The School of Library and Information Studies and the Digital Humanities Program offer a combined MA in Digital Humanities/MLIS program that students can complete within three years. Students are required to complete a minimum of ★45 in coursework and a thesis.

Students pursuing the combined degree must take ★12 in Digital Humanities required courses and ★6 in Digital Humanities options. They must also take ★18 in Library and Information Studies required courses and ★9 in LIS options. The MLIS requirement to complete ★6 from a list of designated Information Technology courses is fulfilled by content covered in the Digital Humanities courses.

Units of Course Weight (commonly referred to as credits) are represented by the symbol ★ here and in the University Calendar.

Students are strongly encouraged to take the required Digital Humanities courses during their first year. Students must also complete a thesis. The student's thesis committee should normally include faculty members from both programs.

A full-time student who is registered for the joint MA/MLIS degree normally will be able to complete the degree requirements in three years.

## ETHICS AND ACADEMIC CITIZENSHIP REQUIREMENT
