

## Rehabilitation Medicine Students' Association (RMSA)

The Rehabilitation Medicine Students' Association (RMSA) is the sole official representative body of the graduate students in the Faculty of Rehabilitation Medicine (FRM) at the University of Alberta. The RMSA's mission is to enhance FRM students' well-being through interdisciplinary collaboration, opportunities for professional development and student representation. The RMSA aims to foster an inclusive, interdisciplinary community where all students feel supported and represented in the Faculty of Rehabilitation Medicine. You can join the RMSA at [tinyurl.com/MembershipRMSA](http://tinyurl.com/MembershipRMSA).

## Health and Wellness

The health and wellness of Faculty of Rehabilitation Medicine students, staff and faculty is of the utmost importance to us. Individual wellness sessions and group activities are available in Corbett Hall. Email [wellnessfrm@ualberta.ca](mailto:wellnessfrm@ualberta.ca) to make an appointment with the Wellness Coordinator. See [bit.ly/healthwellnessFRM](http://bit.ly/healthwellnessFRM) for more information and wellness news.

## UAlberta Mental Health Hub

Visit the UAlberta Mental Health Hub at [mentalhealth.ualberta.ca](http://mentalhealth.ualberta.ca) for more information about mental health impacts, as well as links to community services and supports.

## Marketing & Communications

The Faculty of Rehabilitation Medicine's communications department is located in 2-28 Corbett Hall. The communications team ensures the Faculty's visual identity is used properly, including logo usage and correct colours on all promotional materials, social media, presentations and the website. Among other things, the communications team also handles the production of branded swag items.

## Campuses

The Faculty of Rehabilitation Medicine offers its programs at three campuses:

- University of Alberta Main Campus (Edmonton) - CSD, OT, PT and RS
- University of Calgary Downtown Campus (Calgary) - OT and PT
- University of Alberta Augustana Campus (Camrose) - PT

## Programs

These programs are offered in the Faculty of Rehabilitation Medicine:

- **MSc in Occupational Therapy**  
Occupational therapists (OTs) help people get back to meaningful everyday activities. They work with people of all ages who have experienced an illness affecting physical or mental health, an injury, or a disability starting early in life.
- **MSc in Physical Therapy**  
Physical therapists or physiotherapists (PTs) keep people active by helping them prevent and manage the effects of congenital diseases, illness, chronic diseases, neurological conditions, accidents and the stresses and strains of everyday life.
- **MSc in Speech-Language Pathology**  
The role of a speech-language pathologist (SLP) is to identify, assess, treat, manage, educate and help prevent language, speech, voice, fluency, cognitive, and other related communication disorders, as well as swallowing problems.
- **MSc and PhD Rehabilitation Science**  
Rehabilitation Science is an interdisciplinary field of study that integrates knowledge from the basic and clinical sciences to improve our understanding of human movement, physical function, and disability across the lifespan and to improve outcomes of people of all ages.
- **Combined Degrees**  
The following combined programs are also available: MScPT/PhD, MBA/MScPT and MScSLP/PhD.
