

Canada Research Chair (CRC) Tier I Professor

Faculty of Science

Competition No. - **A104847449**

Closing Date – March 31, 2022

The Faculty of Science is seeking candidates internal to the Faculty to fulfill (up to) three CRC Tier I positions in all areas of science.

The Canada Research Chairs (CRCs) were established by the Canadian Government to foster research excellence. Tier I Chairs, tenable for seven years and renewable once, are for outstanding researchers acknowledged by their peers as world leaders in their fields. The successful candidate must have a documented, outstanding research record, leading an internationally-recognized research program that is aligned with the [University of Alberta's Strategic Plan](#). Nominees for Tier 1 Chair positions must be full professors or associate professors who are expected to be promoted to the full professor level within one or two years of the nomination. Alternatively, if they come from outside the academic sector, nominees must possess the necessary qualifications to be appointed at these levels. Please consult the Canada Research Chairs website for full program information, including further details on eligibility criteria (<http://www.chairs-chaire.gc.ca/>).

Applicants must hold a Ph.D. in an area of Science. They should demonstrate an excellent record of publications in reputable, high-quality, high-impact, peer-reviewed journals and conferences. They should provide evidence of established teaching and trainee mentoring skills. They should have a demonstrated record of service at the departmental, institutional, national, and/or international levels. Ideally, they should also have a record in participating or leading large-scale, potentially interdisciplinary, research initiatives.

The University of Alberta is committed to the principles of equity, diversity, and inclusion and together we strive to remove barriers that have been historically encountered by some people in Canadian society. The University of Alberta is committed to an equitable, diverse, and inclusive workforce. We welcome applications from all qualified persons. We encourage women; First Nations, Métis and Inuit persons; members of visible minority groups; persons with disabilities; persons of any sexual orientation or gender identity and expression; and all those who may contribute to the further diversification of ideas and the University to apply. In an effort to meet our EDI targets, as established by the CRC program, these chairs are explicitly designated for (a) women, (b) visible minorities and (c) Indigenous persons. Additional information about the specific EDI actions set out by the University of Alberta for the CRC Program can be found in the [University of Alberta CRC EDI Action Plan](#).

The University of Alberta recognizes the legitimate impact that leaves (e.g., parental leave, leave due to illness) can have on a candidate's record of research achievement and that these leaves will be taken into careful consideration during the assessment process.

The successful applicant will be nominated for a Tier I Canada Research Chair. Nominations are subject to review by the CRC Secretariat, and appointment as a Canada Research Chair is conditional upon their approval.

To apply, complete the steps below:

1. Self-identify using the following questionnaire:
<https://docs.google.com/forms/d/e/1FAIpQLSeub3YyAd7abq3X9LtM2OgzAvQS3yyZC3zizIvrXAghmtLbgQ/viewform>
2. Submit your CV along with a 2 page summary of your research record, providing evidence of research excellence. This summary should include a description of how your work aligns with the University of Alberta's Strategic Research Plan. It should also outline your plans for your research program during the anticipated tenure of the chair.

Posting Date: March 1, 2022

The University of Alberta is committed to an equitable, diverse, and inclusive workforce. We welcome applications from all qualified persons. We encourage women; First Nations, Métis and Inuit persons; members of visible minority groups; persons with disabilities; persons of any sexual orientation or gender identity and expression; and all those who may contribute to the further diversification of ideas and the University to apply.

COVID-19 Vaccination: Proof of full vaccination against COVID-19 in compliance with the University's COVID-19 Vaccination Directive. Fully Vaccinated means a status an individual achieves 14 days after having received the recommended number of doses of a COVID-19

vaccine approved by Health Canada or the World Health Organization, and requires the individual to maintain the recommended number and type of vaccine doses as updated and required by Health Canada thereafter.

Canada Research Chair (CRC) Tier II Professor

Faculty of Science

Competition No. - **A104847839**

Closing Date - Jun 12, 2022

The Faculty of Science is seeking candidates internal to the Faculty to fulfill (up to) two CRC Tier II positions in all areas of science. Recent hires with start dates of no later than July 1st, 2022, will be considered.

The Canada Research Chairs (CRCs) were established by the Canadian Government to foster research excellence (<http://www.chairschaires.gc.ca/>). Tier II Chairs, tenable for five years and renewable once, are intended for exceptional emerging researchers, acknowledged by their peers as having the potential to lead in their field.

Nominees for Tier II Chair positions must be emerging scholars, and should typically be within 10 years from their highest degree. Nominating institutions may nominate a professor or a researcher who is more than 10 years from their highest degree at the time of nomination and has experienced legitimate career interruptions. Potential Tier II candidates who are more than 10 years from their highest degree must contact Glen Thomas (crcadmin@ualberta.ca) at the University of Alberta for questions about the institution's Tier II allocations and their potential eligibility for a Tier II Chair via the program's Tier II justification process. Please consult the Canada Research Chairs website for full program information, including further details on eligibility criteria: https://www.chairs-chaires.gc.ca/program-programme/nomination-mise_en_candidature-eng.aspx#s

Applicants must hold a Ph.D. in an area of Science. The successful candidate must have a documented, excellent record of research in an area that is aligned with the [University of Alberta's Strategic Plan](#). They should demonstrate an excellent record of publications in reputable, high-quality, high-impact, peer-reviewed journals and conferences. They should provide evidence of strong teaching and trainee mentoring skills. Ideally, they may also have a record of participating in, or leading, large-scale, potentially interdisciplinary, research initiatives.

To meet our EDI targets, as established by the CRC program, these chairs are designated for candidates who self-identify as (a) women, (b) persons with disability, or (c) visible minorities. Additional information about the specific actions set out by the University of Alberta for the CRC program can be found in the University of Alberta CRC EDI Action Plan.

The University of Alberta recognizes the legitimate impact that leaves (e.g., parental leave, leave due to illness) can have on a candidate's record of research achievement and that these leaves will be taken into careful consideration during the assessment process.

The successful applicant will be nominated for a Tier II Canada Research Chair. Nominations are subject to review by the CRC Secretariat, and appointment as a Canada Research Chair is conditional upon their approval.

To apply, complete the steps below:

- Self-identify using the following questionnaire: https://docs.google.com/forms/d/e/1FAIpQLScG-6Su_YXI9A63WF97uIR6vsE-vkl6GFjZsdZicsoAyEkrJw/viewform. **You must complete the survey as this is mandatory. Your application will not be considered if this survey is not completely filled out and received by the hiring committee.**
- Submit your CV along with a 2 page summary of your research record, providing evidence of research excellence. This summary should include a description of how your work aligns with the University of Alberta's Strategic Research Plan. It should also outline your plans for your research program during the anticipated tenure of the chair.

If you have any questions about this process please feel free to reach out to one of the following contacts:

- Eleni Stroulia, Acting Vice Dean, Faculty of Science, vicedsci@ualberta.ca
- Glen Thomas, CRC Coordinator and Advisor, crcadmin@ualberta.ca

Applicants who require an accessibility arrangement for their application, interview, and/or subsequent recruitment meetings can contact scihrs@ualberta.ca to arrange appropriate accommodations.

Posting date: May 12th, 2022.

How to Apply

Apply Online

Note: Online applications are accepted until midnight MST of the closing date.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.

Canada Research Chair (Tier 2) in Applied Pediatric Immunization Research

NU Nursing

Competition No. - **A102349080**

Closing Date - **Jan 09, 2023**

The Faculty of Nursing invites applications from current employees of the Faculty of Nursing, for a Tier 2 Canada Research Chair. Applicants must currently hold a tenured or tenure-track position at the Assistant Professor or Associate Professor rank.

The COVID-19 pandemic has highlighted the challenges in ensuring high vaccine uptake and the need for equitable access to vaccines. This Tier 2 CRC in Applied Pediatric Immunization Research, will build on the University of Alberta's existing strengths in vaccine development by advancing knowledge generation in applied immunization research to improve vaccine policy and practice, particularly for pediatric immunization. Nurses play a critical role in this activity and nurse researchers are well positioned to be world leaders in applied immunization policy and practice research.

Duties and Expectations:

The CRC will be an exceptional emerging nurse researcher in the area of applied pediatric immunization research who is, or has the potential to be, a national/international expert in the field. The successful candidate will be expected to lead an innovative and productive research program that identifies populations with sub-optimal vaccine uptake and develops tailored interventions focused on reducing inequities in vaccine access and uptake. The candidate is expected to conduct research that guides relevant immunization policy and practice innovations. The successful candidate will be expected to build capacity in immunization-related nursing research and representativeness in the nursing academic workforce through supervision of trainees who identify with under-represented populations, including Indigenous students and members of racialized populations.

Qualifications:

The successful candidate will hold a PhD in nursing, population and public health, or related field. Hiring preference will be given to candidates who have received a minimum of two years of postdoctoral training. The candidate must have proven expertise in working with both quantitative and qualitative data sources, including administrative health data, surveys, and interviews. The successful candidate must demonstrate

active involvement with national immunization research associations, immunization advisory committees, and provincial immunization program and policy organizations. The applicant should have a track-record of interdisciplinary collaboration, with hiring preference to candidates with adjunct positions in other health disciplines, such as public health and medicine. The successful candidate will have an exemplary track record of research collaborations with policy, clinical, and community organizations. Hiring preference will be given to candidates with previous experience collaborating with Indigenous communities. The successful candidate must have current and in good standing, registration with the College of Registered Nurses of Alberta.

CRC Requirements:

Tier 2 CRCs are intended for exceptional emerging researchers (i.e., candidates must have been an active researcher in their field for fewer than 10 years at the time of nomination). Applicants who are more than 10 years from having earned their highest degree (and where career breaks exist, such as maternity, parental or extended sick leave, clinical training, etc.) may have their eligibility for a Tier 2 Chair assessed through the program's [Tier 2 justification process](#). Please consult the University of Alberta CRC Coordinator, Glen Thomas (crcadmin@ualberta.ca) for more information. Full program information, including details on eligibility criteria and acceptable leaves, can be found on the Canada Research Chairs website: <http://www.chairs-chaire.gc.ca/home-accueil-eng.aspx>.

The University of Alberta recognizes the legitimate impact that leaves (e.g., parental leave, leave due to illness) can have on a candidate's record of research achievement and that these leaves will be taken into careful consideration during the assessment process.

The successful applicant will be nominated for a Tier 2 Canada Research Chair. Nominations are subject to review by the CRC Secretariat, and appointment as a Canada Research Chair is conditional upon their approval.

To Apply:

1. All applicants to this job posting are required to self-identify. Applicants will receive a questionnaire link from equity@ualberta.ca within 2-3 weeks of submitting their job applications. The survey will be sent to the email address that is listed on the application. Please be sure to check the spam box. Please do not forward the link as it is unique to the email address. For any questions or concerns, please contact equity@ualberta.ca.

NB: The University of Alberta must collect self-identification data from all applicants as part of its participation in the CRC Program. This data is used to ensure that the institution is progressing towards meeting its EDI targets as set by Ottawa.

2. Submit a current CV, including a one-page description of the proposed CRC Tier Applied Pediatric Immunization Research by clicking the "Apply Online" button below by December 31, 2022.

Questions about this competition, should be sent electronically to nuhr@ualberta.ca.

Applicants who require an accessibility arrangement for their application, interview, and/or subsequent recruitment meetings can contact wdechant@ualberta.ca to arrange appropriate accommodations.

Posting date: November 25th, 2022.

How to Apply

Apply Online

Note: Online applications are accepted until midnight Mountain Standard Time of the closing date.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. If suitable Canadian citizens or permanent residents cannot be found, other individuals will be considered. The University of Alberta is committed to an equitable, diverse, and inclusive workforce. We welcome applications from all qualified persons. We encourage women; First Nations, Métis and Inuit persons; members of visible minority groups; persons with disabilities; persons of any sexual orientation or gender identity and expression; and all those who may contribute to the further diversification of ideas and the University to apply.
