

Faculty of Rehabilitation Medicine Conference Fund

Purpose

The Conference Fund supports conferences that contribute to scholarship and are sponsored or hosted by the University within Alberta. It is the only fund at the University for this purpose. The funding for the Conference Fund comes from the Office of the Vice-President (Research and Innovation).

Successful applications will be awarded up to \$3,500.

To ensure maximum use and distribution of the limited University of Alberta funds available, applicants are expected to seek other sources of support in addition to this fund.

Criteria

- Scholarly merit
- Evidence of serious application for additional sources of funding
- The identity and qualifications of key speakers (confirmed or tentative) and/or the general qualifications expected of other presenters
- Conference registration must be open rather than by invitation (paid registration is strongly encouraged), supporting diverse and inclusive participation

Eligibility

- Eligible costs include:
 - honoraria to speakers
 - travel, per diem, and accommodation for speakers
 - space and equipment rental
 - reproduction of materials and proceedings
 - support for child care for participants
- Each conference is eligible for only one conference grant.
- Applicants must be a full-time academic staff member in the Faculty of Rehabilitation at the University of Alberta
- Meetings of a purely consultative type are not eligible (e.g., working groups.)
- Faculty or Departmental “Research Days” are not normally funded
- Courses for credit or sessions that aim to upgrade or enhance professional credentials are not eligible.
- Only applications for upcoming events will be accepted. Events that have already occurred prior to submission of the application are not eligible.

Priorities

Conferences are more likely to receive funding if:

- They are hosted at the University of Alberta
- Trainees have a role in the planning and/or execution of the event
- They are scholarly and/or research-related. Public dissemination of knowledge is valuable, but conferences emphasizing public dissemination alone, with little contribution to scholarship, receive lower priority.

Adjudication

This competition will be adjudicated by a subcommittee of the Faculty of Rehabilitation Medicine Research Committee. An application may be rejected if it is found to be unsatisfactory or incomplete in some part.

Deadline and Submission

Applications are due September 1, 2022 to Victoria Latimer at vlatimer@ualberta.ca.

Note that a complete application must include either a draft program, or a call for proposals indicating presenters (tentative or confirmed) and their general qualifications.

It will take approximately six weeks to consider and adjudicate an application following the competition deadline.

For assistance or more information

Please contact Victoria in advance of the deadline if you require assistance or additional information.

FRM Conference Fund Application Form

Application must be typed or completed on a computer.

1. Host:
