## Student Testimonial

"SJC is a place for learning, worshipping,

growing and sharing with others. It has taught me the importance of living my faith in my community... that we all may have different backgrounds but a common language of love and fraternity.

SJC has provided me with strength for facing new realities far away from my family and home. It's an opportunity to grow as a person, as a student, as a professional... SJC fulfills the UofA goal of "uplifting the whole people" by integrating faith, life and science."
