[Apply](#)**Department**

Faculty of Science - Deans Office

**Posted date**

February 18, 2025

**Closing date**

March 21, 2025

**Position Type**

Full Time

## Description

This opportunity is open only to current Faculty members of the Faculty of Science of the University of Alberta. Recent hires with start dates of no later than May 1st, 2025, will be considered. The University of Alberta is committed to working for equity, diversity, inclusion, and access and to deepening and living out commitments to Indigenization and decolonization. The University of Alberta thus strives to remove barriers that some people in Canadian society and in postsecondary environments continue to experience and to build an accessible, equitable, and inclusive culture in support of the full participation of its diverse workforce. The CRC Program has identified four designated groups (FDGs): women and gender minorities; Indigenous Peoples; members of racialized minorities; and persons with disabilities. To support its commitments, the University of Alberta welcomes applications from all qualified persons who self-identify as a member of the following group: women and gender minorities. Additional

information about the specific actions set out by the University of Alberta for the CRC program can be found in the University of Alberta CRC EDI Action Plan. (<https://www.ualberta.ca/research/media-library/services/awards-funding/ualberta-equity-action-plan-resubmission-september-2019-2.pdf>).

The Canada Research Chairs (CRCs) were established by the Canadian Government to foster research excellence (<https://www.chairs-chaire.gc.ca/home-accueil-eng.aspx>). Tier 1 Chairs, tenable for seven years and renewable once, are for outstanding researchers acknowledged by their peers as world leaders in their fields.

#### Position Eligibility:

Applicants must hold a Ph.D. in an area of Glycomics in Science and be full professors or associate professors who expect to be promoted to full professor within one or two years of the nomination date. The successful candidate must have a documented, outstanding research record, leading an internationally-recognized research program that is aligned with the University of Alberta's Strategic Plan (<https://www.ualberta.ca/research-innovation/media-library/misc/ualberta-srp-2019-191129.pdf>). They should demonstrate an excellent record of publications in reputable, high-quality, high-impact, peer-reviewed journals and conferences. They should provide evidence of established teaching and trainee mentoring skills. They should have a demonstrated record of service at the departmental, institutional, national, and/or international levels. Ideally they should also have a record in participating or leading large-scale, potentially interdisciplinary, research initiatives.

CRC requirements: Please consult the University of Alberta CRC Coordinator, Glen Thomas ([crcadmin@ualberta.ca](mailto:crcadmin@ualberta.ca)) for more information. Full program information, including details on eligibility criteria and acceptable leaves, can be found on the Canada Research Chairs website: <http://www.chairs-chaire.gc.ca/home-accueil-eng.aspx>.

The University of Alberta recognizes the legitimate impact that life circumstances such as disability, leaves (e.g., parental leave, leave due to illness), and other family and community responsibilities can have on a candidate's record of research achievement. These life circumstances will be taken into careful consideration during the assessment process.

The successful applicant will be nominated for a Tier 1 Canada Research Chair. Nominations are subject to review by the CRC Secretariat, and appointment as a Canada Research Chair is conditional upon their approval.

To apply:

1. All applicants to this job posting are required to self-identify. You will be able to view and answer the survey by clicking the 'Apply' button. For any questions or concerns, please contact [equity@ualberta.ca](mailto:equity@ualberta.ca).
2. Submit a current CV, including a two page description of the proposed CRC Tier 1 research program. Please ensure that this two page document highlights the existing research strength of your program and how it might move forward if offered a CRC Chair. Please include EDI aspects in the discussion of your existing and planned research and ensure that your discussion is appropriate for both discipline specialists as well as others across the breadth of the Faculty of Science by clicking the 'Apply' button below by March 21, 2025.

Questions about this competition should be sent electronically to:

Lisa Stein, Associate Dean Research (Mentorship & Awards)  
[sciad.mentorshipandawards@ualberta.ca](mailto:sciad.mentorshipandawards@ualberta.ca)

Applicants who require an accessibility arrangement for their application, interview, and/or subsequent recruitment meetings can contact [sci.researchadmin@ualberta.ca](mailto:sci.researchadmin@ualberta.ca) to arrange appropriate accommodations.

Posted: February 18, 2025

**We thank all applicants for their interest; however, only those individuals selected for an interview will be contacted.**

*The University of Alberta is committed to an equitable, diverse, and inclusive workforce. We welcome applications from all qualified persons. We encourage women; First Nations, Métis and Inuit persons; members of visible minority groups; persons with disabilities; persons of any sexual orientation or gender identity and expression; and all those who may contribute to the further diversification of ideas and the University to apply.*

Apply

**Note:** This opportunity will be available until midnight March 21, 2025, Edmonton, Alberta local time.
