FUNDS FROM OTHER SOURCES

- This section is different from the Proposed Contributions Plan section.
- This is for listing the host institution and all partner organizations and other contributors that are providing cash and/or in-kind contributions.
- All cash and/or in-kind contributions must be stated as confirmed or not confirmed and indicated in Canadian currency.
- Include the Source Name (e.g, XYZ Foundation), amount and identify the contribution type (cash/in-kind) – e.g., *XYZ Foundation \$2000 per year confirmed and cash, XYZ Foundation \$3000 per year not confirmed and cash and then XYZ Foundation \$2000 per year confirmed and in-kind (separate cash and in-kind and confirmed and not confirmed)*.
- Where contributions are from a single funding source with more than one contribution of the same type (cash/in-kind) and same confirmation status (confirmed/not confirmed), the contributions must be combine into one entry – e.g., two \$20,000 cash from University of Alberta becomes \$40,000 cash.

Funds from Other Sources

You must list all other sources of funding for the proposed project, including whether these funds are already confirmed or not. If you do not know whether you will receive other contributions (e.g. from industry or other sources), you must indicate the amount you are expecting to receive and the source of the funds. Do not list funds that are not expected to be received by the applicant.
