAN**, Academic Director and Distinguished Scholar in Residence, Alberta Institute for American Studies; Honorary Doctorate of Laws from the University of Alberta
For her leadership and dedication as a politician and law professor, and for her contributions as a community volunteer.

Faculty Research Awards

SIMAAAN ABOURIZK

Civil and Environmental Engineering
Canadian Society for Civil
Engineering Fellow

ANNALISE ACORN

Law
Outstanding Fellow (Einstein
Forum)

JOHN ACORN

Renewable Resources
ASTech Award for Excellence in
Science and Technology, Public
Awareness

MIKAEL ADOLPHSON

East Asian Studies
Faculty of Arts Research Award
(Associate Professor)

TODD ALEXANDER

Pediatrics
AHFMR Clinical Investigator

MARION ALLEN

Nursing
Lifetime Achievement Award
(College and Association of
Registered Nurses of Alberta)

ALIDAD AMIRFAZLI

Mechanical Engineering
Canada Research Chair

COLIN ANDERSON

Surgery
AHFMR Senior Scholar

JENNIFER ARGO

Business
Early Career Award for
Contributions to Consumer
Research (Association for
Consumer Research)

CHARLIE ARSHAD

Renewable Resources
Soil Science Distinguished Service
Award (Soil Science Society of
America)

GLEN BAKER

Psychiatry
Canadian Academy of Health
Sciences Fellow

CHRISTIAN BEAULIEU

Biomedical Engineering
AHFMR Scientist

NORMAN BEAULIEU

Electrical and Computer
Engineering
Reginald Aubrey Fessenden Silver
Medal (IEEE Canada); Canadian
Award for Telecommunications
Research (Queen's University and
Canadian Society of Information
Theory)

TANYA BERRY

Physical Education and Recreation
Canada Research Chair

JEFFREY BISANZ

Psychology
Pickering Award for Contributions
to Developmental Psychology in
Canada; Westbury Legacy Award
(Alberta Centre for Child, Family
and Community Research)

WALTER BISCHOF

Computing Science
Graduate Student Supervisor Award
(GSA)

STAN BOUTIN

Biological Sciences
Killam Award for Excellence
in Mentoring; William Rowan
Distinguished Service Award
(Alberta Chapter, Wildlife Society)

MICHAEL BRETT

Electrical and Computer
Engineering
Canada Research Chair

ROBERT BURRELL

Biomedical Engineering/Chemical
and Materials Engineering
Canada Research Chair; Jonas
Salk Award; ASTech Award for
Outstanding Leadership in Alberta,
Technology

ABDEL CADENILLAS

Mathematical and Statistical
Sciences
World Class University
Distinguished Professor of Financial
Engineering

BRENDA CAMERON

Nursing
McCalla Professor

ROBERT CAMPENOT

Cell Biology
Sanofi-Aventis Outstanding
Research Article Award (co-winner)

OCTAVIAN CATUNEANU

Earth and Atmospheric Sciences
WW Hutchison Medal (Geological
Association of Canada)

TIM CAULFIELD

Law/Public Health
Canada Research Chair; Till and
McCulloch Award (Stem Cell
Network)

MING CHAN

Neuroscience
Canadian Association of Physical
Medicine and Rehabilitation Paper
of the Year Award

VLADIMIR CHERNOUSOV

Mathematical and Statistical
Sciences
Canada Research Chair

DERRICK CLIVE

Chemistry
R U Lemieux Award (Canadian
Society for Chemistry)

ANNE COMMONS

East Asian Studies
Japan Foundation Short Term
Fellowship

AL COOK

Speech Pathology and Audiology
SIGACCESS Award for Outstanding
Contributions to Computing and
Accessibility

EMMANUELLE CORDAT

Physiology
Kidney Foundation of Canada
KRESCENT New Investigator Award

ROBERT CREASER

Earth and Atmospheric Sciences
Canada Research Chair

GRETA CUMMINGS

Nursing
Order of Merit for Nursing Research
(Canadian Nurses Association)

JOEL DACKS

Cell Biology
Alberta Innovates—Technology
Futures New Faculty Award

BEV DAHLBY

Economics
Doug Purvis Memorial Prize (Purvis
Foundation)

CLAYTON DEUTSCH

Civil and Environmental Engineering
Canada Research Chair

ROGER DIXON

Psychology
Canada Research Chair

DWAYNE DONALD

Secondary Education
Canadian Association for
Curriculum Studies Dissertation
Award; Alberta Teachers'
Association Educational Research
Award; Phi Delta Kappa/Faculty of
Education Dissertation Award

JASON DYCK

Pediatrics
Canadian Hypertension Society/
Pfizer Award

NADIR ERBILGIN

Renewable Resources
ALES Research and Innovation
Award

CAROLE ESTABROOKS

Nursing
Canada Research Chair; CAFA
Distinguished Academic Award
(Confederation of Alberta Faculty
Associations)

GINO FALLONE

Oncology
Order of Merit for Labour (Italy's
Order of Knighthood); Canadian
Organization of Medical Physicists
Sylvia Fedoruk Prize

MARK FENTON

Extension
Provincial Geologists Medal

ROBERT FISHER

Business
University of Alberta School of
Retailing Researcher of the Year

MICHELLE FOISY

Pharmacy and Pharmaceutical
Sciences
Commitment to Care Disease
Management Initiative Award

EDAN FOLEY

Medical Microbiology and
Immunology
Canada Research Chair

FRASER FORBES

Chemical and Materials Engineering
D G Fisher Award (Canadian
Society for Chemical Engineering)

DUANE FROESE

Earth and Atmospheric Sciences
Canada Research Chair

NANCY GALAMBOS

Psychology
Faculty of Arts Research Award

GERALD GALL

Law
Distinguished Service in Legal
Scholarship (Law Society of
Alberta/Canadian Bar Association)

MICHAEL GÄNZLE

Agricultural, Food and Nutritional
Science
Canada Research Chair

GEORGE GEORGIU

Educational Psychology
Canadian Centre for Research on
Literacy Research Fellowship

MARK GIERL

Educational Psychology
Canada Research Chair

MURRAY GINGRAS

Earth and Atmospheric Sciences
Grover E Murray Memorial
Distinguished Educator Award
(American Association of Petroleum
Geologists)

FLORENCE GLANFIELD

Secondary Education
Alberta Teachers' Association
Educational Research Award

SARAH GLEESON

Earth and Atmospheric Sciences
Young Scientist Award
(Mineralogical Association of
Canada); William Harvey Gross
Award (Geological Association of
Canada, Mineral Deposits Division)

GREG GOSS

Biological Sciences
McCalla Professor

ANDRÉ GRACE

Educational Policy Studies
Ian Martin Award for Social Justice;
Phillip E Frandson Award for
Literature in the Field of Continuing
Higher Education

VICKI HARBER

Physical Education and Recreation
McCalla Professor

ROXANNE HARDE

Augustana
McCalla Professor

LOIS HARDER

Political Science
GSA Academic Staff Award

KATHLEEN HEGADOREN

Nursing
Canada Research Chair

DENISE HEMMINGS

Obstetrics and Gynecology/Medical
Microbiology and Immunology
CIHR New Investigator

GREG HOLLINGSHEAD

English and Film Studies
City of Edmonton Hall of Fame (Arts
and Culture)

CHRISTINE HUGHES

Pharmacy and Pharmaceutical Sciences
CPhA Patient Care Achievement Award for Specialty Practice (AstraZeneca); APEX M J Huston Pharmacist of Distinction Award (Alberta College of Pharmacists)

ARMANN INGOLFSSON

Business
Harold W Kuhn Award (Naval Research Logistics Journal)

NATALIA IVANOVA

Physics
Canada Research Chair

KARIM JAMAL

Business
Haim Falk Award (Canadian Academic Accounting Association)

PETER JASKIEWICZ

Business
Centre for Family Enterprise and Ownership Family Business Case Study Award (Jönköping International Business School, Sweden)

JEFF JOHNSON

Public Health
Killam Annual Professor

INGRID JOHNSTON

Secondary Education
Ted T Aoki Award for Distinguished Service in Canadian Curriculum Studies (Canadian Association for Curriculum Studies)

BRIAN JONES

Earth and Atmospheric Sciences
Killam Annual Professor; J Willis Ambrose Medal (Geological Association of Canada)

HEIDI JULIEN

Library and Information Studies
Graduate Student Supervisor Award (GSA)

ZAMANEH KASSIRI

Physiology
AHFMR Scholar

CYRIL KAY

Biochemistry
Canadian Academy of Health Sciences Fellow

WALTER KIPP

Public Health
Canadian Academy of Health Sciences Fellow

LARS-OLIVER KLOTZ

Pharmacy and Pharmaceutical Sciences
Canada Research Chair

ANDY KNIGHT

Political Science
Harry Jerome Trailblazer Award (Black Business and Professional Association of Canada)

DEEPALI KUMAR

Medicine
Clinical Science Career Development Award—Assistant Professor Level (American Society of Transplantation)

PAUL LAPOINTE

Cell Biology
AHFMR Scholar

ORDAN LEHMANN

Ophthalmology
Canada Research Chair

RICHARD LEHNER

Pediatrics
Canadian Lipoprotein Conference Simon-Pierre Noel Lecturer; AHFMR Scientist

JOANNE LEMIEUX

Biochemistry
AHFMR Scholar

MICHAEL LI

Mathematical and Statistical Sciences
McCalla Professor

XING-FANG LI

Laboratory Medicine and Pathology/Public Health
W A E McBryde Medal (Canadian Society for Chemistry)

VIC LIEFFERS

Renewable Resources
Tree of Life Award (Canadian Institute of Forestry)

ALEXANDER LITVAK

Mathematical and Statistical Sciences
Faculty of Science Research Award

GARY LOPASCHUK

Pediatrics
Distinguished University Professor; AHFMR Scientist

JINGLI LUO

Chemical and Materials Engineering
Canada Research Chair

TAKAHIKO MASUDO

Psychology
Japanese Psychological Association Award for International Contributions to Psychology (Award for Distinguished Early and Middle Career Contributions)

FINLAY MCALISTER

Medicine
Canadian Academy of Health Sciences Fellow; AHFMR Health Senior Scholar

ANDRÉ MCDONALD

Mechanical Engineering
Early Accomplishment Award (APEGGA Summit Awards)

DAVID MCLEAN

Business
Jensen Prize (Journal of Financial Economics)

NANCY MELNYCHUK

Secondary Education
R Tait McKenzie Award of Honour (Physical and Health Education Canada)

PAUL MESSENGER

Business
Best Track Paper (Marketing Strategy and Management Track)

EVANGELOS MICHELAKIS

Medicine
Researcher of the Month (Canadians for Health Research)

IAN MORRISON

Agricultural, Life and Environmental Sciences
Alberta Agriculture Hall of Fame

ZUBIA MUMTAZ

Public Health
AHFMR Population Health Investigator

KYLE MURRAY

Business
Avenue Magazine Top 40 Under 40 (Edmonton)

VAL NAPOLEON

Native Studies/Law
Governor General's Gold Medal
(University of Victoria)

JOE NELSON

Biological Sciences
F E J Fry Award (Canadian Society
of Zoologists); Robert K Johnson
Award (American Society of
Ichthyology and Herpetology)

STEPHEN NORRIS

Educational Policy Studies
Larry Beauchamp Senior
Researcher Award (Faculty of
Education)

GAVIN OUDIT

Medicine
Heart and Stroke Foundation
of Canada/CIHR Distinguished
Clinician Scientist Award; Heart
and Stroke Foundation of Canada
McDonald Scholar; Pfizer
Cardiovascular Research Award

BRENDA PARLEE

Native Studies/Rural Economy
Graduate Student Supervisor Award
(GSA)

RAUNO PARRILA

Educational Psychology
Killam Annual Professor

CARLA PECK

Elementary Education
Pat Clifford Award for Early Career
Research in Education (Canadian
Education Association)

ALEXANDER PENIN

Physics
Mercator Visiting Professor
(German Research Foundation)

LIZA PIPER

History and Classics
Clio Prize (North); KD Srivastava
Prize for Excellence in Scholarly
Publishing

RAY RAJOTTE

Surgery
Canadian Diabetes Association
Lifetime Achievement Award

MARIAN ROSSITER

Educational Psychology
Coutts-Clarke Fellowship (Faculty
of Education)

BEN ROSTRON

Earth and Atmospheric Sciences
Engineers Canada Fellow

AIDAN ROWE

Art and Design
Avenue Magazine Top 40 Under 40
(Edmonton)

CHERYL SADOWSKI

Pharmacy and Pharmaceutical
Sciences
Canadian Society of Hospital
Pharmacists Alberta Branch
Practitioner Award; APEX Partners
in Practice Award (Alberta College
of Pharmacists)

JANE SAMSON

History and Classics
Best Article Prize (*Journal of the
Canadian Historical Association
online edition*)

DAVID SCHINDLER

Biological Sciences
Edward T LaRoe III Memorial Award
(Society for Conservation Biology)

CHRISTIAN SCHLEGEL

Computing Science
Institute of Electrical and
Electronics Engineers (IEEE
Canada) Fellow

RICHARD SCHULZ

Pharmacology
Senior Scientist Award (Canadian
Society of Pharmacology and
Therapeutics)

DONALD SCOTT

Civil and Environmental Engineering
Engineering Institute of Canada
Fellow

SHANNON SCOTT

Nursing
AHFMR Population Health
Investigator

CONSOLATO SERGI

Laboratory Medicine and Pathology
Association of Clinical Scientists
Young Clinical Scientist Award

SIRISH SHAH

Chemical and Materials Engineering
ASTech Award for Innovation in Oil
Sands Research

MARIE-CLAIRE SHANAHAN

Elementary Education
Early Career Scholar (National
Association for Research in Science
Teaching)

VALERIE SIM

Medicine
AHFMR Clinical Investigator

GLADYS STERENBERG

Elementary Education
Alberta Teachers' Association
Educational Research Award

MIRIAM STEWART

Nursing
AHFMR Health Senior Investigator

LISA STROHSCHNEIN

Sociology
Faculty of Arts Research Award
(Assistant Professor)

BRUCE SUTHERLAND

Physics/Earth and Atmospheric
Sciences
Killam Annual Professor

RICHARD SYDORA

Physics
McCalla Professor

CHINTHA TELLAMBURA

Electrical and Computer
Engineering
Killam Annual Professor

FERAL TEMELLI

Agricultural, Food and Nutritional
Science
Alberta Food for Health Award

ANN THOMPSON

Pharmacy and Pharmaceutical
Sciences
Hypertension Canada Certificate of
Excellence

MARCELLO TONELLI

Medicine
Canada Research Chair

LINDA TRIMBLE

Political Science
McCalla Professor

LORNE TYRRELL

Medical Microbiology and
Immunology
Canadian Medical Hall of Fame;
Distinguished University Professor;
Alberta's 50 Most Influential People
(*Alberta Venture*)

ANIA ULRICH

Civil and Environmental Engineering
Alberta Ingenuity New Faculty
Award

JIM UNTERSCHULTZ

Rural Economy
Canadian Agricultural Economics
Society Outstanding Journal Award

THAVA VASANTHAN

Agricultural, Food and Nutritional
Science
Alberta Food for Health Award

JOHN VEDERAS

Chemistry
ASTech Award for Outstanding
Leadership in Alberta Science

TERRY VEEMAN

Rural Economy
Canadian Agricultural Economics
Society Outstanding Journal Award

AKIKO WATANABE

Business
Jensen Prize (Journal of Financial
Economics)

SHARON WATANABE

Oncology
Eduardo Bruera Award for
Excellence in Palliative Medicine
(Canadian Society of Palliative Care
Physicians)

LORI WEST

Pediatrics
American Heart Association
T Duckett Jones Memorial Lecture

DAVID WESTAWAY

Medicine
PrionNet Dr Don Rix Memorial Prion
Mentorship Award

JONATHAN WHITE

Surgery
McCalla Professor

NOREEN WILLOWS

Agricultural, Food and Nutritional
Science
AHFMR Health Scholar

EYTAN WINE

Pediatrics
AHFMR Clinical Investigator

IAN WINSHIP

Psychiatry
AHFMR Scholar

FRANK WUEST

Oncology
AHFMR Senior Scholar

ZHENGHE XU

Chemical and Materials Engineering
Canadian Institute of Mining,
Metallurgy and Petroleum Fellow

YUTAKA YASUI

Public Health
Canada Research Chair

JAMES YOUNG

Physiology
Killam Annual Professor; AHFMR
Senior Investigator

OSMAR ZAIANE

Computing Science
ACM SIGKDD Service Award
(Association for Computing
Machinery)

DAWEI ZHANG

Pediatrics
CIHR New Investigator; AHFMR
Scholar

Support Staff Research Awards

BLAIR HARWOOD

Electrical and Computer
Engineering
Nat Rutter Outstanding Technician
of the Year

STEPHANIE TOLLENAAR

Pediatrics
Louis D Hyndman Senior Research
Team Member Award

Other Awards

DYLAN ANDERSON

Augustana
Association of College Libraries
Instruction Section Innovation
Award for WASSAIL

MARGARET-ANN ARMOUR

Science
Canada's Most Powerful Women:
Top 100 (Women's Executive
Network); APEGGA Honorary
Membership (Summit Awards)

LORNE BABIUK

Vice-President (Research)
Researcher of the Month
(Canadians for Health Research)

NANCY GOEBEL

Augustana
Association of College Libraries
Instruction Section Innovation
Award for WASSAIL

ERIC NEWELL

Special Advisor to the Provost
Petroleum Hall of Fame; Alberta's
50 Most Influential People (*Alberta
Venture*)

INDIRA SAMARASEKERA

President and Vice-Provost
Honorary Doctor of Engineering
Degree, University of Waterloo

Thank you

to the following performers and artists for their contributions to this celebration.

VIDEOS

We wish to thank the

- > ASTech Foundation for permission to use the video on Dr Lloyd Dosdall
